# POLICE ARREST FALSE FIRE ALARM SUSPECT

## Murder Charge Against Banks Dismissed

### No Bill Returned Against Barney Banks by Grand Jury in Connection With Methuen Murder

BARNEY BANKS

#### SAY HUNDREDS BURIED ALIVE

##### Tokio Arrivals From Hakone Mountains Describe Effect of Quake

TOKIO, Sept. 10.—(By the Associated Press) Probably three-fourths of the houses in Tokio are uninhabitable, for while but half of the capital was destroyed, the other half was damaged severely.

The thousands who are sleeping out, no doubt prefer this, since earthquakes continue, some of them rather sharp. Sleep for the nerve-stricken people is next to impossible.

Arrivals from the Hakone mountain describe the remarkable effect of the earthquakes there where mountains toppled, filling up their valleys and burying alive many hundreds of persons.

#### DRACUT HOME RAZED BY FIRE AT NOON TODAY

Fire totally destroyed one home and seriously threatened two others in Dracut at noon today. Only the piano was saved from the home of Mr. and Mrs. Clarence H. Williams in Elmwood terrace, off the Lawrence-Lowell boulevard. The home was completely destroyed and all other contents a total loss.

The house of William Dawson on one side of the Williams house, and the Phillips residence adjoining on the other side were both badly scorched and only the valiant and timely efforts of the firemen saved a more serious conflagration.

**Too Late to Save House**

Upon reaching the premises the firemen laid two lines of chemical, while a line was being connected to a cistern on the highway, about 75 feet below the building. At that time the flames were shooting through the roof and the streams seemed to have no effect upon the fire.

#### SPEAKER OF HOUSE AT LOWELL ROTARY CLUB

Hon. Benjamin Loring Young, speaker of the Massachusetts house of representatives and considered one of the most forceful and able of the new generation of Massachusetts politicians, was the speaker today at the meeting of the Lowell Rotary club held in the quarters of the Boys' club in Dutton street.

This was the first weekly meeting after the summer schedule of monthly gatherings and the attendance was large.

Mr. Young vigorously assailed the appearance of the Ku Klux Klan in New England and branded it "the most dramatic example of the spirit of intolerance."

### SUSPECTED FALSE ALARM FIEND HELD BY LOCAL POLICE FOR INVESTIGATION

Francis H. Cashman of Belmont Picked Up About 3 O'Clock This Morning by Police After Four False Alarms of Fire Had Been Rung in From Different Boxes—Cashman Unable to Tell How He Landed in Lowell

Behind a charge of drunkenness lodged against Francis H. Cashman, 26, of 710 Pleasant street, Belmont, in the district court today, is the belief that he was responsible for four false alarms of fire sent in from boxes in the neighborhood of the North common at an early hour this morning. In order that the police may further investigate, the case was continued.

Cashman was picked up by Officers Owen Conway, Nickles and C. Brown on Broadway, near Mt. Vernon street, at 2 o'clock this morning. He was, the police said, under the influence of liquor. Questioned by Capt. Petrie before court, Cashman said his mind was a blank as to what

### REFUGEES CREDIT U. S. DESTROYER OFFICERS WITH MOST OUTSTANDING ACT OF HEROISM AT TOKIO

Craft Dashed Up Bay to Rescue Marooned Foreigners in Japanese Capital—Stunt Involved Unknown Dangers—Americans First Rescuers to Reach Stricken City—Japanese Premier Thanks Pres. Coolidge for Aid

LONDON, Sept. 11.—The Kohi correspondent of the Central News says that refugees arriving on the steamer that refugees arriving on the steamer Empress of Australia credit the commander and officers of the American naval destroyer 217 with the most outstanding act of heroism following the earthquake. This was the dash of the craft up Tokio bay to rescue marooned foreigners in the Japanese capital.

Ocean-going vessels rarely attempt to steam further up the gulf than

Yokohama and for Americans to take their ship to Tokio through the shadowy waters of the upper bay after the sudden upheaval involved unknown dangers.

The commanders of other ships at Yokohama warned the United States navy men that it was too early to attempt to reach Tokio; nevertheless, destroyer 217 made the run and the Americans were the first rescuers to reach the city after the disaster. As it was impossible to dock the craft

#### REPORT TROTZKY ASSASSINATED

Message From Moscow Says Soviet War Minister Has Been Murdered

Details Not Given—No Confirmation of Report, Says London

LONDON, Sept. 11.—(By the Associated Press) A Central News dispatch from Berlin says it is reported from Moscow that Leon Trotzky, the Russian soviet war minister, has been assassinated. No details are given. There is no confirmation of the report.

Reports of the death of Premier Lenin, War Minister Trotzky and other prominent members of the Russian soviet government have frequently been circulated. Serious reports regarding the condition of Trotzky's health were current early this year but the news dispatches since have shown him pursuing his usual activities.

The thousands who are sleeping out, no doubt prefer this, since earthquakes continue, some of them rather sharp. Sleep for the nerve-stricken people is next to impossible.

Arrivals from the Hakone mountain describe the remarkable effect of the earthquakes there where mountains toppled, filling up their valleys and burying alive many hundreds of persons.

#### TO COST PUBLIC \$35,000,000

**Settlement of Coal Dispute Characterized as Patchwork**

by Byron R. Newton

Will Cost Public About \$35,000,000 With Penn. as Chief Beneficiary

GLOVERSVILLE, N. Y., Sept. 11.—Settlement of the anthracite coal controversy was characterized by Byron R. Newton, former assistant secretary of the treasury, as a patchwork which will cost the public about \$35,000,000, with Pennsylvania as the chief beneficiary. In an address today before the New York State Coal Merchants' association convention,

"The public will pay from 75 cents to one dollar more on each ton of coal," Mr. Newton said. "The curse rests with the public in urging the closest co-operation between operators and public."

Passenger Train Derailed Near Readville Station Today

BOSTON, Sept. 11.—The engineer and fireman of a New York, New Haven and Hartford train bound from Fall River to Boston were fatally injured and 16 passengers received serious injuries when the train was derailed near the Readville station today. The engineer and fireman, who died soon after their removal from the overturned engine were Stephen T. Gotham of Taunton and A. Anderson of Fall River.

## Bundle of Blood Stained Clothing Found in Malden is Turned Over to the Tyngsboro Police

Believed That Clothing May Have Some Connection With Dress Suit Case Murder Mystery—No New Local Developments—Diver Working at Mouth of Mud Brook—Upton's Pond Not Yet Searched

A bundle of blood-stained women'sers thought he located a suspicious object in a room of the elect, but a boat hook brought only a

Tyngsboro for investigation as to any possible connection with the dress suit case murder mystery.

A white muddy blouse, with what appeared to be a 5 by 10 inch blood stain on the left arm, a brown plaid sport skirt, striped in green, and a black scarf, all of good material and little wear, comprised the bundle of clothing. The stain showed signs of having been in water.

The search in the waters of the Merrimack river by Tyler John D. Robinson reverted today to the mouth of Mud brook, so-called, where the first of the two suitcases was found. This spot is slightly more than half a mile below Tyngsboro bridge on the bounded side.

The only other easy approach to the pond is from the rear of the wagon shed in back of the Congregational church, but unless persons

were particularly familiar with the neighborhood this method of entry would not easily be located.

Medical Examiners McGrath of Suffolk county and Atting of Middlesex county, today began an examination of the parts of the woman's body taken yesterday from Lowell

to the Harvard Medical school. This autopsy will require several days before a report is submitted to District Attorney Arthur K. Reading.

Neither of the medical examiners will make public any report on their own initiative.

## THOUSANDS ON ROOFS OF SKYSCRAPERS TO GREET GIANT AIRSHIP WHICH FLEW OVER N. Y. TODAY

ZR-1, Leviathan of the Air, Escorted by Five Seaplanes, Visits Metropolis—A. P. Man Stationed in Woolworth Tower Describes Flight—Thousands in Streets Below Could Be Seen Craning Their Necks, as They Gazed Upwards as Out of Deep Canyons—Ships in Harbor Roar Welcome

WOOLWORTH TOWER, New York, Sept. 11. (By the Associated Press)—The giant airship ZR-1 today flew up from her hangar in Lakelhurst, N. J., to visit New York.

New York was on its toes to greet her. Roofs, visible for miles from the Woolworth tower, were crowded with spectators. In the streets low, thousands could be seen craning their necks, as they gazed upwards as out of deep canyons.

The giant craft first was sighted from the tower after she had passed over quarantine and headed up the harbor toward the statue of Liberty.

The sun gleamed on the dirigible's sleek gray sides and her rudder with

## OBSERVANCE OF THE JEWISH NEW YEAR HELD SECRET MEETING

The Jewish New Year having been ushered in with the setting of the sun last night all members of the orthodox faith in Lowell have commenced on the observance of the first of a long line of holy days.

Jewish merchants throughout the city have in many cases closed their places of business until sunset of Wednesday night when the period of observance of the new year will have ended.

Sourness and Indigestion, Liver Troubles Conquered by Dreco — Constipation and Headaches Disappear.

### USE OF MEMORIAL AUDITORIUM ORGAN

Consideration of the best manner in which the organ at the Memorial Auditorium can be used so as to give enjoyment to the greatest number of people will be taken up next Monday evening by the Auditorium trustees, who have invited a number of local organizations to meet with them at that time for the purpose of discussion. This informal committee of organizers will serve with the trustees in an advisory capacity in order that the instrument may be put only to the best use and to make positive that all players called upon to use it are qualified to do so.

The trustees met last night for the first regular session of the fall and winter season and in addition to transacting considerable routine business pertaining to its management granted several dates. Chairman Charles H. Holson presided over the meeting and Mayor John J. Donavan and Trustee Frederick Estes were present. Mr. Bouger's health still will not allow him to meet with the trustees.

One of the most important dates granted last night was that of Nov. 19 for the use of the main Auditorium by the Ukrainian national chorus, who made a positive sensation in their country-wide tour last year. The chorus will come to Lowell under the auspices of the Washington club. In order to adapt the stage to theatrical performances the trustees have ordered wings and an artistic frame or covering for the proscenium arch.

Call today at Green's Drug Store and ask to talk with Mr. Preble, the expert from the Dreco Laboratories. He will courteously tell you of the merits of this wonderful remedy. Also he will honestly tell you whether or not he thinks Dreco will benefit you. Dreco is sold in Nashua by Nashua Drug Co., 175 Main St. —Adv.

## GOVERNMENT EXPENSES BERLIN IS OPTIMISTIC

Landis, Heydler and Stoneham Met Behind Closed Doors in New York

NEW YORK, Sept. 11.—A secret meeting was held here last Saturday night by Baseball Commissioner Landis, Pres. Heydler of the National League, and Charles A. Stoneham, president of the New York National League club, but both Mr. Heydler and Mr. Stoneham today declined to discuss its nature. Commissioner Landis returned to Chicago Sunday.

It was believed in baseball circles that the conference concerned talk of the \$100,000 fine imposed by Commissioner because of his indictment in the Fuller-Metcalf bucket shop case. Mr. Stoneham denied today that he was asked to sell out and said the trio agreed to secrete for the time being.

The matter may be discussed in Chicago Sunday when the National League begins its annual meeting to attend the memorial service for the late "Cap" Anson.

### USE OF MEMORIAL AUDITORIUM ORGAN

Consideration of the best manner in which the organ at the Memorial Auditorium can be used so as to give enjoyment to the greatest number of people will be taken up next Monday evening by the Auditorium trustees, who have invited a number of local organizations to meet with them at that time for the purpose of discussion. ## CHURCH CELEBRATES 17TH ANNIVERSARY

In observance of the 17th anniversary of the founding of St. Martin's parish in South Lowell, Sunday, the members of Branch St. Marie, A. C. F. received communion in a body at the 8 o'clock mass and the church service was followed by a street parade and breakfast and reception in the quarters of the organization in Carmine street.

The celebrant of the mass was the pastor, Rev. Joseph Denis, O. M. I., who also delivered the sermon, touching upon the observance and taking occasion to congratulate the Artisans for the magnificent showing they made in church.

At the close of the mass the men headed by the Zouaves drum corps of Notre Dame de Lourdes' parish marched from the church to the hall in Carmine street, where they sat around the festive board and partook of the substantial breakfast prepared for them under the direction of Mrs. Alphonse Surprenant, assisted by Mrs. John Polonion, Mrs. J. B. Gendron and Mrs. Joseph Christman. At the close of the meal post-prandial exercises were held with President Albert Morin acting as toastmaster. A musical program was given by a choir composed of 60 young women of the parish, under the direction of Mrs. Albert Morin, Jr., and there were interesting remarks by Rev. Fr. Denis, O. M. I., J. A. Plante and Armand Surprenant. There were also vocal selections by Mr. and Mrs. Albert Morin, accompanied on the piano by Miss Cecile Sauvageon. The Zouaves also entertained with selections. The committee in charge consisted of George Lessard, Armand Surprenant and Albert Morin.

## Suspected False Alarm'

### Fiend Held by Police Continued

away from the Adams and Cross location.

By this time the fire officials were fairly positive that someone was trying to "hold" them out of a night's rest and a special detail of police was scouring the general neighborhood for suspicious persons. About 10 minutes after the last of the false alarms of alarms Cashman was arrested in Broad-

way. Cashman was photographed and finger-printed the police learned from Belmont that a number of suspicious fires have occurred near the railroad yards in that town during the past few months. It was learned from Cashman himself, that he is employed in a railroad freight office in Belmont.

## When that Recipe is lost

that you tucked away for safekeeping, it is not necessary to go without cake in the house. It will take only a moment to send one of the children over to the grocery or delicatessen store to buy a loaf of Drake's Cake. It will be cheaper, also, for it takes a coal fire as well as a recipe and ingredients to bake cake for the family.

## FUNERALS'

## WILL STUDY FOR THE PRIESTHOOD

**EARLEY**—The funeral of Mrs. Annie (O'Keeffe) Earley, took place this morning from her home, 28 West Third street, and proceeded to St. Michael's church, where at 10 o'clock a solemn high Mass was said by Rev. Eugene Aloysius. Ministrants consisted of Rev. James P. Lynch as deacon and Rev. Thomas J. Beagney as sub-deacon. The choir under the direction of Miss Margaret Griffin rendered the Gregorian chant. At the offertory Mass was sung by Rev. E. Donnelly, singing the "Domine Jesu Christe," and after the elevation the "Pie Jesu" was rendered by Miss Griffin. The song of the Mass were sustained by Mrs. Margaret McDonough Maguire, Mrs. Ella Kelly Tracy presiding at the organ. The Mass was concluded with the "Amen." The body will be sent to Danville, Canada, for burial by Undertakers James P. O'Gorman & Sons.

**BRODEUR**—The funeral of Raymond Brodeur, infant son of Adelpho and Venecia (Lahesque) Brodeur, took place yesterday from the home of his parents, 10 Aiken avenue. Burial was in St. Joseph's cemetery, under the direction of Amedeo Archambault & Sons.

## DEATHS

**TROTTER**—Arthur Trotter died last night at the Chelmsford Street hospital, aged 41 years. He was survived by his wife, Georgiana (Lovesey) Trotter, three sons, Charles, Edward, and Frank Trotter; one brother, Victor Trotter; and two sisters, Mrs. Eugenia Dupras and Mrs. Harry Norris, all of this city. The body was removed to his home, 63 Easton street, by Undertakers Ainegoz Archambault & Sons.

**LUNN**—Mrs. Elizabeth Lunn died yesterday at the home of her son, 555 Middlesex street, after a long illness. She had been a lifelong member of First Church of the Nazarene. She is survived by four sons, Simmons, Fred, Amos and Enoch Lunn, all of Lowell; two daughters, Mrs. A. Kingsbury of Bridgewater, Me., and Mrs. A. Smith of Wilmington; one sister, Mrs. Ruth Miller of Beverly, and three brothers, John and William Jamison of Bridgewater, Me., and Douglas Jamison of Haverhill.

**DUFFY**—Mrs. Matilda (Perry) Duffy died last night at the home of her daughter, Mrs. Julia (Duffy) MacDonald, 656 Middlesex street, aged 59 years. Besides her daughter, she leaves one grandson, Clifford Rita MacDonald. The body was removed to the rooms of Undertaker George W. Healey, 236 Westford street.

**QUEALEY**—James J. Quale, son of James J. and Mary (McCarthy) Quale, died Sept. 9, at the James McCarthy Memorial hospital, Long Branch, N. J., aged 7 years and 11 months. He leaves besides his parents, one sister Pauline Quale. The body will be removed to the home of his aunt, Mrs. Catherine Cain, 17 Hudson street. Funeral, at 10 o'clock, Saturday morning.

**MCDONALD**—Daniel P. Murray, a well-known resident of this city for the past 15 years, died this morning at the Lowell Corporation hospital, after a brief illness, aged 33 years. Deceased was a constant attendant of St. Michael's church. The body was removed to the home of Frank A. Crossley, 45 Hudson street, by Undertakers James P. O'Gorman & Sons.

**DUDITIS**—Died Sept. 9, at North, N. J., aged 3. Peter Duditis, aged 35 years. He leaves besides his wife Mary, two sons, Joseph and Winifred. He was a member of D. K. Algida Lithuanian society. The body was removed to Lowell by Undertaker J. Sadowski.

**FERGUSON**—The many friends of Raymond C. and Annie M. (Kearns) Ferguson, will regret to hear of the death of their infant daughter, Elsie May Ferguson, who passed away at the Lowell Corporation hospital Monday afternoon, aged 1 day. The body will be removed to St. Bernard's funeral home, 217 Appleton street.

**AINSLY**—Alfred H. Ainsley, beloved son of Alfred and Alice (Walter) Ainsley, died this morning at the home of his parents, 473 Riverside street, Dracut, aged 1 year, 2 months and 28 days. Besides his parents he leaves one sister, Miss Alice T. Ainsley.

**COLETTE**—Joseph H. Colette, aged 2 days, infant son of Mr. and Mrs. Louis and Anna (Fitzgerald) Colette, died Sept. 9, at the home of his parents, 177 Park Street, this afternoon in St. Joseph's cemetery, under the direction of Undertakers Ainegoz Archambault & Sons.

## FUNERAL NOTICES

**DEEPEY**—Died Sept. 10th, in this city, Mrs. Madeline (Pearce) Tully, at the home of her daughter, Mrs. Julia (Tully) MacDonald, 656 Middlesex street. Funeral services will be held at the Purcell church, 238 Westford street, on Wednesday afternoon at 2.30 o'clock. Friends are invited without further notice. Burial will be at Burlington, Vt. The funeral arrangements are in charge of Undertaker George W. Healey.

**QUALEY**—Died Sept. 9, at Long Branch, N. J., James J. Quale, Funeral with full rites, Saturday morning at 10 o'clock from the home of his aunt, Mrs. Catherine Cain, 17 Hudson street. Funeral high mass of requiem will be sung at St. Peter's church at 9 o'clock. Burial will be in St. Patrick's cemetery. The arrangements are in charge of Undertakers M. H. McDonald & Sons.

**AINSLY**—Died Sept. 9, at the home of his parents, 473 Riverside street, Alfred H. Ainsley, beloved son of Alfred H. and Alice (Whitel) Ainsley, Dracut, aged 1 year. There will be a funeral high mass at St. Michael's church at 9 o'clock. Burial in St. Patrick's cemetery in charge of Undertaker Joseph Sadowski.

**SMUTT**—Died in this city, Sept. 10, at the Lowell Corporation hospital, Prince Smith, aged 23 years. Funeral services will be held at his home, 37 South Whipple street, on Wednesday afternoon at 2 o'clock. Friends are respectfully invited. Undertaker William H. Saunders in charge.

**CARD OF THANKS**

We wish to express our sincere thanks to all those who by their acts of kindness, moral and spiritual offerings and expressions of sympathy helped to lighten the sorrow caused by the death of our mother,

JAMES McGUIRE.

THE LOWELL SUN TUESDAY SEPTEMBER 11 1923

REGULAR MONTHLY MEETING OF THE DIRECTORS OF THE LOWELL SOCIAL SERVICE LEAGUE WILL BE HELD IN THE CHAMBER OF COMMERCE ROOMS IN THE FAIRBURN BUILDING. AN INTERESTING REPORT ON THE SUMMER WORK WILL BE READ BY THE SECRETARY AND A REPORT ON THE FINANCIAL CONDITION OF THE LEAGUE WILL BE MADE BY THE TREASURER.

SOCIAL SERVICE LEAGUE

The regular monthly meeting of the directors of the Lowell Social Service League will be held in the chamber of commerce rooms in the Fairburn building. An interesting report on the summer work will be read by the secretary and a report on the financial condition of the league will be made by the treasurer.

## NATIVES OF HAWAII NOW FEAR MT. KILAUEA'S RUMBLINGS

MT. KILAUEA

By N.E.A. Service  
HILO, Hawaii, Sept. 11.—Natives, mind of the Japanese earthquake disaster, are looking fearfully at Mt. Kilauea, most famous volcano of the Hawaiian Islands.

Recently it has been very active. This is especially true since the quakes

in Japan, and it indicates the extent of the subterranean upheaval that all but destroyed Yokohama and Tokio.

Situated on the south slope of Mauna Loa, on the Island of Hawaii, Kilauea

is three miles across. Quake experts

suspect it will probably die out altogether.

Superstitious Hawaiians will tell you that when Kilauea erupts, Pele, goddess of volcanoes, is wrathful. Many beautiful stage dramas have been written around Kilauea, which probably accounts for its widespread notoriety.

Many promotions in the commissioned

and non-commissioned personnel of the regiment will be made within a few days as several commissioned officers who were appointed for service this year have taken six subjects and will be unable to drill.

A change in the drill periods has also been made. Last year the boys drilled on Monday, Wednesday and Friday of each week and Tuesday and Thursday of the next. This year, half of the boys will drill on Monday and Thursday of each week and the second half will drill on Tuesdays and Fridays. In this way will attend school until Thursday.

Many changes have been made in the course of studies by boys and girls who undertook the summer vacation classes. Members of these classes think back last year and are now ready to go ahead with their own classes. The make-up examinations

for these pupils are not yet completed

but, out of 145 examinations taken, 86 students have passed and it is expected that the percentage will be much higher before the close of the examinations.

Candidates for the high school regiment reported at drill home yesterday. Major Colby Kittredge, military instructor, and he formed 12 companies of 50 men each. Last year there were but 10 companies of the same strength.

The regiment band has already held two practice sessions to prepare for the participation in the Sousa concert at the Irish auditorium next Monday. About 35 boys have attended the rehearsals. Beginning immediately, boys of the regiment who belong to the band will practice during the drill period on their respective days and the whole band will practice during drill period on Wednesdays. Major Kittredge is director of the band.

Gymnastic classes for both boys and girls started yesterday and a call for

candidates for the football varsity

squad was issued today by James Lisson, coach. The squad will meet this afternoon at Alumni Field and will be in practice tomorrow afternoon. The freshman squad will report at Alumni Field next Monday after school.

Four new teachers have been added to the ranks of the instructors at the high school. Miss Mary Dowd, a graduate of Framingham Normal school, has taken the position in the Home Economics department, resigned by Miss Jennifer C. McAlpin. Miss Anna Gardner, graduate of Boston university, will join the French department next Thursday. Miss Frances O'Brien, graduate of Emmanuel college, has joined the English department; and Miss Loretta Harrington is teaching penmanship in the commercial department.

Beginning tomorrow tickets for the lunch room will be placed on sale in the main office for 20 minutes before the opening of school and for the same period after the close of school. Students purchasing their luncheon tickets at this time will not have to stand in line to get places at the lunch period. The financial end of the conduct of the lunch room rests on the commercial department, boys and girls from that department selling tickets and keeping the accounts. The prep-

aration of the luncheons is in the hands of the home economics department.

Many additional opportunities are now open to girls desirous of taking the home economic course. The study of millinery has been added to the dress-making course and the cooking course has been supplemented by home nursing, care of children, invalid's diet, and food for children. This course now embraces all the subjects that come under the heading of "Home Economics" and the course fully prepares a girl for the study of home economics or domestic science at college or for the care and conduct of the home.

## RECRUITING FOR COMPANY C

Recruiting for Company C, 28th division, Massachusetts National Guard, will open tomorrow evening at the armory on Westford street. This company is an infantry unit and is under the command of Capt. Donald C. MacIntyre.

## STILL ALARM

A still alarm was sent in at 1:37 o'clock this afternoon, for a slight blaze in a curtain at 883 Gorham street.

## THEY CALLED HIM AN "OLD PILL"

THAT was years ago when he packed a terrible grouch, a mighty irritable stomach and a liver that refused to do the things that all good livers should. No wonder his friends called him an "old pill" and stayed away.

But that was years ago—long before he discovered Beecham's Pill and learned that two at bedtime can bring sunshine into a man's life. Today, he's an optimist, a hero to his wife, and a staunch believer in Beecham's Pill.

The cheer that Beecham's Pill brings into a man's disposition, is the incomparable cheer of sound digestion, active liver, and the regular habits that make good health.

## CURIOS FREAKS OF NATURE IN FLORIDA

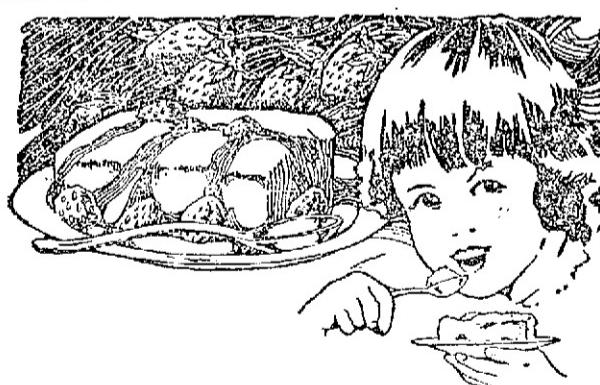

TALLAHASSEE, Fla., Sept. 11. (By the Associated Press.)—The traveler in West Florida, unfamiliar with the scenery of that section, should prepare himself for some curious freaks of nature. Otherwise he may waste unnecessary time groping for an explanation of the strange behavior of three of the state's rivers. The old bon and shell game expression, "Now you see it and now you don't," applies to parts of all of them.

A description of these streams has been written by W. A. McElroy, commissioner of agriculture, who quotes a young man who has spent his life on the banks of the waterways. The substance of it follows:

The Wacissa rises in "Beautiful Springs," near Thomas City, on the Tallahassee-Southeastern railroad, not far from the state capital, and flows due south to within three miles of the Aucilla river, where it disappears underground and then reappears in the Aucilla. Legmen have cut a small canal from the point of disappearance to the Aucilla.

The Aucilla rises in Georgia and flows in a southwesterly direction, forming the eastern boundary of Jefferson county, Florida. About three miles south of where the Tallahassee-Southeastern forms a junction with this river, the Aucilla sinks and runs underground in a winding way for possibly 12 miles, rising about three miles north of where the Wacissa comes into it from the Aucilla.

The course of the river is traced by sink-holes and can be seen plainly. As proof of this, an object dropped into the stream where it first sinks, is seen to rise and pass through the various sinks.

## GOWNS OF 1918-1919

## BACK IN STYLE

CHICAGO, Sept. 11.—Women who have not given away their gowns of the 1918-1919 vintage are in line to save a neat bit of money in outfitting themselves this season, for the newest styles show only trifling changes from the modes of those years.

A new belt and an adjustable bustle and a little readjustment of the old gowns and the family checkbook will be saved an awful wallops.

This pleasing discovery was made in looking over the styles exhibited at the 10th semi-annual convention of the Fashion Art League, which opened yesterday. Popular models this fall will be the Indo-Chinese and those reminiscent of 1850. Skirts will be worn shorter for the street, but will remain longer for evening wear.

"Basic styles have changed very little," said Mrs. Carolyn T. Cadnor Lewis of New York, one of the 1500 members of the league. "An old gown, with the skirt altered a bit, a pouf here, or a belt put on or taken off, will do very well this season."

An adjustable bustle made of ribbons may be a popular fad this fall. Sheath skirts with slits to make walking easy are coming back. Feather bracelets worn on bare arms, are another whimsy of the coming season.

Coolidge brown and "Love apple" (tanato) red will be shades much worn. In fact, any Chinese colors will be good. For suits, black, dark blue and navy will retain their popularity.

The Japan disaster will hit the American pocketbook in more ways than one. Prices of silk are likely to be advanced 50 per cent.

## GERMAN RELICS RECALL WORLD WAR DAYS

HONOLULU, Sept. 11. (By the Associated Press.)—Memories of the World war were revived here recently with the opening and official sale of trunks, boxes and bags of German sailors who were carried from merchant ships here to serve aboard the German cruiser Nurnberg, which sailed from this port shortly after the declaration of war by Germany. The cruiser went down with all hands in the battle off the Falkland Islands on Dec. 8, 1914.

When the German sailors, all naval reservists, left Germany aboard their various vessels—the Fluminen, gettos, Prins Waldemar, Holstein, and others—they carried with them pictures of home groups and many trinkets, which came to light when the luggage was opened preparatory to auctioning off the contents. The bags also contained momentos of many far lands—Java, India, the Straits Settlement, China, New Guinea and Borneo.

When Germany declared war nearly all of the German merchants in the Pacific hastened toward Honolulu for safety. The cruiser Nurnberg, pursued by British and Japanese vessels, put in for coal and supplies. There was need for haste and all of the reservists aboard the merchantmen were transferred to the Nurnberg. The men could take only a small portion of their effects with them. The remainder were placed in the trunks, boxes and bags, which were taken in charge by the collector of customs when the United States declared war on Germany.

For six years the effects have been in the customs house. Recently, as the result of correspondence between the German ambassador at Washington and the state department, permission was granted to auction off the luggage and people.

Senator Smith W. Brookhart of Iowa, another speaker at the fair, discussed the agricultural situation in the middle west and declared the farmers' remedy lies in economic co-operation.

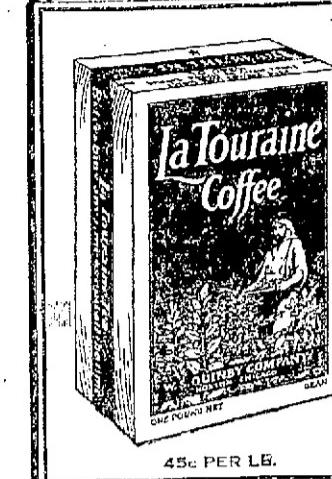

## WORK STARTS ON MOFFATT TUNNEL

DENVER, Colo., Sept. 11. (By the Associated Press)—With the bonds financing the construction of the Moffatt tunnel through the Great Divide delivered to the New York buyers, the actual work on the big hole already has been started. Despite the fact that prospective bidders for the construction work were granted a delay in which to prepare their estimates, work at the tunnel site has not been postponed, according to President William P. Robinson of the tunnel company.

"The tunnel will be well underway before snow flies," President Robinson said. "Eighty men are employed, about

40 at each portal. The camp is nearing completion; a water system is being installed which will be adequate for all purposes, and a preliminary power plant is being set up. All of these works are to be taken over by the successful bidder, and will have saved him in his start before winter sets in. After that the work can proceed without hindrance."

Electric power lines will be extended to both portals of the projected tunnel before Oct. 15, instead of November 15 as planned originally, Mr. Robinson said. Duplicate lines which will carry current for 1000 horsepower are being run so that there will be little likelihood of interruption of work from that source.

## All Laundry Starch Troubles Overcome with Linit, the New Scientific Starch Discovery

\* \* \*

**B**ECAUSE of the unusual quality of remaining thin and free-running like water, Linit penetrates every thread of the fabric. This reinforces the strength of the fabric, helps prevent wear, and prolongs the life of the material.

## New Starch Discovery

**L**INIT is a scientific starch discovery—distinctly different from old-fashioned starches. It was originally made for the makers of fine fabrics who had to secure the finest possible finish.

Now, for the first time, it is offered to the housewife. With Linit you can get the same won-

derful finish you have always admired in goods that come direct from the store.

Linit gives a soft, cool, pliable finish to your garments. And you will find your Linit-starched clothes and fabrics remain clean and fresh much longer. Also, Linit makes even ordinary cotton goods look and feel like expensive linen.

## Important to You

**L**INIT makes a THIN "MILKY" MIXTURE, free-running like water, which is quickly absorbed by the fabric, thus saving the time and labor of "smearing on", which was customary with old-fashioned starches. The Linit mixture does not present the stiff, jelly-like appearance of ordinary starch. This is why you will find it much easier to iron with Linit.

Your grocer now has Linit, 10c

—Perfection in starching guaranteed or your money refunded.

Linit is made by the Corn Products Refining Company—makers of the famous Argo Starch, Karo Syrup and Maize Salad and Cooking Oil.

CORN PRODUCTS SALES CO.  
47 Farnsworth St. Boston, Mass.

Makes Cotton look and feel like Linen

## MATERIAL REDUCTION IN FIRE LOSSES

(Special to The Sun)

BOSTON, Sept. 11.—Fire losses in Massachusetts, outside the city of Boston, were materially reduced during the month of August, as compared with the July record, according to information tabulated by Col. Alfred F. Foote, commissioner of public safety.

During July the total losses amounted to \$1,387,944, while in August the figure was only \$747,779, the decrease amounting, in round numbers, to one-third.

Carelessness, as usual, was the chief cause of fires, as well as of the principal losses. Careless smoking alone was the cause of more than 100 fires, with losses totalling \$189,508. Matches used carelessly caused 30 fires, the losses in which were \$17,720; children playing with matches started fires which burned property valued at \$24,584. Defective electrical apparatus was the cause of losses amounting to \$15,669.

Spontaneous combustion also continues to figure largely in the fire losses, having caused 32 fires last month, with total losses of \$165,508. This cause is generally attributable to oily rags and cloths, and a little care in disposing of such material would tend greatly to reduce fires in this state.

Sparks from chimneys caused damages totalling \$139,755, and carelessness in the use of fireworks at public displays was responsible for a small number of fires in this state.

## EXAMINATION FOR CHAUFFEURS

Thirty-seven prospective chauffeurs were examined at city hall by the state highway examiners this morning. Of that number there were 5 women and 32 men.

## Do You Have Heartburn? This Man Knows a Real Relief

He Now Eats Everything Without Suffering—

Recommends O'Brien's

Most everyone knows the feeling of stomach distress and heartburn. It attacks even those in the best of health. To combat these ailments, the advice of Charles Yahouf, 102 Temple street, Worcester, R. I., is well worth following:

"I have taken O'Brien's for dyspepsia with gratifying results. After meals I would feel oppressed with gas in the stomach and heartburn. I took 3 tablets of O'Brien's and can now eat everything without any bad effects. I take great pleasure in recommending it to any person afflicted as I was."

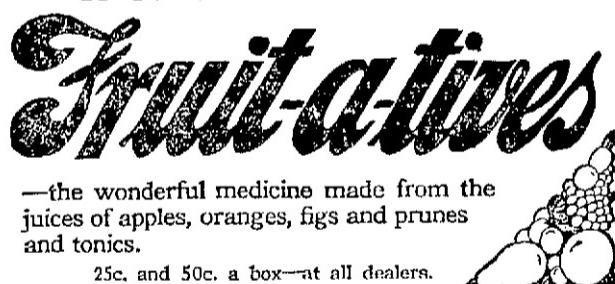

If you have stomach trouble of any kind—Dyspepsia, Indigestion, Heartburn, Gastritis, Colic, Ulcerated Stomach,

**OCCUPATION OF CORFU**

**Italy Not to Leave Island Until Greece Has Fulfilled Her Promises**

**PARIS, Sept. 11.—(By the Associated Press)—**The British government is more interested in the question of when the occupation of Corfu will end than in the other aspects of the Greco-Italian controversy, it was remarked by Lord Crewe, the British ambassador, in the ambassador's council yesterday.

Baron Avezzano, the Italian ambassador, said in substance that Italy could not leave the island until Greece had fulfilled her promises.

**MARY GARDEN'S NAME A HOUSEHOLD WORD**

It is not unusual in a country of such magnificence as ours for an artist to rise rapidly to a position of authority and renown of such distinction that the great world of music lovers regards her name as a household word, deifying her personality in the imagination, yet without that personal acquaintanceship which the close contact of artist with audience bestows. This is true indeed when applied to Mary Garden, talented artist who will give a concert in the Memorial Auditorium October 1.

Hence it followed as an inevitable sequitur that the services of the distinguished vocalist are demanded in all parts of the United States. Engagements for her appearance in concerts were arranged relatively soon after the singer made her sensational successes in the Manhattan Opera House, and Mary Garden became the adored star in concert as she was the stellar magnet in opera, conquering cities as she went on winning phenomenal successes wherever she appeared.

The period of the war discovered the unique prima donna adding the allies to the uttermost of her power; penetrating as she had to the actual zone of battle, and unselfishly abandoning the abundant pecuniary and artistic rewards invariably her portion, to give of her strength, time and purse to a cause which fired her enthusiasm.

It was only after many entreaties that Miss Garden reluctantly yielded to the persuasions of her friends, and consented to re-enter the arena of concert where so many of her triumphs have been won.

Numerous engagements have already been booked for Miss Garden, who is said to be in superb vocal as well as physical condition.

**MRS. G. W. HALL SICK FOR YEARS**

**Wants Women to Know How She Was Made Well by Lydia E. Pinkham's Vegetable Compound**

Lima, Ohio.—"Indeed, your medicine is all you say it is! I had very severe troubles such as women often have, and could do no heavy work. I was sick for several years, and from reading your ads. I finally decided to take Lydia E. Pinkham's Vegetable Compound. I am now doing my own washing, which I haven't done for several years, and can walk long distances without those dragging pains and weak feelings. The Vegetable Compound is fine, and I never forget to say a good word for it to other women when they say they need something."—Mrs. G. W. Hall, 539 Hazel Avenue, Lima, Ohio.

There are many women who find their household duties almost unbearable owing to some weakness or derangement. The trouble may be slight, yet cause such annoying symptoms as dragging pains, weakness and a run-down feeling.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for such conditions. It has in many cases relieved those symptoms by removing the cause of them. Mrs. Hall's experience is but one of many.

**CORNS stop hurting in one minute!**

For quick lasting relief from corns, Dr. Scholl's Zino-pads stop the pain in one minute by removing the cause—friction and pressure.

Zino-pads are thin, safe, antiseptic healing, waterproof and cannot produce infection or any bad after effects. Three sizes—for corns, callouses, and bunions. Cost but a trifle. Get a box today at your druggist's or shoe dealer's.

**Dr. Scholl's Zino-pads**

Put one on—the pain is gone!

**ROUGH, PIMPLY SKIN Cleared Up In Few Days**

No woman need have a repulsive, unsightly skin—ten chances to one it's caused by constipation and a lazy liver, which is easily and quickly remedied. For a good, safe, purely vegetable regulator which will keep your system clean, as nature intended.

**TAKE SCHENCK'S MANDRAKE PILLS To Night**

Over 80 Years the Standard

**SUIT FOR \$1,000,000**

**Last Survivor of Famous Dalton Gang Seeks Damages from Minn. Publisher**

**MINNEAPOLIS, Sept. 11.—**Emmett Dalton, last survivor of the famous Dalton gang, which operated in Kansas and Kentucky years ago, filed suit in federal district court here seeking \$1,000,000 damages from William H. Pawlett, publisher of a monthly magazine, because of articles published in the periodical.

The articles, it is alleged, reflected on "the character of the gangsters, who had a high code of honor, even in their career of crime."

Since Dalton was released from prison in 1907, he has devoted much of his time to lectures on the subject of right living.

**NEW CHARTER WINS IN PORTLAND ELECTION**

**PORLTAND, Me., Sept. 11.—**Portland will begin the new year with a new form of municipal government as the result of yesterday's special election at which the charter providing for a council of five to be elected from the city at large without regard to ward lines or party designation, and a city manager to be chosen by the council was adopted after it failed to receive approval by about 100 votes when proposed two years ago.

The new charter was sponsored by a non-partisan committee of 100 which included prominent business men who sought a change of government. While it was generally known that the influence of the Ku Klux Klan was being strongly exerted in favor of this plan, officials of that organization did not come out definitely for it and Chairman Alexander T. Laughlin of the committee denied that, if adopted, it would be a victory for the Klan. No claims of victory or other statements had been made by the Klan officials but it was known that the Klansmen who had been partisans of the council-manager charter were highly elated at the result.

Out of 17,615 votes cast, the plan adopted had 9,924, or 1116 more than the 50 per cent of the total vote which was required under the provisions of the referendum.

For retention of the present charter, 6,631 were polled while 760 votes were for the revised charter plan proposed by a committee headed by Mayor Carroll S. Chaplin.

One member of the council will be elected annually after the first year on the first Monday in December for a term of five years and will receive a salary of \$500 annually.

Another important change will be the formation of a new school board of seven members, elected at large, for terms of three years. The present board has 12 members, one from each ward, and three at large.

**SKATING SEASON OPENED LAST NIGHT**

A large crowd turned out for the re-opening of the local roller skating rink at the Crescent rink, Hurl street last night. The spacious hall had been closed to skaters since last June, when the equipment was moved to Hampton beach for the summer months. The beach season, which was very successful, was closed last Saturday, and the skates, organ, etc. came over the road Sunday, to be installed for last night's session. New skates and new music have been added in anticipation of a busy fall and winter season. The large attendance last night justified the action of the management, during the season other improvements will be made to provide further enjoyment for those who enjoy a night on the rollers. Sessions will be held every evening except Thursday. On Saturdays there will be sessions afternoon and evening.

**BOSTON BROKER HELD FOR LARCENY**

**BOSTON, Sept. 11.—**Harry F. Coombs, president of Coombs, Crouch & Co., investment brokers, was arrested here today on a secret indictment warrant charging the larceny of \$5000 from John Nolan of Lenox, Mass. The indictment recites that Coombs received 60 shares of Franklin Motor Co. stock from Nolan, having promised to sell them for him, but that he failed to pay Nolan for the securities.

**REPORT OF BIRTHS For Week Ending Sept. 7**

**Aug. 30.—To Mr. and Mrs. Earl A. Rogers, 342 Watertown street, a daughter; Mrs. Mary James R. Goulds, 21 Cambridge terrace, a son; to Mr. and Mrs. Adam Roman Lewiwicz, 31 Brattleton avenue, a son; to Mr. and Mrs. Anthony McNulty, Armand street, a son.**

**Aug. 31.—To Mr. and Mrs. John Dydik, 239 Fayette street, a daughter; to Mr. and Mrs. Joseph Beaumont, 256 Cheverill street, a daughter; to Mr. and Mrs. Joseph Husse, 141 Gordon avenue, a daughter; to Mr. and Mrs. George Kermets, 91 Summer street, a daughter.**

**Sept. 1.—To Mr. and Mrs. Stavas Kretas, 10 Prince street, a daughter; to Mr. and Mrs. John R. Paul, 134 Tilden street, a son; to Mr. and Mrs. Edward J. McNamee, 109 Franklin street, a daughter; to Mr. and Mrs. Antonio V. Giardina, 18 Lawrence street, a son; to Mr. and Mrs. William Landolt, 18 Greendale avenue, a son.**

**Sept. 3.—To Mr. and Mrs. Antonio Solizano, 220 Charles street, a daughter.**

**Sept. 4.—To Mr. and Mrs. Thomas J. Sherrill, 37 Marlboro street, a daughter; to Mr. and Mrs. George W. Mulvey, 240 Hale street, a son; to Mr. and Mrs. Alfred Bonnecheau, 20 Jordan street, a son; to Mr. and Mrs. Thomas Baldwin, 7 Keene street, a daughter.**

**Sept. 5.—To Mr. and Mrs. Antoine Briquette, 14 Ward street, a daughter; to Mr. and Mrs. Alfred Paquette, 881 Rogers street, a son.**

**Sept. 6.—To Mr. and Mrs. John Modzinskiowski, 96 Andover street, a daughter; to Mr. and Mrs. Joseph O. Therriault, 6 Hamel place, a daughter.**

**Sept. 7.—To Mr. and Mrs. John H. Michael, 59 Queen street, a son; to Mr. and Mrs. Oscar E. Landry, 34 Ward street, a son.**

**No Demonstration at Corfu**

**CORFU, Sept. 11.—**News that both Greece and Italy had accepted the proposals made by the inter-allied council of ambassadors for the settlement of the Greco-Italian dispute was received quietly here and there was no demonstration. There is a tendency among the Italian authorities to wonder how long the occupation will continue. Some hazard the opinion that the evacuation will take place immediately and that all the forces will be out in 15 days. Others expect it will take a month or two for Italy to withdraw.

**PAUL E. GARRITY JOINS THE NAVY**

**Paul E. Garrity of 445, Chelmsford street has enlisted in the navy as a freshman, third class, and will spend the next six weeks in training at the New-**

**port station. Garrity is well known among the younger element in this city. During the past summer he was prominent as a pitcher and outfielder with the Belmont team of the City Twilight league. He was a sophomore at high school and during the football season, he was a member of Coach Liston's eleven.**

**"CHOCOLATE" NIGHTS AT THE KASINO**

**TOMORROW AND THURSDAY NIGHTS**

**Tomorrow and Thursday nights will be "Chocolate" nights at the Kasino dancing pavilion in Thorne-dike street. Affairs of this nature have met with unusual success in the past and it is a foregone conclusion that the coming events will witness a repetition of the same popularity. Besides the beautiful music, including waltz and fox-trot numbers dispensed by Campbell's orchestra, the dancers will be given an opportunity to participate in a little fun of another variety. Various spots will be chalked off on the dance floor and the couple holding the lucky place as determined by the turn of a wheel, will be awarded prize boxes of chocolates of a well-known brand.**

**On Friday night of this week, Russell Howard and Katherine Tobin of Cambridge will entertain Kasino patrons with their own clever and original dance interpretations. This couple has starred in ballroom dancing throughout New England and made a decided hit on a previous appearance here three years ago. The management also has a stellar program for next week.**

**MAYOR MYLAN BETTER**

**SARATOGA SPRINGS, N. Y., Sept. 11.—The improvement in the condition of Mayor John F. Mylan of New York city, which began earlier in the week, continued last night. At 8 o'clock this morning he was still sleeping, with temperature, pulse and respiration normal.**

The Associated Press is exclusively entitled to the use for reproduction of all news dispatches credited to it or not otherwise credited in this paper and also the local news published herein.

## THOSE CROSSING LINES

When the school children or some of them, returned to school yesterday morning, they were surprised to find two parallel lines of white painted across the streets from the school entrances front and side. The intention, we believe, is to have the children cross the street in each case between these parallel lines and thus avoid scattering all over the street in a crowd, thus exposing themselves to danger of accident. It is a good idea and if properly carried out will reduce the number of accidents in the vicinity of schools.

It is well to teach the children to observe street and sidewalk lines. When they are on the sidewalks, it will be well if they observe that the space so designated is distinct from the street and from the lawn on the other side. Some school children seem unable to distinguish between the sidewalk and the lawn adjoining. They usually prefer to walk upon the lawns rather than upon the sidewalks.

Perhaps it has never occurred to the average boy, that when he moves along a street, he passes through a network of boundary lines relating to streets, sidewalks, real estate ownership, as well as political divisions known as wards, districts and counties, not to mention meridians and parallels of latitude that mark respectively our distance east or west from Greenwich and north or south from the equator.

It would be well for every school boy to familiarize himself with these lines and learn that his duty may be in reference thereto. There are also invisible lines which the children should observe. They are the lines of duty, of responsibility, the division between right and wrong, good and bad, too little and too much, industry and shiftlessness, caution and recklessness. It is wonderful what a lesson there is in separating lines where as the poet says:

"And thin partitions oft divide  
The bounds where good and ill reside."

So it is with safety and danger. In the crowded conditions of city traffic it is often but a single step from the zone of safety to that in which danger threatens instant death.

## WAR AVERTED

Apparently the danger of war between Italy and Greece has been averted and for the nonce the League of Nations stands as an effective agency for promoting peace. But had Italy persisted, the question arises as to what the league would have done. It has no international army to send against a recalcitrant power, and the only other weapon that it could use would be the economic boycott.

As that has never been tried, its efficacy cannot be properly estimated. But the very existence of the league and the fact that it can control a combination of nations in behalf of world peace, must have a restraining power that will doubtless increase as time goes on, unless the league is utterly smashed by some of the great powers, or by making it the tool of any international clique or alliance.

## WHOSE THE CREDIT?

It seems that the citizens of Pennsylvania are up in arms against President Coolidge in account of a telegram sent by him to Gov. Pinchot thanking the governor for co-operation in settling the coal strike. The Pennsylvanians think it was the governor who settled the coal strike and that he did so after the federal government had thrown up its hands and said it could do nothing more toward reaching a settlement. If President Coolidge deserves any credit for the settlement that has been reached, it is because he had the good sense to call in Gov. Pinchot as the executive of the state in which the trouble occurred and the one man clothed with power to influence the parties in conflict. Governor Pinchot has secured a settlement of the present strike; but there is nothing to prevent the recurrence of similar conditions next year, and the years following in the coal mines of Pennsylvania. To settle the trouble finally, is a matter to which Congress will have to give its attention and it may have to solicit the co-operation of the government of Pennsylvania. We do not see that Governor Pinchot has done anything to bring him to the front as a presidential candidate. The controversy in regard to who should get the credit for settling the strike is somewhat similar to that which was waged in reference to the battle of Santiago harbor in the Spanish-American war. Admiral Sampson was commander of the fleet, but he was not present at the battle. Admiral Schley, his subordinate, was present and directed the attack. Nevertheless, according to the rules of war, Admiral Sampson, who had prepared for the battle, got the credit of the victory. So, we assume, it would be in case of the coal strike. President Coolidge will get the credit and Governor Pinchot will be regarded as merely an important factor in the case.

## THE POLITICAL ASPECT

The coal question, so far as the strike goes, has been settled largely to the satisfaction of the miners which, perhaps is right. Governor Pinchot recommends to President Coolidge that steps be taken to prevent any increase in the price of coal as a result of the settlement, which will not be even additional for every ton of coal mined. He would throw upon the president the responsibility for any increase in price, hinting that it should be taken from the profits of the operators and the railroad rates for freightage.

It would probably be more difficult to have the operators stand the increase or the railroads eat their rates than to have the miners drop their demand for higher wages and collectivization. Apparently Governor Pinchot is playing a shrewd game in which his own political future is an ever-present factor in the case. At least, he is named by some as a candidate for vice-president, at which time his friends take offense, and by others as no out-and-out candidate for president on the ground that he settled the strike, not as the agent of President Coolidge, but as chief executive of Pennsylvania.

It seems that if a man in public office does his simple duty with any degree of efficiency or courage the fact is to be recognized as making him a presidential possibility. Already Pinchot is being touted as a candidate for presidential nomination; but of course any native citizen may as well do the office.

The matter of preventing a coal strike is important, but if the terms of settlement will add to the price of coal, the affair will not prove very

## SEEN AND HEARD

New rule permits Turks to have gold teeth. It will make them grim.

Russians will celebrate Christmas this year. Hope they get razors.

Canadian duck season has opened. Canadian farmers had better duck.

Since 30,000 horses are killed in bull fights in Spain every year they ought to use flivers.

## Thoughts

Consider how much more you often suffer from your anger and grief, than from those very things for which you are angry and grieved.—Marcus Antonius.

## Did Not PHL Show

John, tipping the scale at 278 pounds, on motor run through Colorado, arrived in a little town about 1 p.m. He saw what appeared to be a restaurant. Parking his car with a broad white apron, unbuttoned from behind curtains, John inquired, "Do you serve meals here?" The man with the apron sized him up from top to bottom, and finally answered, "We do, but we do not fill up slots."—Denver Post.

## Found His Friend

A man from Bennington, Vt., came to Chelsea to look up an old friend, and being a police officer naturally went to the police station to make inquiries. Lieut. Pugman looked through the directory and the telephone book, and failed in other ways to locate the man, but not succeeding he invited the Vermont officer to look over the police station. As they were examining the office, a voice called, "Hello, friend," and there was the man they had been hunting for, getting over a jug behind the bars.

## True to Life

A western critic was invited by a friend to witness that worthy's latest play, doing well on Broadway. The critic spent an uneasy hour and then started out. The playwright stopped him in the lobby. Said the latter: "What's the matter?" "You call this a drama of New York society?" "Why not?" "My friend," said the critic, "the dialogue is the merest hokum. It is the dullest, most trite stuff I ever listened to in all my life!" "I thank you for your tribute to my realism," chirped the author of the play.—Rehoboth Sunday Herald.

## Hard to Explain

Prior to the World war, naval officers did not wear their decorations except on special occasions, but by the fall of 1918 all that was changed. An officer at that time who had an appointment with his wife was standing outside a hotel and bathhouse, waiting for her in front of a New York department store. Several typical metropolitan urchins gathered around him and began questioning on the source of his decorations. One of them asked him, "Hey, master, you been to France?" "Yes," replied the officer. "How long was it now, over there?" "About a year?" "How many battles were you in?" "None." "What's all this? You got an ace chest?" "They are ribbons indicating medals." "What's the gallant one?" "That one is for China." Then realizing that he was going to be questioned about each ribbon in turn, the officer, pointing to each, explained what it was: "This one is for the Spanish war; that one is for the Philippines; this one is for China—but" But the disappointed youngsters had heard enough. Cutting short the officer's remarks, the largest one said in a disgusted tone, "Aw, can't you fellows? He only got doze things for visitin' places."

## The Sands of Dee'

"O Mary, go and call the cattle home,  
And call the cattle home,  
And call the cattle home,  
Across the sands o' Dee."

The western wind was wild and dank  
Wf' foam.

## And all alone went she.

The creeping tide came up along the sand.

And e'er and o'er the sand,

And round and round the sand,

As far as eye could see;

The blinding mist came down and hid the land;

## And never home came she.

"O, it is wet, or fish, or floating hair,

A tress of golden hair,

O drowned maiden's hair—

Above the nets at sea?

Was never salmon yet that shone so fair,

## Among the stakes on Dee."

They rowed her in across the rolling waves—

The cruel, crawling foam,

The cruel, hungry foam,

To her grave beside the sea;

But still the hearten hear her call the earth home.

Across the sands o' Dee.

—CHARLES KINSLEY.

## INSPECTION OF GEN.

## ADELBERT AMES CAMP

The regular meeting and inspection of Gen. Adelbert Ames Camp, U.S.A., was held last night in Memorial Hall and was largely attended. There were several visitors present.

Com. Walter J. Jones presided at the meeting and, following short business session, two new members were inducted into the camp.

The official who conducted the annual inspection was Department Inspector Elmer R. Endicott, and he ably conducted the camp for the inspection work and pointed the officers in charge for the inspection in the work of the society. He also told of the legislative work that is being done for the members of the organization and appealed to the local members to work in every way possible in this work.

Among the visitors who addressed the gathering were the following: Com. Frank Zelen of Cleveland, 12th Com. Com. Edward Marshall, J. Hogan of Cambridge, Past Com. Cavanagh of Waltham, Light Assistant M.R. Bernard O'Conor of Cambridge and Past Com. E. C. Parker of Cambridge. The main theme discussed by these visitors was the 25th anniversary of the organization to be celebrated on October 12 of this year.

Following the business session, Adjunct Captain was served and brought to a close one of the most interesting meetings of the local organization.

## WILL DEDICATE POLISH HOME

The Gale estate located at the corner of Washington and Bradlee Streets, Lowell, which was recently purchased by Polish section of this state, will be dedicated October 12 at a Polish home for Americans of Polish descent. This building will also be the headquarters for the society, which is making plans for the exchange between American and Polish universities which have been established in Poland.

It is remarkable what a shrinkage appears in the reported number killed and wounded in the Japanese earthquake. The fact seems to be that not even the Japanese government will ever be able to enumerate the victims for the reason that no general census of the population has been taken and only a limited number of the residents even of Tokio and Yokohama were registered.

It is assumed that everybody is trying to help the police solve the murder mystery.

## Tom Sims Says

Pinchot says he will go through with coal troubles until cat is skinned. We may be this cat.

Auto hit a man named Solinski in Los Angeles. Our guess would be the auto though he was a Pole.

People who don't like stock actors will enjoy learning one was jailed for speculating in Oregon.

Chicago agents have seized 1,591,640 bird eggs. Grand Opera will open in Chicago soon.

People liking turtles better than snakes will enjoy learning a turtle nearly drowned a Delaware cop.

About 6000 cases of beer were seized in Philadelphia, but the weather is getting cooler now.

Thousands of auto drivers will enjoy learning a truck knocked a train off the track in New Jersey.

Major General March has married. Now he will learn how it feels to obey orders.

Major General Davis claims he read 144 books in 18 days. We claim he had a platoon helping him.

Michigan vacationist was lost in the woods 63 days. Just think of the money it saved him.

Two brothers parted 60 years ago in Boston. Bet one said, "Where is that necklace of mine?"

The Prince of Wales will travel incognito. That's nothing. All of us travel that way.

Lloyd George continues to prove his greatness. He will visit America without lecturing.

Prize fighter in Pierce, N.H., punched the referee. May claim he mistook him for a baseball umpire.

Had a 40-mile canoe race on the Illinois river. The man best at paddling his own canoe won.

They say Luis Firpo, the boxer, is saving his money. Well, he has to fight to get the stuff.

St. Louis wife says she will follow bubbly until desert sands grow cold. So no romantic. He owes her \$11,000.

Michigan woman wants \$75,000 heart balm. Aw, have a heart woman!

Estimates place the golf players in the United States at 3,000,000, which is a lot of missing.

## NEW PRESS FOR HARDING STAMP

WASHINGTON, Sept. 11.—The demand by postmasters throughout the country for supplies of the new Harding stamp has become so great that it was necessary to authorize the Bureau of Engraving and Printing to issue a special postage stamp. The first day of issues, used heretofore only on one-cent stamps, it was announced by Postmaster General New yesterday.

Perforation by the rotary press will be 10 by 10 instead of 11 by 11, as in the flat bed press, the perforations being made in one operation instead of two.

The first of the Harding memorial stamp printed on the rotary press will be placed on sale at the Washington postoffice and the Philatelic agency, Wednesday, Sept. 12.

## THE MAN ABOUT TOWN

The ushering in of the Jewish New Year, brings to our minds that in three more months we too shall usher in a New Year, and a Leap year at that. No doubt Cap'd will do his utmost.

Although the air was a bit chilly for bathers Sunday afternoon, nevertheless, many took their last dip of the season at the municipal bath house. The day was ideal for after-bath strolls, and there were many who congregated at the bath house on the closing day. There were not as many children as usual, due to the fact, perhaps, that the opening of school and the minor details attending, occupied their minds to such an extent that a last dip was forgotten.

Lowell members of the Legion who attended the state convention at Marblehead last week, say "Joe" Jones made a creditable showing in the contest for state treasurer. Mr. Jones has done great work for the local post and has served efficiently in several capacities. His entry into state politics was late and to this end his supporters credit his defeat.

John J. Walsh, who was a candidate for re-election as state historian, withdrew from the contest in favor of Dr. F. E. of Andover, the successful candidate. Dr. F. E. is the author of several interesting books on the World war and the Lowell delegation feels he will make an able historian.

Sanitary conditions at the old Edison school remain unchanged with the resumption of fall activities says a member of the faculty. Persons interested in the erection of a new school in the South End district are disappointed. I am told, by the unremedied conditions existent in this educational centre. The upper portion of the school condemned as unsafe last January, has been abandoned for use by the school authorities and only nine rooms are in operation this year. The question again presents itself, "When will a new and modern school be erected?"

Following the business session, Adjunct Captain was served and brought to a close one of the most interesting meetings of the local organization.

# DEMPSEY HAS NO FIXED PLAN IN MIND FOR BATTLE FRIDAY NIGHT

## CHAMPION TO WAIT FOR OPENING AND THEN CRASH OVER WITH HARDEST SOCK HE CAN LAND

**May Decide to Fight Firpo the Way He Fought Willard Back in Toledo—Firpo Begins to Taper Off His Training—Is in Fine Condition**

SARATOGA SPRINGS, N. Y., Sept. 11. (By the Associated Press)—When Jack Dempsey steps out of his corner in the Polo Grounds ring Friday night, to defend his title against Luis Angel Firpo, he will have no fixed plan of battle in mind except to be careful, not run any dangerous risks, wait for the first opening, and then crash over with the "hardest sock I can whenever I can land."

The champion, bundled in a heavy sweater and drawing his chair close to a fire that burned in the little stove in the living room of the training cottage, declared today he never planned a fight in advance; that to do so would be a mistake, because, he said, the best of plans may be swiftly upset with a solid smash on the chin.

"Then you are in a tough spot and haven't much time to rearrange your ideas," Dempsey explained.

"It's possible that I may decide to fight Firpo the way I fought Willard back in Toledo four years ago—circle around him, keep him from hitting me, watch for the first opening in sight and then whale away with everything I have. Most big men are easy to hit when you can surprise them. But if I find that Firpo is a tough bird to sock or that he is socking me, I may switch my tactics. I'll have to try something else if one thing doesn't work—there's sure."

"When I step into Firpo and begin to sock, the fight may be decided by the first few punches. I want to put every ounce of my strength into them. If I am lucky enough to get him dizzy, I'll tear off all I'm worth."

The titleholder still has a trace of the cold he contracted ten days ago, but it is not bothering him much. He said he weighed about 193 pounds and probably would enter the ring weighing about 190 pounds.

### Dempsey Hedges to Taper Off

ATLANTIC CITY, N. J., Sept. 11. (By the Associated Press)—Arrived at fighting condition, Luis Angel Firpo began today to taper off his training for the match with Jack Dempsey in New York Friday night.

The sparing and road work today was ordered cut down. Dr. Juan Kelly and Dan Washington, the manager, declared that the Argentine was all ready and needed but a little rest today and tomorrow to put him in proper shape for a grueling battle.

The challenger is in as fine a condition as the champion.

**ROCHE AND BROWN ARE HAS ONE ARM BUT PLAYS EXCELLENT GOLF**

While Romeo Roche, the Holyoke featherweight, who is to meet New-York boxer Johnny Brown in the main event of the Moody club show on Thursday night, has never appeared before local fans, the fact that he points to victories over such well-known butchers as "Red" Chapman and Mickey Travers is sufficient indication of his class and explains why local fight followers are warming up to the impending battle.

Brown is well and favorably known here. In victory or defeat the New-York fighter always gives a good account of himself. His great battle here with Al Shubert, while a reverse, stands out as one of his most conspicuous offerings. That hurt came will ever be remembered by those who were at the ringside. Brown's feet in sending Shubert to the canvas in the fifth round will be recalled as an accomplishment that few of Shubert's more than 400 opponents have been able to achieve.

After the rounds preceding and following, that sensational three minutes of action have been recorded in local fight annals as about as furious as any ever witnessed in this city.

Thus with both men noted for the ability to rock and sock opponents, the fur is expected to fly when they lock horns Thursday evening.

In the semi-final of eight rounds, Johnny Duffy of this city will try to halt the victorious march of Kid Cullen of Nashua, the New Hampshire heavyweight champ. Cullen had won every one of his professional fights via the knockout route.

To complete the card Sailor Monroe of Charlestown will go against Jack of Boston, while Al Corbett of Boston, who kayoed Ray Bancourt of Lawrence, here on the holiday, and Young Ross of Lynn will open activities.

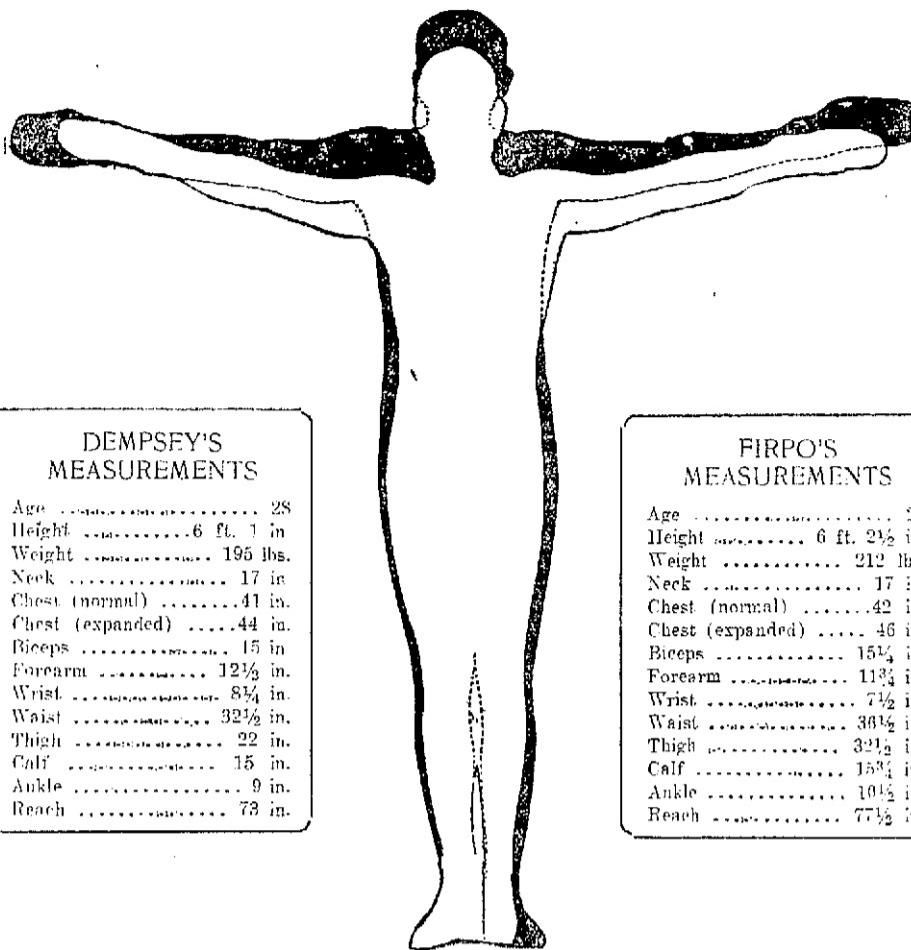

**TWILIGHT LEAGUE BANQUET TONIGHT**

Everything is in readiness for the banquet of the city Twilight league, to be held at Marie's restaurant tonight, at 8 o'clock. The members of the four teams that comprised the league, the umpires, officials and several invited guests are to attend to celebrate the completion of a most successful season. Included among the guests are Mayor John J. Donovan, Capt. of Parks John W. Keanan, Assistant Supervisor of playgrounds Arthur C. Sullivan, Capt. of Police Thomas R. Atkinson, Police Lieutenant Patrick Frawley, Frank Ricard and representatives of the press. Mayor Donovan, who was given the ball to be pitched to mark the formal opening of the season, has had it suitably inscribed and he will present it to the Americans, champions of the league. Mr. Blundell will present the prizes to the winners of the popularity contest.

**OLYMPIC LEADER**

Among the hundreds of crack shots participating in the national and international rifle matches now on at Camp Perry, O. H., is Jay Clarke of Worcester, Mass. He was the captain of last year's St. Patrick's J. H. N. eleven. The following players are asked to report: Foley, Long, McAlonko, Neer of San Francisco, and P. L. Norton, the South African, who were more favorable than at any other spot on the Pacific coast, according to the scientists.

## How Dempsey and Firpo Stack Up

### DEMPSEY'S MEASUREMENTS

Age	28
Height	6 ft. 1 in
Weight	195 lbs.
Neck	17 in
Chest (normal)	41 in.
Chest (expanded)	44 in.
Biceps	15 in
Forearm	12½ in.
Wrist	8¼ in.
Waist	32½ in.
Thigh	22 in.
Calf	15 in.
Ankle	9 in.
Reach	73 in.

### FIRPO'S MEASUREMENTS

Age	27
Height	6 ft. 2½ in.
Weight	212 lbs.
Neck	17 in.
Chest (normal)	42 in.
Chest (expanded)	46 in.
Biceps	15½ in.
Forearm	11¾ in.
Wrist	7½ in.
Waist	36½ in.
Thigh	22½ in.
Calf	15½ in.
Ankle	10½ in.
Reach	77½ in.

Here is a new departure method in the manner of comparing prizefighters. The gentleman in white is none other than Champion Jack Dempsey, against whom is silhouetted the blackened figure of Luis Firpo. These outlines are actual photographs, taken by Bob Dorman, (Sun photographer), who made them to scale and enlarged each the same amount. When making the first picture, which was of Dempsey, Dorman marked the spot on his camera where it had been focused, and then hustled away to Atlantic City, where setting his camera at the same mark again, he backed away from Firpo until the focus was sharp. The combined results gave two photos—one of Dempsey and another of Firpo—which had exactly the same perspective and measurement in every detail. These were then cut out, superimposed and painted over, producing the graphic comparative sizeups seen above.

## Kinks o the Links by PRO

BY "PRO"

Is there any case in which it is possible to re-toe a ball after a stroke has been played?

After a stroke has been played, even though the club did not come into contact with the ball, which rolls from a tee, it is not possible to re-toe a ball because it is in play and must be played from its tee. Only when a ball falls or is knocked from the tee while a player is in the act of addressing it, has the ball on the right to be re-toed.

If a ball remains on the tee, it is to move a long distance from the ball in front of it, because the ball, regardless of distance, that it may be from some, does it make a difference whether the ball is through the green or on the green as to the removal of a loose impediment?

When the green player has a right to remove loose impediment, he may not be farther than a club length from the ball, if it is a greater distance than a club length he cannot remove same, unless it is on the putting green.

A player is always within his rights in removing any loose impediment from the putting green that he feels will interfere with his next shot. Does it make a difference whether the ball is through the green or on the green as to the removal of a loose impediment?

Even in the case of an amateur professional, the amateur ranks present John Funk of El Reno, Okla. Funk, while not claiming the low scores that Reilly is able to attain, plays a highly creditable game.

The par for the El Reno course is 72, and Funk's best plays lie between 80 and 82. While Funk plays well from the tee, his best shots are the approach and the putt.

**"RED" O'HARE GOING TO BUFFALO**

George "Red" O'Hare, prominent local athlete, who starred for the Butler football team last season and who took part in many high school and other athletic events in the past several years, will leave to Christiansburg, Buffalo, N. Y., tomorrow, to pursue a course of studies.

O'Hare's loss will be a severe blow to the Butlers on the gridiron this season, but his teammates and his friends throughout the city wish him success in his new field.

The ball must be dropped as near as possible to where it lay, but not nearer the hole.

Play drives from the tee. The ball is taken by his ball marker if it is out of bounds, but he has come out of bounds. Upon his taking his ball he discovers that it is lying just within bounds. The position of the ball, however, is such that the player in order to properly pitch it must assume a stance that is out of bounds. What is the procedure?

If a player is within bounds, the player has a perfect right to stand out of bounds in assuming his stance, if he believes by so doing he will be able to get away a better shot.

**FOOTBALL**

With a record of 27 games won and 10 lost, the Emoryites claim the title. The Emoryites, only logical contenders for the title, failed to show up on two occasions and automatically ousted themselves from championship chasing. Among the men who starred for the Emoryites this season are Normandy, P. Shanahan, S. Gauthier, 1b, 2b and 3b, and F. Sutherland, 4b, 5b and 6b.

The Emoryites will hold their first practice session on the North common Thursday night at 6 o'clock. Among the players will appear several stars of last year's St. Patrick's J. H. N. eleven. The following players are asked to report: Foley, Long, McAlonko, Neer of San Francisco, and P. L. Norton, the South African, who were expected to provide unusually stiff competition.

**PHOTOGRAPHS OF SUN'S CORONA**

SANTA BARBARA, Cal., Sept. 11. (By the Associated Press) The only successful photographs of the sun's corona made in southern California during the eclipse of the sun yesterday are believed to be those of Prof. James Worthington of London and Dr. Alfred E. Burton, professor emeritus of astronomy in the Massachusetts Institute of Technology.

Prof. Worthington states that four of the negatives developed by him were almost perfect and would take rank with the best ever made during a solar eclipse.

Prof. Worthington and Dr. Burton headed an expedition at an observatory established north of Santa Barbara. Weather conditions there were more favorable than at any other spot on the Pacific coast, according to the scientists.

## GOLF APPROACHING END OF SEASON

WITH THE ANNOUNCEMENT OF QUALIFICATIONS FOR THE CLUB CHAMPIONSHIP AT THE VERNER COUNTRY CLUB AND DRAWINGS FOR MATCH PLAY FOR THE CLUB CUP AT LONKEMEADOW, LOCAL GOLF IS APPROACHING THE END OF A LONG SEASON.

FOR THE VESPER CHAMPIONSHIP THE FOLLOWING 16 PLAYERS, REPRESENTING THE BEST THE CLUB HAS TO OFFER, WILL BEGIN MATCH PLAY NEXT SATURDAY:

M. W. Forrest	72
P. W. Reilly Jr.	73
Howard Morton	73
Walter Clarkson	73
C. L. Stever, Jr.	73
Thomas Southam	73
H. B. Spelting	73
J. B. Hyland	73
Harry O'Doherty	73
J. J. Farrel	73
L. H. Martin	73
W. B. Reilly	70
G. E. Peary	70
Dr. M. L. Alline	70
Dr. E. O. Tabor	70
J. P. Grant	70

THE PLAY

There is a ground rule that on an overthrust into the crowd all base runners shall be entitled to advance two bases.

There is a runner on first, a very fast man, the batsman is very slow footed. This situation brought about a rather unusual play that resulted in a big dispute.

The hit and run signal was dashed, and the runner on first was off with the start of the delivery, getting away to a big lead. The batsman hit the pitch to the shortstop, a hard hit ground ball.

The shortstop fumbled the ball momentarily and realized there was no chance for him to get the fast runner in a force play at second.

In a force play at second, the fast runner reached second before the hit and run signal was dashed, and the runner on first was off with the start of the delivery, getting away to a big lead.

The team at bat contended the runner on first was entitled to score on the play and the batsman got to second. The team in the field contend the runner on first should only go to third and the batsman to second. What is the proper decision?

**KENNEL CLUB SHOW FOR SULLIVAN FUND**

AS A PART OF THE CAMPAIGN TO RAISE FUNDS FOR A WELCOME HOME RECEPTION TO HENRY SULLIVAN, THE KEENEL CLUB AND SWIMMER, THE KEENEL CLUB IS TO RUN OFF A DOG SHOW THURSDAY EVENING IN ODD FELLOWS HALL, MIDDLESEX STREET. THE COMMITTEE IN CHARGE CONSISTS OF SMITH J. ADAMS, JAMES KIRKPATRICK, JOHN MCKENZIE, PATRICK LYONS AND JOSEPH FOLEY.

SPICIAL PRIZES WILL BE OFFERED AND THE NUMBER OF WINNERS IS EXPECTED TO BE HIGH.

THE COMMITTEE IS MAKING EFFORT TO GET THE OWNERS OF THE DOGS TO PAY FOR THE CARE OF THEM.

WHEN THE DOGS ARE TURNED OVER TO THE OWNERS, THEY ARE TO BE KEPT IN THE DOG HOUSE UNTIL THE SHOW.

THE DOGS ARE TO BE KEPT IN THE DOG HOUSE UNTIL THE SHOW.

## Collector's Notice

### CITY OF LOWELL

Office of the Collector of Taxes, Lowell, Mass., Sept. 4, 1923.

The owners and occupants of the following described parcels of real estate situated in the city of Lowell, in the County of Middlesex and Commonwealth of Massachusetts, and the public are hereby notified that the taxes thereon severally assessed for the years hereinafter specified, according to the list committed to me as collector of taxes for said city by the assessors of taxes remain unpaid and that the smallest undivided part of said land sufficient to satisfy said taxes, with interest and all legal costs and charges, or the whole of said land if no person agrees to take an undivided part thereof, will be offered for sale by public auction at the office of the collector of city Hall, in said Lowell, on Thursday, Sept. 27, 1923, at ten o'clock a.m., for the payment of said taxes with interest costs and charges thereon unless the same shall be previously discharged.

175. Marie T. O'NILL, 3186 square feet of land, more or less, with buildings thereon, situate number 801 Stevens Street as shown on Plan B 19 of City Survey on file at office of City Engineer, with land now or formerly of Fred H. Peabody on the north, Angus S. and Ethel P. Marshall on the south, Alfred F. and Gertrude M. Webb on the west and Stevens Street on the east. Tax of 1922, \$22.75.

184. Charles Henry Osgood, 3169 square feet of land, more or less, with buildings thereon, situate numbers 376-380 Merrimack Street, with land now or formerly of Edward J. Barrett on the east, Nona A. Murphy on the south, Suffolk Street on the east and Merrimack Street on the north. Tax of 1922 ..... \$72.82  
Street Sprinkling Asst. .... 2.62

186. Peter Pacewicz, 1872 sq. ft. of land, more or less, with buildings thereon, situate number 18 Willow Street with land now or formerly of James J. Kennedy on the north, Lizzie W. Ordway on the south, Rose A. Hartford, Susan E. Jordan and Lizzie W. Ordway on the east and Stevens Street on the west. Tax of 1922, \$126.39  
Street Sprinkling Asst. .... 3.00

187. Andrew Pacy, 5400 square feet of land, more or less, situate lot 47 Lexington Avenue as shown on Plan J 7 of City Survey on file at office of City Engineer, with land now or formerly of George A. McCormick on the north, south and Lexington Avenue on the west. Tax of 1922, \$18.53.

188. Christos Papachristopoulos, 1 and 44-1/2 acres of land, more or less, with buildings thereon, situate number 120 Sprague Avenue as shown on Plan G 5 of City Survey on file at office of City Engineer, with land now or formerly of Philip E. Fitch on the north, Lowell and Lawrence Railroad on the north, Roxbury Street on the west and Sprague Avenue on the south. Tax of 1922, \$162.18.

189. Christos Papachristopoulos, 4 and 5-1/2 acres of land, more or less, situate south side Sprague Avenue as shown on Plan G 5 of City Survey on file at office of City Engineer, with land now or formerly of Irving F. and Martha E. French on the east and south, Boylston Street on the west and Sprague Avenue on the north. Tax of 1922, \$21.48.  
Street Sprinkling Asst. .... 0.50

190. Frank Paquette, 4575 square feet of land, more or less, situate lot 125 north side Marin Street as shown on Plan G 4 of City Survey on file at office of City Engineer, with land now or formerly of George and Stavroula Moskopolis on the south, Anastasios Chatzopulos on the south, Agapitos Chatzopulos on the west and Leeds Street on the north and Essex Street on the east. Tax of 1922, \$13.57.

191. Joseph and Georgiana Payette, 11,114 square feet of land, more or less, situate lots 56-57 Essex Street as shown on Plan G 4 of City Survey on file at office of City Engineer, with land now or formerly of George and Georgiana Payette on the east, George and Stavroula Moskopolis on the south, Agapitos Chatzopulos on the west and Leeds Street on the north. Tax of 1922, \$16.12.

192. Harry L. Perrin, 1882 square feet of land, more or less, situate east side of Stevens Street, as shown on Plan G 4 of City Survey on file at office of City Engineer, with land now or formerly of Robert G. Bartlett on the north, Harry L. Perrin on the east, Frances E. Garrity and Harry L. Perrin on the south and Stevens Street on the west. Tax of 1922, \$43.37.  
Street Sprinkling Asst. .... 3.25  
Moth Assessment ..... 2.00

193. Harry L. Perrin, 14,051 square feet of land, more or less, situate west side Canton street as shown on Plan H 21 of City Survey on file at office of City Engineer with land now or formerly of Carol Goldberg on the north, Harry L. Perrin and Frances E. Garrity on the west, Philip Cohen and Robert G. Bartlett on the south and Canton street on the east. Tax of 1922, \$79.56.

194. Peter A. Pharaoullas, 2006 square feet of land, more or less, with buildings thereon, situate number 38 Suffolk Street as shown on Plan H 21 of City Survey on file at office of City Engineer, with land now or formerly of Eliza E. Saylors on the south, Bernard F. Gately and Abby Avenue on the north, Joseph Dunn et al. trustees, Merrimack Cemetery Association, Bernard F. Gately and Old Middlesex Canal on the east. Tax of 1922, \$100.35.

195. Carl M. Phil, 3500 square feet of land, more or less, with buildings thereon, situate number 97 Grove Street, as shown on Plan H 19 of City Survey on file at office of City Engineer, with land now or formerly of Estella R. Macdonald on the west, Julia A. Saiborn and Ralph B. and Mabel E. Littlefield on the north, Manahan street on the east and Grove Street on the south. Tax of 1922, \$100.05.  
Street Sprinkling Asst. .... 3.00  
Moth Assessment ..... 2.00

196. Joseph A. Poisson, 8071 square feet of land, more or less, situate lot 212 south side Farmland road, with land now or formerly of J. N. Eugene Mercier on the east, Alexia Ducharme and Arthur and Albertine Gaudette on the west, Heirs of Elie Poirier and Pauline Poirier on the south and Farmland road on the north. Tax of 1922, \$12.24.

197. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

198. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

199. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

200. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

201. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

202. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

203. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

204. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

205. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

206. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

207. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

208. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

209. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

210. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

211. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

212. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

213. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

214. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

215. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

216. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

217. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

218. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

219. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

220. Alfred J. Prescott, 16,875 square feet of land, more or less, with buildings (shop) thereon, situate lot 143 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of city survey on file at office of City Engineer, with land now or formerly of Clesson P. Salls on the north, Meyer Marcus on the west, Short Street on the south and Lincoln Street on the east. Tax of 1922, \$45.59.

Christina Papachristopoulos, 7 and 44-100 acres of land, more or less, with buildings thereon, situate number 129 Sprague Avenue as shown on Plan C-5 of City Survey on file at office of City Engineer, with land now or formerly of George and Stavroula Moskowitz on the south, Anastasios Chalikopoulos on the west and Leeds Street on the north and Essex Street on the east.

Tax of 1922, \$12.57.

190. Joseph and Georgiana Pavete, 4160 square feet of land, more or less, situate number 125 Leeds Street as shown on Plan C-5 of City Survey on file at office of City Engineer, with land now or formerly of George and Stavroula Moskowitz on the south, Anastasios Chalikopoulos on the west and Leeds Street on the north and Essex Street on the east.

Tax of 1922, \$12.57.

191. Frank Paquette, 4575 square feet of land, more or less, situate lot 57 Essex Street as shown on Plan C-5 of City Survey on file at office of City Engineer, with land now or formerly of George and Stavroula Moskowitz on the south, Anastasios Chalikopoulos on the west and Leeds Street on the north and Essex Street on the east.

Tax of 1922, \$12.57.

192. Harry L. Perrin, 3922 square feet of land, more or less, situate east side of Stevens street, as shown on Plan H-21 of City Survey on file at office of City Engineer, with land now or formerly of Robert G. Bartlett on the north, Harry L. Perrin on the east, Francis E. Garrity and Harry L. Perrin on the south and Stevens street on the west.

Tax of 1922, \$34.12.

193. Harry L. Perrin, 3922 square feet of land, more or less, situate west side Canton street, as shown on Plan H-21 of City Survey on file at office of City Engineer, with land now or formerly of Robert G. Bartlett on the north, Harry L. Perrin on the east, Francis E. Garrity and Harry L. Perrin on the south and Stevens street on the east.

Tax of 1922, \$34.12.

194. Harry L. Perrin, 3922 square feet of land, more or less, situate west side Canton street, as shown on Plan H-21 of City Survey on file at office of City Engineer, with land now or formerly of Robert G. Bartlett on the north, Harry L. Perrin on the east, Francis E. Garrity and Harry L. Perrin on the south and Stevens street on the east.

Tax of 1922, \$34.12.

195. Harry L. Perrin, 3922 square feet of land, more or less, situate east side of Stevens street, as shown on Plan H-21 of City Survey on file at office of City Engineer, with land now or formerly of Robert G. Bartlett on the north, Harry L. Perrin on the east, Francis E. Garrity and Harry L. Perrin on the south and Stevens street on the east.

Tax of 1922, \$34.12.

196. Harry L. Perrin, 3922 square feet of land, more or less, situate west side Canton street, as shown on Plan H-21 of City Survey on file at office of City Engineer, with land now or formerly of Robert G. Bartlett on the north, Harry L. Perrin on the east, Francis E. Garrity and Harry L. Perrin on the south and Stevens street on the east.

Tax of 1922, \$34.12.

197. Harry L. Perrin, 3922 square feet of land, more or less, situate west side Canton street, as shown on Plan H-21 of City Survey on file at office of City Engineer, with land now or formerly of Robert G. Bartlett on the north, Harry L. Perrin on the east, Francis E. Garrity and Harry L. Perrin on the south and Stevens street on the east.

Tax of 1922, \$34.12.

198. Harry L. Perrin, 3922 square feet of land, more or less, situate west side Canton street, as shown on Plan H-21 of City Survey on file at office of City Engineer, with land now or formerly of Robert G. Bartlett on the north, Harry L. Perrin on the east, Francis E. Garrity and Harry L. Perrin on the south and Stevens street on the east.

Tax of 1922, \$34.12.

199. Harry L. Perrin, 3922 square feet of land, more or less, situate west side Canton street, as shown on Plan H-21 of City Survey on file at office of City Engineer, with land now or formerly of Robert G. Bartlett on the north, Harry L. Perrin on the east, Francis E. Garrity and Harry L. Perrin on the south and Stevens street on the east.

Tax of 1922, \$34.12.

200. Harry L. Perrin, 3922 square feet of land, more or less, situate west side Canton street, as shown on Plan H-21 of City Survey on file at office of City Engineer, with land now or formerly of Robert G. Bartlett on the north, Harry L. Perrin on the east, Francis E. Garrity and Harry L. Perrin on the south and Stevens street on the east.

Tax of 1922, \$34.12.

201. Peter A. Phasolas, 2260 square feet of land, more or less, with buildings thereon, situate number 38 Suffolk street, as shown on Plan I-16 of City Survey on file at office of city en-

gineer, with land now or formerly of Athanasios G. Kourombis and Aboud Nematallah on the north, Daniel Redding on the south and west and Suffolk street on the east.

Tax of 1922, \$100.93.

202. Carl M. Phillips, 3500 square feet of land, more or less, with buildings thereon, situate number 97 Grove Street, as shown on Plan H-21 of City Survey on file at office of City Engineer, with land now or formerly of Estella R. Macleod on the west, Julia A. Saaborn and Ralph B. and Mabel E. Littlefield on the north, Manhattan Avenue on the east and Old Middlesex Canal on the east.

Tax of 1922, \$100.93.

203. Carl M. Phillips, 3500 square feet of land, more or less, with buildings thereon, situate number 97 Grove Street, as shown on Plan H-21 of City Survey on file at office of City Engineer, with land now or formerly of Estella R. Macleod on the west, Julia A. Saaborn and Ralph B. and Mabel E. Littlefield on the north, Manhattan Avenue on the east and Old Middlesex Canal on the east.

Tax of 1922, \$100.93.

204. Carl M. Phillips, 3500 square feet of land, more or less, with buildings thereon, situate number 97 Grove Street, as shown on Plan H-21 of City Survey on file at office of City Engineer, with land now or formerly of Estella R. Macleod on the west, Julia A. Saaborn and Ralph B. and Mabel E. Littlefield on the north, Manhattan Avenue on the east and Old Middlesex Canal on the east.

Tax of 1922, \$100.93.

205. Joseph A. Poisson, 6871 square feet of land, more or less, with buildings thereon, situate lot 212 south side Farmland road, with land now or formerly of J. N. Eugene Mercier on the east, Alexis Ducharme and Arthur and Albertine Gaudette on the west, Heirs of Etelle Poirier and Maitilde Poirier on the south and Fournier land road on the north.

Tax of 1922, \$102.24.

206. Alfred J. Precent, 10,875 square feet of land, more or less, with buildings thereon, situate lot 143 and part lot 143 west side Plain avenue, as shown on Plan E-26 of City Survey on file at office of City Engineer, with land now or formerly of Clemson P. Salls on the north, James F. Stearns on the south, Washington Savings Institution, Michael J. Johnson and Highland Park Avenue on the west and Old Middlesex Canal on the east.

Tax of 1922, \$102.24.

207. Alfred J. Precent, 10,875 square feet of land, more or less, with buildings thereon, situate lot 143 and part lot 143 west side Plain avenue, as shown on Plan E-26 of City Survey on file at office of City Engineer, with land now or formerly of Clemson P. Salls on the north, James F. Stearns on the south, Washington Savings Institution, Michael J. Johnson and Highland Park Avenue on the west and Old Middlesex Canal on the east.

Tax of 1922, \$102.24.

208. Alfred J. Precent, 10,875 square feet of land, more or less, with buildings thereon, situate lot 143 and part lot 143 west side Plain avenue, as shown on Plan E-26 of City Survey on file at office of City Engineer, with land now or formerly of Clemson P. Salls on the north, James F. Stearns on the south, Washington Savings Institution, Michael J. Johnson and Highland Park Avenue on the west and Old Middlesex Canal on the east.

Tax of 1922, \$102.24.

Precent, 10,875 square feet of land, more or less, with buildings thereon, situate lot 143 and part lot 143 west side Plain avenue, as shown on Plan E-26 of City Survey on file at office of City Engineer, with land now or formerly of Clemson P. Salls on the north, James F. Stearns on the south, Washington Savings Institution, Michael J. Johnson and Highland Park Avenue on the west and Old Middlesex Canal on the east.

Tax of 1922, \$102.24.

218. Alfred J. Precent, 10,875 square feet of land, more or less, with buildings thereon, situate lot 143 and part lot 143 west side Plain avenue

WINS PRIZE

Miss Charlotte Nash, "Miss St. Louis," as she appeared when she won first prize in the dress parade of the Beauty Pageant at Atlantic City.

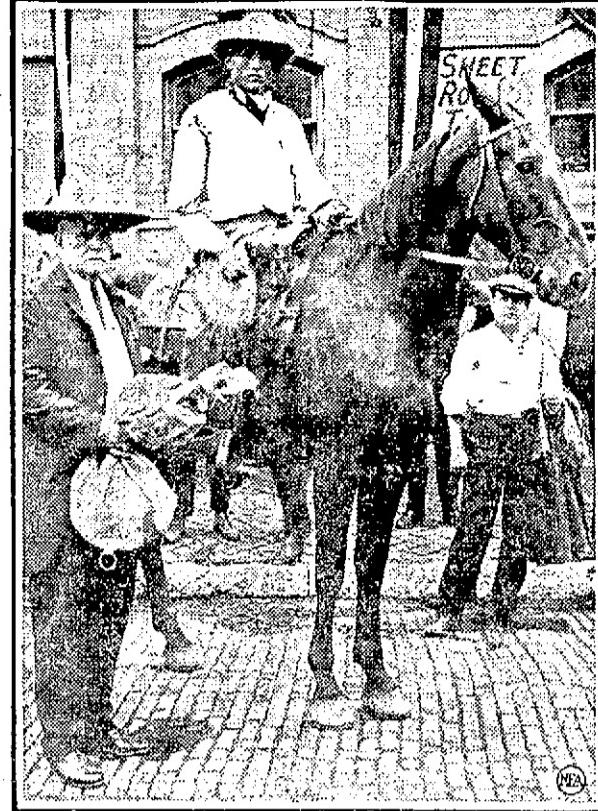

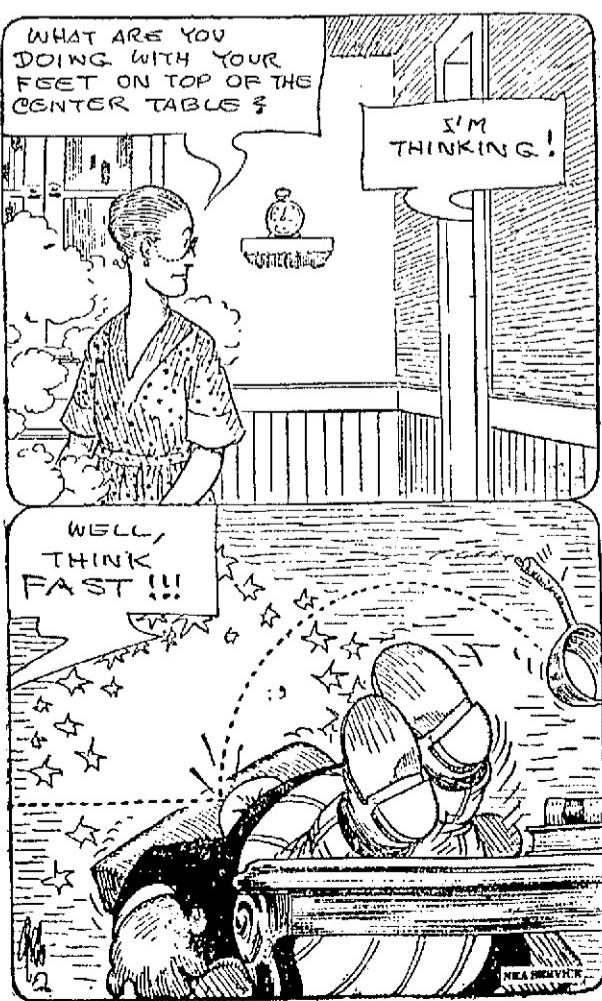

A BOON TO HORSES

An ingenious English farmer devised this new nosebag which enables his horse to enjoy his feed to the last morsel. The bag is fitted to an extension of the shaft and remains steady while the animal is eating.

#### IRISH IRREGULARS ATTACK GUARDS

ATHLONE, Sept. 10.—The military guard at the Ballinasloe railway station, county Galway, was twice attacked by irregulars last night. After being beaten off the first time, the irregulars returned with reinforcements and concentrated a heavy rifle fire on the barracks of the military. They were repulsed after a brief engagement.

#### EVERETT TRUE

COOLIDGE PRESSED A BUTTON

When the chief executive in the White House gave the signal, the start of the Memorial Pony Express from St. Joe, Mo., to the Pacific coast was made. Robert Lee Shepherd, on horseback, rode the first lap westward. Postmaster Eliot Marshall of St. Joseph, is holding the mail bag destined for San Francisco. In the background may be seen part of the old Pikes Peak stables, from which the original Pony Express started in 1860.

A MINER'S WIFE

This woman's husband works in a mine near Hazelton, Pa. It is against company rules for her to gather coal from mine property, but she takes the risk of arrest to keep the household fires going.

#### WILLS FAILS IN EFFORTS TO BLOCK BIG FIGHT

NEW YORK, Sept. 10.—Harry Wills, negro heavyweight today failed in his efforts to block the Dempsey-Firpo championship bout at the Polo Grounds next Friday night. Supreme Court Justice Hagarty in Brooklyn denied his application for a writ of mandamus. Justice Hagarty in his decision declared that the Firpo-Dempsey match complied with all requirements of the state boxing law and did not conflict with any contract that Wills signed with Dempsey more than a year ago, shortly after the negro's challenge was filed with the state athletic commission. It was under this contract that Wills claimed to have prior right for a bout with the champion, but at the hearing last Friday it was pointed out by the commission in answer to Wills' charges that this agreement left either principal free to fight any other opponent.

#### LIST OF AMERICANS WHO TELEGRAPHICALLY ESCAPED DISASTER

WASHINGTON, Sept. 10.—Consul Pickover at Kobe, in his cable to the state department today reported that the safety of the following Americans had been verified:

James L. Bowdler, wife and children; John Westby Frank, wife and son; Carabelle Jenkins, Burnice Johnson, Louis Kilday, Clara D. Leontine, Hazel D. Lynn, Margaret S. Rogers, J. T. Swift, wife and children, and Mary E. Tracy.

Commissioner and Mrs. Ackerman (at Nikko), Carolyn Ellen, Thomas S. Amrine (travel advised from Yokohama report wife and child of Mr. Amrine as missing); V. T. Armstrong, L. F. Baker and family; C. N. Bell, Aaron Berkman, E. W. Clement, wife and mother; Joseph E. Debecker, Judson Dohrstedt, Mrs. Dowette, E. S. Erickson, Ernestine Graelin, Doug Payton Griffin, Dr. Warren S. Hayes and wife, Luis Haines and family; C. A. Johnson and family; Frank Wordan, Thomas E. Lake, Emma S. Landis, Sarah MacDavid, R. D. McManus and wife; Paul Messer, Frederick Moore, Ruth T. Muster, Alfred M. Slack, Mrs. William Spencer, Paul Prentiss Shadoff, Charles E. Sweet and wife, W. E. Watson and wife, G. N. R. Upson, Olive P. Williams and Dr. Betha Van Hoosen, Alice Van Hoosen Jones and Sarah Van Hoosen Jones; E. H. G. Frost, Edward B. Smith.

**WITHDRAWS GAMBLING CHARGE**

PROVIDENCE, R. I., Sept. 10.—John G. Joyce, of Providence, R. I., Pier, charged with being a professional gambler, was adjudged probably guilty before Judge James O. Watt, in the second district court at Wakefield, this morning after the state announced that it wished to discontinue the complaint.

The withdrawal followed the sustaining of objection to practically all the testimony which the state tried to introduce.

#### PROBE TELEPHONE SERVICE IN R. I.

PROVIDENCE, R. I., Sept. 10.—Chairman William S. Flynn today requested that the public utilities commission inquire into the quality of service now being furnished by the New England Telephone & Telegraph Co., and it was found that an immediate improvement in the "interior service" is impossible, to demand a temporary modification of rates.

#### MANIAC SLASHES AUNT WHEELER RETURNS GUN SQUAD CALLED

Man on Parole From Asylum Heard Voice Tell Him to Cut Aunt's Head Off

PAWTUCKET, R. I., Sept. 10.—Arthur Rushton, who had been on parole from the state insane asylum for four weeks, at the home of his aunt, Mrs. Annie Fitzpatrick, today heard a voice tell him to cut his aunt's head off. He got a hatchet and proceeded to "hack her face with it, while she was in bed. His sister, Mrs. Matilda Kellott came to her rescue. Mrs. Kellott received a bad cut on the arm before she succeeded in taking the hatchet from the crazy man. Mrs. Fitzpatrick was taken to the hospital where her condition is critical.

#### R. R. FIREMEN KILLED, SEVEN PERSONS HURT

ROANOKE, Va., Sept. 10.—J. P. Tolley, fireman, of Roanoke, was killed and seven persons were injured when a Norfolk and Western southbound freight train left the tracks a few miles north of Roanoke today and ploughed into a rock quarry, where a number of men were at work.

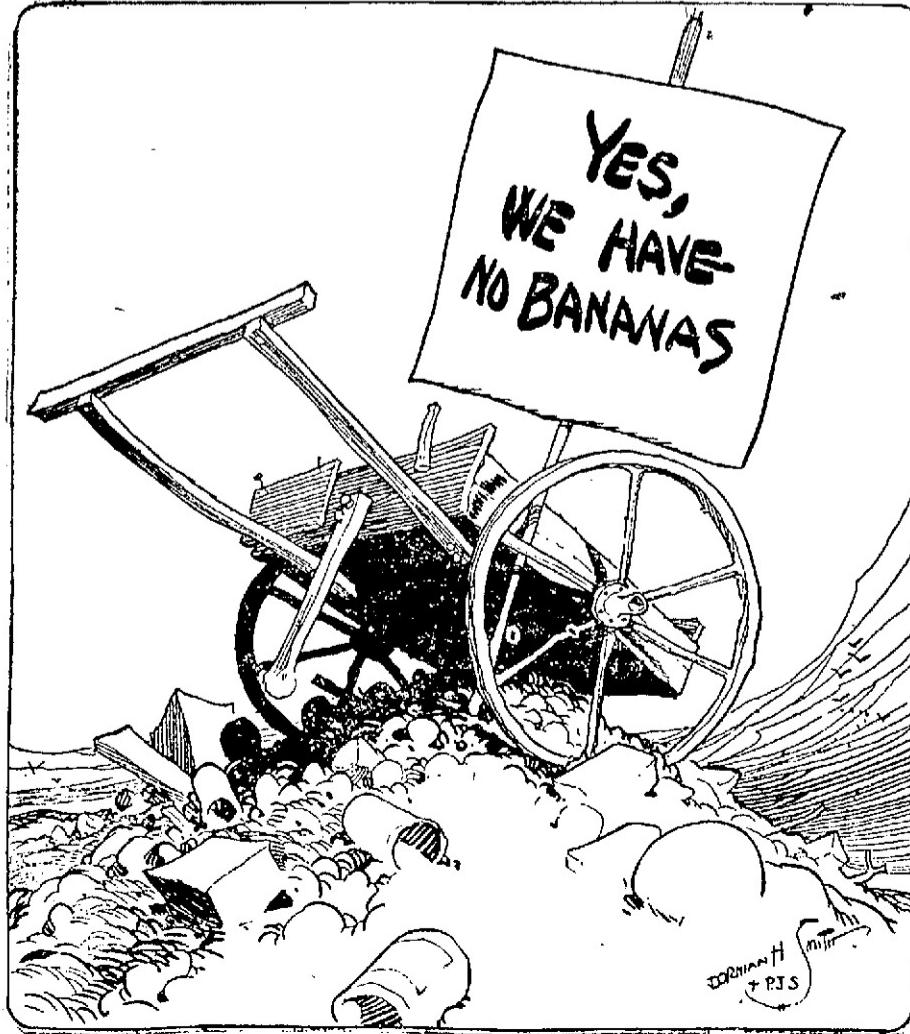

#### SOLDIER ACCIDENTALLY SHOT

BOSTON, Sept. 10.—Private Albert D. Haas of C company, 9th United States Infantry, regiment, was shot through the left forearm and abdomen today when a pistol was accidentally discharged by Private Guy A. Hocksteder of the same company at the army base here. The pistol was discharged when Hocksteder was examining it after returning from sentry duty. Haas, whose home is in Ola, N. C., was to have received his discharge within a few days. He will probably recover. Hocksteder's home is in Grainfield, Kas.

#### QUIT OUR WAY

IF THE GREEKS AND ITALIANS FIGHT

Says Europeans Cursed With Drink More Than With War Debts

WASHINGTON, Sept. 10.—Wayne B. Wheeler, general counsel for the Anti-Saloon League, who was chairman of the American delegation to the recent anti-alcohol congress at Copenhagen, issued a statement today in which he declared that if the "money wasted for liquor in Europe were turned into useful channels as it is in the United States, the financial problems of these governments could be solved with comparative ease."

"Europeans," the statement said, "are cursed with drink more than with war debts. Dry Finland, handicapped by a commercial boycott by Spain, Portugal and France, is the only European country so far as I could find that has squared her budget in the last year and provided for the reduction of her debt."

#### COTTON ADVANCES \$5 A BALE

NEW YORK, Sept. 10.—Within the first half hour of trading today, October cotton advanced 30 points to 28.50, or \$5 a bale above Saturday's closing quotation.

The jump was attributed to further reduction in the crop estimate contained in a report published by a Memphis authority. The crop condition as of September 8 was placed at 49.7 in this report and the yield was estimated at 10,210,000 bales or more than half a million bales less than that of the government indication on August 26.

NEW ORLEANS, Sept. 10.—The cotton market here, after an easy opening, went to new high levels for the season. October rose almost 100 points, or \$5 a bale from the early low, first trading off to 25.80 cents a pound and then advancing to 27.75. A private crop estimate of only 10,250,000 bales, including Inters, was responsible for much of the buying.

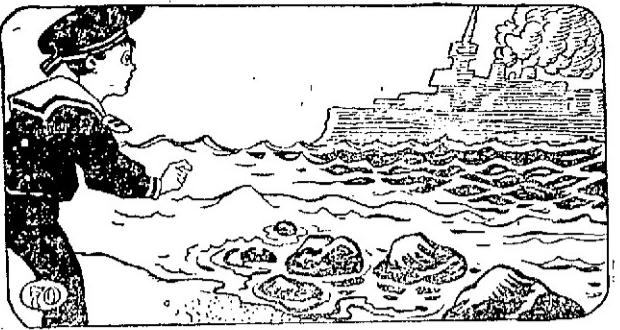

Man Shoots His Wife, and Mother-in-Law and Then Opens Fire on Police

BELLEVILLE, Ills., Sept. 10.—Harry Kettler, 27 years of age, today shot his wife and mother-in-law, and when a score of policemen surrounded the house he opened fire on the officers, seriously wounding two of them.

The police appealed to St. Louis for reinforcements, and the gun squad of the St. Louis police department is en route here.

Kettler's wife is lying in the front yard of the home. It is unknown whether she is dead. Kettler apparently has an ample supply of ammunition.

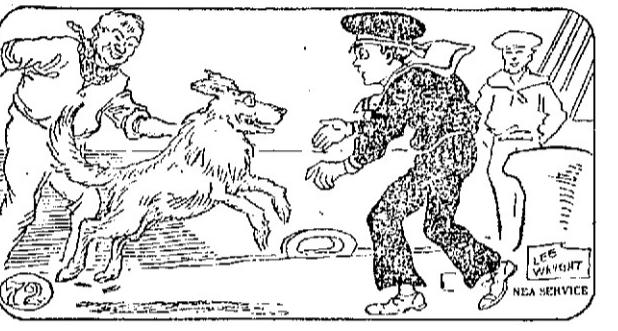

## Jack Daw's Adventures. Chapter 23

"The boat won't attempt to land," replied the cook. "There are too many rocks here." By this time the ship had come close to the island and Jack saw that it was an American battleship. "The ship has dropped anchor," he shouted. "What are they going to do now?"

But before Kettles could answer him, Jack heard another loud report and a coil of rope landed right beside him. Kettles tied this rope to a tree and helped Jack climb into a basket that had come gliding along the rope. Soon the little adventurer was being pulled out to the ship.

Jack landed on the deck of the battleship and then watched Flip and Kettles rescued in the same way. Then there was a great celebration as the boat started for home and Jack's adventures with the Pirate Ship were over. His next adventure is under the ground.

MISTER GALLOP

"I HOPE YOU'LL LIKE THE WEST," SAID MISTER GALLOP

"Well, well, well! I'm glad to see you," said Mister Gallop, stepping out of his cave in the Red Rock.

"And we're glad to see you, too!" said Nancy and Nick, eliciting down-off their donies and shaking hands with the cowboy, fairy.

"I hope you'll like the west," said Mister Gallop.

"Why, we love it already," declared Nick, looking around. The ponies had brought the twins up a mountain path no wider than a dinner plate to Mister Gallop's cave. And from where they were standing they could look straight down, miles below, it seemed, where the prairie spread out in a great flat ocean of land.

"My, oh, my, but the world's big," sighed Nancy.

"Yes, 'tis," agreed Mister Gallop, "but not big enough for some folks. That's my job out here, a sort of warden or ranger, or whatever you call people who keep order."

"There can't be many people living here," remarked Nick in surprise. "I don't see a house."

## YOUR EYES

You may be acquainted with the story of the Six Blind Men of Hindostan who went to "see" the elephant. Each told a different story of what the elephant resembled and of course all of them were wrong.

There is nothing which we would exchange for our eyes. If they are defective, through lack of early treatment or if the sight has been lost through carelessness or by an accident, we are all wrong, like the blind men of Hindostan.

Physicians tell us of the great value and pleasing sense of color to the individual. Without it a great void exists in our lives which nothing can replace. With it, the world is ours; for the eyes are the windows of the soul and convey to our innermost being the real joy of living, through the sense of color.

## Guard from Birth

The eyes of the new-born baby should always be carefully examined and treated at once if the least weakness or impairment of vision shows itself. In the great city hospitals it is a law that all babies' eyes must be tested soon after birth and again at the age of six months. A recent solution of silver nitrate is instilled in the baby's eyes to generally used.

The eyes of children should be carefully examined by a specialist before entering school and at least every year after that time in order to guard against any change in vision or eye-strain.

Glasses are not always needed. In many cases, however, the use of correct lenses in early life will help and often restore eyes to their normal condition. Worth while, isn't it?

## Goggles for Workers

Shop goggles should be worn by all men who are exposed to the least danger, in the mills and factories. Do not let any false pride or the fibs of your eyes蒙蔽 you from the safety of your eyes. Many mills have physicians and nurses to properly treat all accidents.

But in spite of all precautions, there are places where eye accidents run as high as 25 per cent of the total injuries.

Beware of the so-called shop accidents. He is one of those fellow workers who are ready at all times with dirty hands and a sharpened match to remove foreign particles from your eyes.

There are infections so drastic of sight. A well-known surgeon in one of our great centers, has recently found a new way. Guard your eyes against all infections and get a good home remedial. At the least sign of trouble consult an expert at once. Use your hospitals, dispensaries, physicians and nurses and save what is the most priceless that the mere touch means the loss of all your senses.

# BANKS NOT GUILTY OF MURDER

## Train Crew Crushed to Death at Readville

### No Bill Returned Against Barney Banks by Grand Jury in Connection With Methuen Murder

A "no-bill" was returned today against Barney Banks of Lowell, who has been held without bail in the house of correction at Lawrence in connection with the murder of Police Officer Arthur J. Bower of Methuen.

Shortly after the murder Banks was arrested in Hartford, Conn., on a warrant charging him with the theft of an automobile from his employer, Leonard Topper of Lawrence. He was brought back to Lawrence and there confessed to the police to taking part in the shooting. Banks said that he fired one shot, the bullet entering the officer's leg.

Several persons were named by Banks as having fired the shot that killed Officer Bower, and for a time he had the police on the run. When each of the people he named was apprehended, Banks then exonerated them, and named someone else. He even implicated a Lowell girl, whom he was engaged to marry, but later completely exonerated her.

Banks has been examined by attorneys as to his sanity, but as yet no complete report has been made.

Although the "no-bill" releases Banks from any connection in the murder of Officer Bower, there is still a charge of larceny of an auto hanging over him. Whether or not he will be liberated could not be learned this afternoon. At the Lawrence jail it was

### SUSPECTED FALSE ALARM FIEND HELD BY LOCAL POLICE FOR INVESTIGATION

Francis H. Cashman of Belmont Picked Up About 3 O'Clock This Morning by Police After Four False Alarms of Fire Had Been Rung in From Different Boxes—Cashman Unable to Tell How He Landed in Lowell

Behind a charge of drunkenness, transpired last night after 10 o'clock, at which time he was in Boston, in the district court today, is the belief that he was responsible for four false alarms of fire sent from boxes in the neighborhood of the North common at an early hour this morning. In order that the police may further investigate, the case was continued.

Cashman was picked up by Officers Owen Conway, Nickles and C. Brown on Broadway, near Mt. Vernon street, at 3 o'clock this morning. He was then, the police said, under the influence of liquor. Questioned by Capt. Petrie before court, Cashman said his mind was a blank as to what

### REFUGEES CREDIT U. S. DESTROYER OFFICERS WITH MOST OUTSTANDING ACT OF HEROISM AT TOKIO

Craft Dashed Up Bay to Rescue Marooned Foreigners in Japanese Capital—Stunt Involved Unknown Dangers—Americans First Rescuers to Reach Stricken City—Japanese Premier Thanks Pres. Coolidge for Aid

LONDON, Sept. 11.—The Kobe correspondent of the Central News says their ship to Tokio through the shallow waters of the upper bay after the Empress of Australia credit the commander and officers of the American naval destroyer 217 with the most outstanding act of heroism following the earthquake. This was the dash of the craft up Tokio bay to rescue the marooned foreigners in the Japanese capital.

Ocean-going vessels rarely attempt to steam further up the gulf than

### TWO KILLED IN TRAIN WRECK

Engineer and Firemen Fatally Injured and 16 Passengers Hurt

Passenger Train Derailed Near Readville Station Today

BOSTON, Sept. 11.—The engineer and fireman of a New York, New Haven and Hartford train bound from Fall River to Boston were fatally injured and 16 passengers received serious injuries when the train was derailed near the Readville station today. The engineer and fireman, who died soon after their removal from the overturned engine, were Stephen T. Gotham of Fall River and A. Anderson of Fall River.

The engine and four of five coaches left the tracks while crossing from one track to another just east of the Readville station. A fifth coach remained on the rails. As the engine left the tracks it toppled over on its side and the engineer and fireman were caught and crushed as well as scalped and burned.

Firemen and police of Forest Hills and Readville rushed to the assistance

### Bundle of Blood Stained Clothing Found in Malden is Turned Over to the Tyngsboro Police

Believed That Clothing May Have Some Connection With Dress Suit Case Murder Mystery—No New Local Developments—Diver Working at Mouth of Mud Brook—Upton's Pond Not Yet Searched

A bundle of blood-stained women's clothing was found in a room of the railway station at Malden today, and will be turned over to the police of Tyngsboro for investigation as to any possible connection with the dress suit case murder mystery.

A white muddy blouse, with what appeared to be a 5 by 10 inch blood stain on the left arm, a brown pleated sport skirt, striped in green, and a black scarf, all of good material and a little

worn, comprised the bundle of cloth bottom near the mouth of the brook being. The stain showed signs of having others searched prodded the almost been in water.

The search in the waters of the Merrimack river by Diver John D. Robinson reverted today to the mouth of the Mud brook, so-called, where the first

object, but a boat-hook brought only a

water-soaked-log to shore.

### REPORT TROTZKY ASSASSINATED

Message From Moscow Says Soviet War Minister Has Been Murdered

Details Not Given—No Confirmation of Report, Says London

LONDON, Sept. 11.—(By the Associated Press) A Central News dispatch from Berlin says it is reported from Moscow that Leon Trotzky, the Russian soviet war minister, has been assassinated. No details are given. There is no confirmation of the report.

Reports of the death of Premier Lenin, War Minister Trotzky and other prominent members of the Russian soviet government have frequently been circulated. Serious reports regarding the condition of Trotzky's health were current early this year but the news dispatches since have shown him pursuing his usual activities.

## OBSERVANCE OF THE JEWISH NEW YEAR

The Jewish New Year having been ushered in with the setting of the sun last night all members of the orthodox faith in Lowell have commenced on the observance of the first of a long line of Jewish days.

Jewish merchants throughout the city have in many cases closed their places of business until sunset of Wednesday night when the period of observance of the new year will have ended.

## Well Known Resident Recovers Quickly

Sourness and Indigestion, Liver Troubles Conquered by Dreco — Constipation and Headaches Disappear.

Mr. George M. Peterson, 1347 Garham Ave., Lowell, Mass., says:

"For years I didn't know what it was to enjoy life. I had headaches that pained me so I thought I would go mad. My kidneys were weak, and every time I moved pains shot through the small of my back like red hot irons. I was thin and yellow. I had a sickly pallor on my face. My mouth was drawn, cheeks were sunken, and black rings were deep beneath my eyes."

I was always constipated. The notorious backwash filled my system, ate away my strength and left me rundown, weak and worn-out. This tormenting in my stomach after eating plagued me. I belched and gaped for breath. Eating a meal meant hours of agonizing suffering.

Medicine failed to help my condition. And I had given up hope of ever feeling tip-top when I started taking Dreco. Soon my pessimism gave way to optimism. I began to feel better than I have felt in years. All traces of trouble are gone. I now enjoy life. Thanks to this great remedy, Dreco."

Calls today at Green's Drug Store and ask to talk with Mr. Preble, the expert from the Dreco Laboratories. He will courteously tell you of the merits of this wonderful remedy.

Also we will honestly tell you whether or not he thinks Dreco will benefit you. Dreco is sold in Nashua by Nashua Drug Co., 175 Main St., N.H.

## HELD SECRET MEETING GOVERNMENT EXPENSES BERLIN IS OPTIMISTIC

Landis, Heydler and Stoneham Met Behind Closed Doors in New York

Budget Bureau Confident Previous Estimates Will Be Carried Out

WASHINGTON, Sept. 11.—A secret meeting was held here last Saturday night by Baseball Commissioner Landis, Pres. Heydler of the National League and Charles A. Stoneham, president of the New York National League club, but both Mr. Heydler and Mr. Stoneham today declined to discuss its nature. Commissioner Landis returned to Chicago Sunday.

It was believed in baseball circles that the conference concerned talk of Mr. Stoneham disposing of his baseball interests because of his indictment in the Fuller-McGraw black-leg case. Mr. Stoneham denied this when he was asked to talk out and said the trip agreed to secrecy for the time being.

The matter may be discussed in Chicago Sunday when many of the National League owners will be there to attend the memorial service for the late Chapin Anson.

## USE OF MEMORIAL AUDITORIUM ORGAN

Consideration of the best manner in which the organ at the Memorial Auditorium can be used so as to give enjoyment to the greatest number of people will be taken up next Monday evening by the Auditorium trustees, who have invited a number of local organists to meet with them at that time for the purpose of discussion. This informal committee of organists will serve with the trustees in an advisory capacity in order that the instrument may be put only to the best use and to make positive that all players called upon to use it are qualified to do so.

The trustees met last night for the first regular session of the fall and winter season and in addition to transacting considerable routine business pertaining to its management granted several dates. Chairman Charles H. Hobson presided over the meeting and Mayor John J. Donavan and Trustee Frederick Estes were present. Mr. Heninger's health still will not allow him to meet with the trustees.

One of the most important dates granted last night was that of Nov. 19 for the use of the main Auditorium by the Ukrainian national chorus, who made a positive sensation in their country-wide tour last year. The chorus will come to Lowell under the auspices of the Washington club.

In order to adapt the stage to the atrient performances the trustees have ordered wings and an artistic frame or covering for the proscenium arch.

## OLDEST WORLD WAR SOLDIER DIES

LOS ANGELES, Sept. 11.—Lieutenant Georges Le Mesnager, 19 years old, said to have been the oldest soldier to serve throughout the World war, is dead in Mayence, France, according to word received by the Los Angeles Times.

M. Le Mesnager came to California in 1916. When the World war started, he hastened at once to France and joined the 10th regiment which Gen. Petain once characterized as the bravest of the brave.

Later he was assigned to assist in the instruction of American troops and came to the personal attention of Gen. Pershing because of his unusual ability as a bugler and drill master.

—Adv.

Progress in Efforts to Bring Agreement Between France and Germany

BERLIN, Sept. 11.—(By the Associated Press)—Political circles aver that "progress" is being made in unofficial efforts to strengthen the "atmosphere of contact" which the government is endeavoring to establish with France. These informal conversations, it is believed, forecast official action by the German government.

An outline of the extensive economic guarantees which Germany is prepared to pledge for the payment of her reparations obligations is generally looked for in the address which Chancellor Stresemann is scheduled to deliver in Berlin tomorrow. This plan, it is believed, will be carried out.

Known, is based upon the hypothesization of the entire economic structure of the Reich, according to the scheme involved during the chancellorship of Dr. Cuno. If acceptable to the allied creditors, the program will be supported by full legislative authority.

Official circles are somewhat disappointed that Premier Poincare has not seen fit to consider Dr. Cuno's offer, which has been amplified by the new chancellor.

## Lending Toward Settlement

PARIS, Sept. 11.—(By the Associated Press)—Conversations that are taking place between Jacques de Margerie, French ambassador to Germany and Chancellor Stresemann in Berlin are considered by the French government as leading toward a settlement of the reparation question, although it is stated that the chancellor has not yet made a definite offer either respecting the cessation of resistance in the Ruhr or what could be proposed afterward.

The conferences between M. De Margerie and Chancellor Stresemann will be continued. Any proposition re-

quested,

Stresemann will be communicated im-

## FORMER LOWELL MAN KILLED IN ALBANY

Word was received here early this morning by Miss Blanche L. Germaine, daughter at the Waldorf Lunch, of a fatal accident to her brother, Omer Germaine in an auto crash in Albany, N.Y., last night. No details were given, but Miss Germaine and her brother, Arthur P. Germaine left for Albany this morning.

## CRYSTALS WON

The Crystals defeated the strong Jaffers Sunday afternoon in the bantam boy home grounds by the score of 10-8. The game was a hummer from start to finish, with both teams struggling for victory. The Crystals finally winning out. The features of the game were the batless of Ladamine and J. Brabury of the Crystals, as well as a sensational catch by Bray, the Crystals' first slicker.

## CHURCH CELEBRATES 17TH ANNIVERSARY

In observance of the 17th anniversary of the founding of St. Marie's parish in South Lowell, Sunday, the members of Branch St. Marie, A. C. F. received communion in a body at the 9 o'clock mass and the church service was followed by a street parade and breakfast and reception in the quarters of the organization in Carmine street.

The celebrant of the mass was the pastor, Rev. Joseph Denis, O. M. I., who also delivered the sermon, touching up on the observance and taking occasion to congratulate the Artisans for the magnificent showing they made in church.

At the close of the mass the men, headed by the Zouaves drum corps of Notre Dame de Lourdes parish, marched from the church to the hall in Carmine street, where they sat around the festive board and partook of the substantial breakfast prepared for them under the direction of Mrs. Alphonse Surprenant, assisted by Mrs. John Paloguin, Mrs. J. B. Gendreau and Mrs. Joseph Christian.

At the close of the meal post-prandial exercises were held with President Albert Morin acting as toastmaster. A musical program was given by a choral composed of 60 young women of the parish, under the direction of Mrs. Albert Morin, Jr., and there were interesting remarks by Rev. Fr. Denis, O.M.I., J. A. Plante and Armand Surprenant. There were also vocal selections by Mr. and Mrs. Albert Morin, accompanied on the piano by Miss Cecile Sauvageau. The Zouaves also entertained with selections. The committee in charge consisted of George Lessard, Armand Surprenant and Albert Morin.

### Suspected False Alarm

#### Fiend Held by Police Continued

away from the Adams and Cross location.

By this time the fire officials were fairly positive that someone was trying to "kid" them out of a night's rest and a special detail of police was securing the general neighborhood for suspicious persons. About 10 minutes after the last of the false quartet of alarms Cashman was arrested in Broadway.

Before Cashman was photographed and finger-printed, the police learned from Belmont that a number of suspicious fires have occurred near the railroad yards in that time during the past few months. It was learned from Cashman, himself, that he is employed in a railroad freight office in Belmont.

### When that Recipe is lost

that you tucked away for safekeeping, it is not necessary to go without cake in the house. It will take only a moment to send one of the children over to the grocery or delicatessen store to buy a loaf of Drake's Cake. It will be cheaper, also, for it takes a coal fire as well as a recipe and ingredients to bake cake for the family.

### INSTANTANEOUS EXCELSIOR HAIR DYE

Purchasing Agent,  
Lowell, Mass., Sept. 11, 1923

### FUNERALS

### WILL STUDY FOR THE PRIESTHOOD

**FARELEY**—The funeral of Mrs. Annie (O'Keefe) Farley took place this morning from her home, 28 West Third street, attended by St. Michael's church where at 10 o'clock a solemn high funeral mass was sung by Rev. Aloysius Madden, assisted by Rev. James F. Lynch as deacon and Rev. Thomas J. Magney as sub-deacon. The choir under the direction of Miss Margaret O'Brien rendered the Gloria. The organist was Mrs. James E. Donnelly. At the offertory Mr. James E. Donnelly sang the Domine Jesu Christe, and after the elevation the Pie Jesu was rendered by Miss Griffith, the solo of the mass was sustained by Mrs. Mary McDonough, wife of Mr. Melvin McDonough. The organ was played by George Johnson. There were many beautiful floral tributes and spiritual bouquets. The bearers were W. Shelly, G. Sheridan, W. Johnson, E. Sherburne, C. Johnson and A. Cushing. The body will be brought to Danville, Canada, P. Q. for burial by Undertakers James E. O'Donnell & Sons.

**BRODEUR**—The funeral of Raymond Brodeur, infant son of Adelphie and Yvonne (Lalereque) Brodeur, took place yesterday from the home of his parents, 10 Aiken avenue. Burial was in St. Joseph's cemetery under the direction of Amédée Archambault & Sons.

### DEATHS

**TROTTER**—Arthur Trotter died last evening at the Chelmsford Street hospital, aged 60 years. He is survived by his wife, Georgia (Lamont) Trotter, three daughters, Cecile, Yvonne, Louise Trotter; one brother, Victor Trotter, and two sisters, Mrs. Eugenia Dupras and Mrs. Harry Norris, all of this city. The body was removed to his home, 62 Easton street, by Undertakers Amédée Archambault & Sons.

**LUNN**—Mrs. Elizabeth Lunn died yesterday in her home at 55 Middlesex street, after a long illness. She had been a lifelong member of the First Church of the Nazarene. She is survived by four sons, Shimmons, Fred, Amos and Enoch Lunn, all of Lowell; two daughters, Mrs. A. Kingsbury of Brattleboro, Vt., and Mrs. A. Smith of Wellington; one sister, Mrs. Ruth Hill of Beverly, and three brothers, John and William Macdonald of Bridgewater, Me., and Douglas Jamieson of Idaho.

**DUFFY**—Mrs. Melvina (Perry) Duffy died last night at the home of her daughter, Mrs. Julie (Duffy) Macdonald, 655 Middlesex street, aged 65 years. Besides her daughter, she leaves one grandson, Clifford Rix Macdonald. The body was removed to the rooms of Undertaker George W. Healey, 239 West street.

**QUALEY**—James J. Quale, son of James and Ella (McCarthy) Quale, died Sept. 9, at the James Mammon Memorial hospital, Long Branch, N. J., aged 7 years and 11 months. He leaves besides his parents, one sister, Pauline Quale. The body will be removed to the home of his aunt, Mrs. Catherine Cain, 17 Hudson street, by Undertakers M. H. McDonald Sons.

**MURRAY**—Daniel F. Murray, a well known resident of this city for the past 15 years, died this morning at the Lowell Corporation hospital, after a brief illness, aged 33 years. Decidedly ill, he was admitted on Sept. 10, at the hospital's charge. The body was removed to the home of Frank A. Crossley, 68 Humphrey street, by Funeral Directors James W. McKenna Sons.

**DUDUTIS**—Died, Sept. 9, Peter Dudutis, aged 32 years. He leaves besides his wife Mary, two sons, Joseph and Wacław. He was a member of the K. of L. Lithuanian society. The body was removed to Lowell by Undertaker J. Sadowski.

**PERGUSON**—The many friends of Raymond and Alice M. (Kearns) Pergusson, son of the infant slayer, Eddie May Pergusson who passed away at the Lowell Corporation hospital Monday afternoon, aged 1 day. The body was removed to Saunders' funeral home, 217 Appleton street.

**AINSLY**—Alfred H. Ainsley, beloved son of Alfred and Alice (White) Ainsley, died this morning at the home of his parents, 473 Riverside street, Dracut, aged 2 months and 28 days. Besides his parents, he leaves one sister, Miss Alice T. Ainsley.

**COLLIETTE**—Joseph H. R. Collette, aged 2 days, infant son of Mr. and Mrs. Melvina (Perry) Duffy, died this morning at the home of his parents, 151 Perkins street. Burial took place at 3:15 o'clock this afternoon in St. Joseph's cemetery, under the direction of Undertakers Amédée Archambault & Sons.

### FUNERAL NOTICES

**DUFFY**—Died, Sept. 10th, in this city, Mrs. Melvina (Perry) Duffy, at the home of her daughter, Mrs. Julia (Duffy) Macdonald, 655 Middlesex street. Funeral services will be held at 10 o'clock Saturday morning at 231 Weston street, Wednesday afternoon at 3 o'clock. Friends are invited without further notice. Burial will be at Burlington, Vt. The funeral arrangements are in charge of Undertaker George W. Healey.

**QUALEY**—Sept. 9, at Long Branch, N. J., James J. Quale. Funeral will take place on Thursday morning at 8 o'clock from the home of his aunt, Mrs. Catherine Cain, 17 Hudson street. Funeral high mass of requiem will be sung at St. Peter's church at 10 o'clock. Burial will be in St. Peter's cemetery. The funeral arrangements are in charge of Funeral Directors James W. McKenna Sons.

**DUDUTIS**—The funeral of Peter Dudutis will take place Wednesday morning from the funeral parlors of Undertaker Joseph Sadowski at 8:30 a.m. Friends are invited to call at 9 o'clock. Funeral mass at St. Joseph's church at 9 o'clock. Burial in St. Peter's cemetery. The funeral arrangements are in charge of Undertaker Joseph Sadowski.

**SMITH**—Died, in this city, Sept. 10, at the Lowell Corporation hospital, Daniel F. Murray. The funeral will take place Thursday morning at 8:15 o'clock from the home of Frank A. Crossley, 68 Humphrey street. There will be a funeral high mass at St. Michael's church at 9 o'clock. Burial will be in St. Peter's cemetery, Dover, N. H. The funeral arrangements are in charge of Funeral Directors James W. McKenna Sons.

**DUDUTIS**—The funeral of Peter Dudutis will take place Wednesday morning from the funeral parlors of Undertaker Joseph Sadowski at 8:30 a.m. Friends are invited to call at 9 o'clock. Funeral mass at St. Peter's church at 9 o'clock. Burial in St. Peter's cemetery. The funeral arrangements are in charge of Undertaker Joseph Sadowski.

**SMITH**—Died, in this city, Sept. 10, at the Lowell Corporation hospital, Daniel F. Murray. The funeral will take place Thursday morning at 8:15 o'clock from the home of Frank A. Crossley, 68 Humphrey street. There will be a funeral high mass at St. Michael's church at 9 o'clock. Burial will be in St. Peter's cemetery, Dover, N. H. The funeral arrangements are in charge of Funeral Directors James W. McKenna Sons.

**DRUMM**—Died, Sept. 10, at the Lowell Corporation hospital, Daniel F. Murray. The funeral will take place Thursday morning at 8:15 o'clock from the home of Frank A. Crossley, 68 Humphrey street. There will be a funeral high mass at St. Michael's church at 9 o'clock. Burial will be in St. Peter's cemetery, Dover, N. H. The funeral arrangements are in charge of Funeral Directors James W. McKenna Sons.

**DRUMM**—Died, Sept. 10, at the Lowell Corporation hospital, Daniel F. Murray. The funeral will take place Thursday morning at 8:15 o'clock from the home of Frank A. Crossley, 68 Humphrey street. There will be a funeral high mass at St. Michael's church at 9 o'clock. Burial will be in St. Peter's cemetery, Dover, N. H. The funeral arrangements are in charge of Funeral Directors James W. McKenna Sons.

**DRUMM**—Died, Sept. 10, at the Lowell Corporation hospital, Daniel F. Murray. The funeral will take place Thursday morning at 8:15 o'clock from the home of Frank A. Crossley, 68 Humphrey street. There will be a funeral high mass at St. Michael's church at 9 o'clock. Burial will be in St. Peter's cemetery, Dover, N. H. The funeral arrangements are in charge of Funeral Directors James W. McKenna Sons.

## OUR BOARDING HOUSE

A NEW BELL ON THE MAJOR'S ALARM CLOCK

## CURIOS FREAKS OF NATURE IN FLORIDA

TALLAHASSEE, Fla., Sept. 11. (By the Associated Press)—The traveler in West Florida, unfamiliar with the scenery of that section, should prepare himself for some curious freaks of nature. Otherwise he may waste unnecessary time gazing for an explanation of the strange behavior of three of the state's rivers. The old poet and shell gunn expression, "Now you see it and now you don't," applies to parts of all of them.

A description of these streams has been written by W. A. McRae, commissioner of agriculture, who quotes a young man who has spent his life on the banks of the waterways. The substance of it follows:

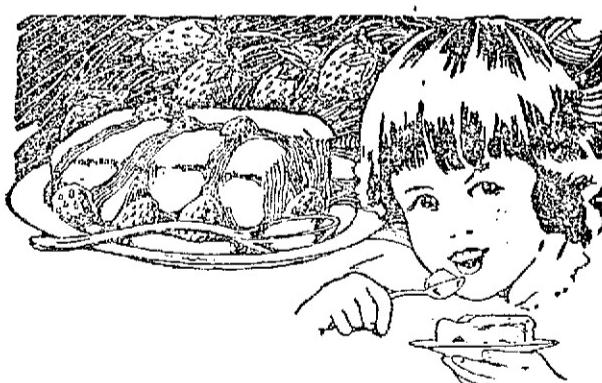

The Wakissa rises in "beautiful springs" near Thomas City, on the Tallahassee-Southeastern railroad, not far from the state capital, and flows due south to within three miles of the Aucilla river, where it disappears underground and then reappears in the Aucilla. Logmen have cut a small canal from the point of disappearance to the Aucilla.

The Wakissa joins in the North End bridge fire Saturday, or that she was kidnapped by some of the rough element among the big crowd at the fire, is expressed by her relatives yesterday because of the mysterious absence of the girl.

She left her home between 3 and 4 o'clock Saturday afternoon, saying that she was going to watch the fire. There

trace of her has been found since. There are many treacherous spots along the steep bank of the Connecticut river near the bridge, where she might have slipped into deep water. The fact however, that she was an unusually attractive girl, leads the family to feel that it is just as probable that she was the victim of violence.

Astronomers at Santa Barbara and Mexico City report getting good photographs of sun's eclipse but clouds or fog obscure the view at most California points.

## GOWNS OF 1918-1919 BACK IN STYLE

CHICAGO, Sept. 11.—Women who have not given away their gowns of the 1918-1919 vintage are in line to save a neat bit of money in outfitting themselves this season, for the newest styles show only trifling changes from the modes of those years.

A new belt and an adjustable bustle and a little readjustment of the old gowns and the family checkbook will be saved an awful wallet.

This pleasing discovery was made in looking over the styles exhibited at the 19th semi-annual convention of the Fashion & League, which opened yesterday. Popular modes this fall will be the Indo-Chinese and those reminiscent of 1880. Skirts will be worn shorter for the street but will remain long for evening wear.

"Basic styles have changed very little," said Mrs. Carolyn T. Radnor Lewis of New York, one of the 1500 members of the league. "An old gown, with the skirt altered a bit, a plastron here, or a belt put on or taken off will do very well this season."

An adjustable bustle made of ribbons may be popular foible this fall. Sheath skirts with slits to make walking easy are coming back. Feather armlets worn on bare arms, are another whimsy of the coming season. Celadon brown and "Love apple" (tomato) red will be shades much worn in fact, any Chinese colors will be good. For suits, black, dark blue and brown will retain their popularity. The Japanese dash will hit the American pocketbook in more ways than one. Prices of silk are likely to be advanced 50 per cent.

## GERMAN RELICS RECALL WORLD WAR DAYS

HONOLULU, Sept. 11. (By the Associated Press)—Memories of the World war were revived here recently with the opening and official sale of trunks, boxes and bags of German sailors who were carried from merchant ships here to serve aboard the German cruiser Nurnberg, which sailed from this port shortly after the declaration of war by Germany. The crusade went down with all hands in the battle off the Falkland Islands on Dec. 8, 1914.

When the German sailors, all naval reservists, left Germany aboard their various vessels—the Pommern, setes, Peitz Waldemar, Holstein, and others—they carried with them pteunes of home groups and many trinkets, which came to light when the baggage was opened preparatory to auctioning off the contents. The bags also contained mementoes of many far lands—Java, India, the Straits Settlement, China, New Guinea and Borneo.

When Germany declared war nearly all of the German merchantmen in the Pacific hastened toward Honolulu for safety. The cruiser Nurnberg, pursued by British and Japanese vessels, put in for coal and supplies. There was need for haste and all of the reservists aboard the merchantmen were transferred to the Nurnberg. The men could take only a small portion of their effects with them. The remainder were placed in the trunks, boxes and bags, which were taken in charge by the collector of customs when the United States declared war on Germany.

For six years the effects have been in the customs house. Recently, as the result of correspondence between the German ambassador at Washington and the state department, permission was granted to auction off the luggage and

to return the purely personal effects, such as pictures, letters and trinkets that represent human interest, to the German consul at San Francisco, who will forward them to the families of the men in Germany.

The results from the auction of clothing and other articles will be sent to the families also. The prohibitive price of freight which would have to be paid in German marks, prevents the despatch of all of the articles to the German families.

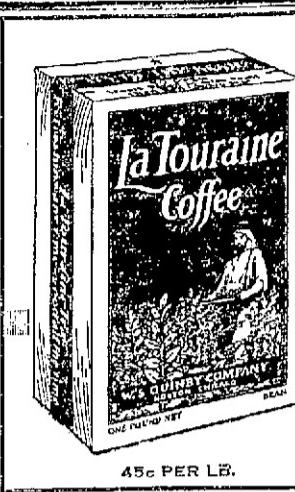

The bags yield many interesting objects—rare blues, beautiful ostrich and other feathers, a Lounger pistol loaded and ready to fire, several sextants, and other navigation equipment, and many books.

## WORK STARTS ON MOFFATT TUNNEL

DENVER, Colo., Sept. 11. (By the Associated Press)—With the bonds financing the construction of the Moffatt tunnel through the Great Divide delivered to the New York buyers, the actual work on the big bore already has been started. Despite the fact that prospective bidders for the construction work were granted a delay in which to prepare their estimates, work at the tunnel site has not been postponed, according to President William P. Robinson of the tunnel commission.

"The tunnel will be well underway before snow flies," President Robinson said. "Eighty men are employed, about 40 at each portal. The camp is nearing completion; a water system is being installed which will be adequate for all purposes, and a preliminary power plant is being set up. All of these works are to be taken over by the successful bidder, and will have saved him his start before winter sets in. After that the work can proceed without hindrance."

Electric power lines will be extended to both portals of the projected tunnel before Oct. 15, instead of November 15 as planned originally, Mr. Robinson said. Duplicate lines which will carry current for 4000 horsepower are being run so that there will be little likelihood of interruption of work from that source.

*"It's the Bean"*

## All Laundry Starch Troubles Overcome with Linit, the New Scientific Starch Discovery

\* \* \*

BECAUSE of the unusual quality of remaining thin and free-running like water, Linit penetrates every thread of the fabric. This reinforces the strength of the fabric, helps prevent wear, and prolongs the life of the material.

## New Starch Discovery

LINIT is a scientific starch discovery—distinctly different from old-fashioned starches. It was originally made for the makers of fine fabrics who had to secure the finest possible finish.

Now, for the first time, it is offered to the housewife. With Linit you can get the same won-

derful finish you have always admired in goods that come direct from the store.

Linit gives a soft, cool, pliable finish to your garments. And you will find your Linit-starched clothes and fabrics remain clean and fresh' much longer. Also, Linit makes even ordinary cotton goods look and feel like expensive linen.

## Important to You

LINIT makes a THIN "MILKY" MIXTURE, free-running like water, which is quickly absorbed by the fabric, thus saving the time and labor of "smearing on", which was customary with old-fashioned starches. The Linit mixture does not present the stiff, jelly-like appearance of ordinary starch. This is why you will find it much easier to iron with Linit.

Your grocer now has Linit, 10c

Perfection in starching guaranteed or your money refunded.

Linit is made by the Corn Products Refining Company—makers of the famous Argo Starch, Karo Syrup and Mazaola Salad and Cooking Oil.

## MATERIAL REDUCTION IN FIRE LOSSES

(Special to The Sun)  
BOSTON, Sept. 11.—Fire losses in Massachusetts, outside the city of Boston, were materially reduced during the month of August as compared with the July record, according to information tabulated by Col. Alfred F. Foote, commissioner of public safety.

During July the total losses amounted to \$1,387,944, while in August the figure was only \$747,779, the decrease amounting, in round numbers, to one-third.

Carelessness, as usual, was the chief cause of fires, as well as of the principal losses. Careless smoking alone was the cause of more than 100 fires, with losses totalling \$139,661. Matches used carelessly caused 26 fires, the losses in which were \$17,729; children playing with matches starting fires which burned property valued at \$24,584. Defective electrical apparatus was the cause of losses amounting to \$15,600.

Spontaneous combustion also continues to figure largely in the fire losses, having caused 32 fires last month, with total losses of \$105,508. This cause is generally attributable to oily rags and cloths, and a little care in disposing of such material would tend greatly to reduce fires in this state.

Sparks from chimneys caused damages totalling \$139,575, and careless use of fireworks at public displays was responsible for a small number of

fires in which there were losses of \$654.

Commissioner Foote once more urges motorists to exercise great caution in disposing of the matches used by them while touring, pointing out that in each of the last few months there have been several fires due to this cause.

HOYT.

## PITCHER WATSON IS REINSTATED

BOSTON, Sept. 11.—The suspension of Pitcher John Watson of the New York Giants has been lifted and he rejoined the world's champions here this morning.

Watson was suspended by Manager McGraw yesterday in New York for breach of training rules. The reinstatement was the result of a meeting of the club's players and officials, and that Watson be given another chance and Manager McGraw acquiesced to their request, according to the latter's secretary, James Tierney.

The fine imposed on Pitcher Watson must be paid, according to Tierney who took occasion to deny the levy had been \$500. The former Boston pitcher, who went to the Giants as a free agent, is said to have given up his \$500 bonus in exchange for Catcher Earl Smith and Pitcher Jess Barnes, is alleged to have incurred McGraw's displeasure when he reported in unfit condition to make the trip to Boston.

## EXAMINATION FOR CHAUFFEURS

Thirty-seven prospective chauffeurs were examined at city hall by the state highway examiners this morning. Of that number there were 5 women and 32 men.

## Do You Have Heartburn?

### This Man Knows a Real Relief

He Now Eats Everything Without Suffering—  
Recommends O'Brien's

Most everyone knows the feeling of stomach distress and heartburn. It attacks even those in the best of health. To combat these ailments, the advice of Charles O'Brien, 102 Temple street, Woonsocket, R. I., is well worth following:

"I have taken O'Brien's for dyspepsia with gratifying results. After meals I would feel distressed with gas in the stomach and heartburn. I took 3 bottles of O'Brien's and can now eat everything without any bad effects. I take great pleasure in recommending it to any person afflicted as I was."

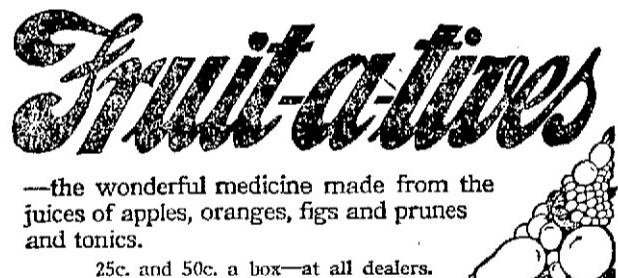

If you have stomach trouble of any kind—Dyspepsia, Indigestion, Heartburn, Gastritis, Colic, Ulcerated Stomach—mind the name—O'Brien's for Dyspepsia.

## O'BRIEN'S for DYSPEPSIA The World's Greatest Stomach Remedy

Sold only by these authorized drug stores:

BURKINSHAW DRUG CO. .... 418 Middlesex St.  
MOONAN, THE DRUGGIST ..... Cor. Bridge and First Sts.  
DOWS, THE DRUGGIST ..... Fairburn Bldg.  
FRED HOWARD ..... 223 Central St.

18 Years of Success Are Behind

—the wonderful medicine made from the juices of apples, oranges, figs and prunes and tonics.

25c. and 50c. a box—at all dealers.

## The Dentist Who Does Not Hurt!

And This Means Without Physical or Mental Pain and Also Without Any Pain Financially.

All my plates are made by a new system. They are more natural in appearance, more stable in the mouth in all positions, better for mastication, and in some cases a suction to the lower plate.

## CHAMBER DISCUSSES FALL ACTIVITIES

Fall activities were opened by the chamber of commerce yesterday with the first meeting of the board of directors after the summer season, held in the chamber rooms in the Fairburn building. Much of the time was employed in hearing reports on summer activities of the organization.

Inasmuch as no definite program for the fall and winter has yet been established most of the new business was of a routine nature. President Fisher, who presided, was authorized to appoint two representatives of the chamber of commerce to serve on the committee being organized by the park department to develop amateur athletics.

President Fisher and Secretary Wolls were requested to name a committee of ten to co-operate with the general city committee in plans for the reception of Henry Sullivan.

A communication from the state chamber of commerce relative to changes proposed by various cities of the state, that the armories in each city be used for trade and industrial exhibitions, was laid on the table. The state chamber wished to secure the opinion of all commercial organizations of the state as to whether they thought it proper to secure a change in the laws which would permit the use of the armories as stated above. The directors of the Lowell chamber were generally much opposed to the plan, stating that armories should be reserved for military purposes entirely.

In Vermont the gasoline tax is the subject of suit debate just at present. Accordingly, the Vermont chamber of commerce desired the Lowell chamber to express its opinion on the matter, but this also was laid on the table because the directors thought it inadvisable for the organization to go on record when the gasoline tax in Massachusetts will be put to a referendum.

A proposal for the re-establishment of a traffic bureau in connection with the chamber was laid on the table, as was also a plan for collecting overcharges on freight bills of members made by an association of St. Louis, Mo.

The Boston chamber of commerce requested the Lowell chamber to take a stand on the proposed consolidation of New England railroads, but owing to the technicality of the subject, and the lack of complete study the directors decided not to express their opinion. Furthermore in any controversial subject such as this which concerns the general public, the board of directors cannot justly express the opinion of the membership without taking a referendum. Several other matters were discussed with dispatch.

The directors present included: President Fisher, Albert Milliken, Royal P. White, Elmore L. MacMile, Charles H. Hobson, H. Hutchings Parker, Harry G. Pollard, Royal K. Dexter, Tyler A. Stevens and Donald M. Cameron.

## MAY ASK HARVARD HEAD TO COME HERE

Eight churches were represented at the meeting at the Y.M.C.A. last night of the committee of the Lowell Ministers' association held to discuss the advisability of holding here a meeting for the purpose of discussing the topic, "America as a Factor in the World's Problem."

Dr. A. Lawrence Lowell, president of Harvard university, will be asked to speak here on the subject. Otis A. Butler, Howard D. Smith and John Leachman were appointed to a committee to arrange for the gathering. Rev. J. J. Speel presided at last night's meeting. H. F. Howe acted as secretary.

## CEMETERY IMPROVEMENTS

At the request of the cemetery commissioners City Treasurer Rourke today transferred the sum of \$5329 from the perpetual care fund to the regular department fund. The money is needed for certain improvements that are being made in the Edson cemetery.

## TO PASS FIVE MILLION MARK

WASHINGTON, Sept. 11.—Contributions to the nation's relief fund for Japanese earthquake sufferers were expected by Red Cross officials

## MANY VIEW PARTIAL ECLIPSE OF THE SUN

Yesterday's partial eclipse of the sun was visible in Lowell for approximately an hour, or from 4:41 to 5:23 p.m., although at no time was more than 20 per cent of the sun's orbit obscured by the passage of the moon between it and the earth. The eclipse was visible with the naked eye, but nearly everyone who watched it used colored glasses for protection against the sun's rays.

The moon first began to eclipse the sun at sunrise yesterday morning, the first point of observation being in the Pacific ocean, at a point in a line due west from Nome, Alaska. The greatest amount of eclipses occurred at Los Angeles, Cal., where the sun was 90 per cent obscured. It was obscured in decreasing arcs as the path of totality moved westward.

President Fisher and Secretary Wolls were requested to name a committee of ten to co-operate with the general city committee in plans for the reception of Henry Sullivan.

The refugees were taken aboard from small boats and destroyer 217 returned to Yokohama, where the foreigners boarded the liners that were acting as rescue stations.

Another dash to Tokio followed and on her return the destroyers brought the remaining foreigners who desired to leave the capital to the safety of the big ships at Yokohama.

The American rescuers found the foreign colony encamped in the gardens of the Imperial hotel with a strong military guard around the buildings and gardens for protective purposes. The foreigners slept in the open and received military rations.

The military guard around the grounds was necessary, says the correspondent, because across the street is Hibya park 100,000 desolate Japanese, many of whom desperate as the result of their suffering, had eaten less food and protection from the elements had the foreigners.

The foreigners remained isolated in the hotel grounds until Tuesday morning when the destroyer arrived.

The steamer Empress of Australia continued her relief work at Yokohama for nine days before proceeding to Kobe with 200 European and American refugees. Most of the tourists got away as quickly as possible from the stricken districts but many of the foreigners whose homes were in Tokio are remaining and assisting in the relief work.

The American and British embassies, the correspondent states, are still quartered in the Imperial hotel. The American official records were removed from the embassy, he said, before the fire reached the vicinity of the embassy compound, and all the records and official reports are safe. It is likewise believed the British archives were saved.

British warships have arrived at Yokohama, the dispatch says, and are co-operating with the American authorities.

The moratorium, the government relief fund and the prohibition of speculation have all combined to afford assurance of Japan's ability to recuperate, the message adds.

The moratorium, the government relief fund and the prohibition of speculation have all combined to afford assurance of Japan's ability to recuperate, the message adds.

The deaths of Viscount General Yoshimasa Oshima and Baron Schenck Go, the latter chairman of the board of the Tokio stock exchange, are confirmed.

Premier Yamamoto has enabled President Coolidge the following:

"Words fail to convey our heartfelt gratitude for the humanitarian deed of the government and people of the United States in aiding the stricken of Japan."

Most of the Tokio newspapers are said to have resumed publication with greatly reduced numbers of pages.

here to pass today the \$5,000,000 minimum.

A meeting of the executive committee of the Red Cross had been called to take action on the cable request of Ambassador Wood that \$1,000,000 be placed at the immediate disposal of the organization's relief committee in Japan for quick purchase of vital supplies. The urgency of the situation also was stressed in a despatch to the navy department from Admiral Anderson, who described conditions as "terrible and beyond estimation of future needs."

## RECOVER 23,000

### BODIES IN YOKOHAMA

TOKIO, Sept. 11.—(By the Associated Press) Up to yesterday, 23,000 bodies had been recovered in Yokohama. Of the 150,000 homeless in that city, at least half are said to have departed. The condition of those who remained is improving.

The street corps in Tokio have resumed operation from the financial district to the western suburbs. Temporary barracks are in use for the homeless are being erected. A separate department of the government has been established to take charge of the reconstruction at the capital.

The American rescuers found the foreign colony encamped in the gardens of the Imperial hotel with a strong military guard around the buildings and gardens for protective purposes. The foreigners slept in the open and received military rations.

The military guard around the grounds was necessary, says the correspondent, because across the street is Hibya park 100,000 desolate Japanese, many of whom desperate as the result of their suffering, had eaten less food and protection from the elements had the foreigners.

The bride and become the bride of Mr. Camille Caputre. Mrs. Shawl and Miss Mar- kourie. A buffet luncheon was served at all of Lowell and the Misses Braden in the dining room which was prettily decorated for the occasion with garland duets.

## 238 MILES AN HOUR IN FIGHTING PLANE

MINEOLA, L. I., Sept. 11.—Flying the new Navy-Wright fighting plane, Lieut. L. N. Sanderson, United States marine corps, yesterday afternoon at Roosevelt Field broke the official world's speed record over a measured course by making 238 miles an hour. The previous record of 235.587 miles per hour was established last spring by Lieut. Russell L. Vaughan in a Curtis army pursuit plane at Dayton, Ohio.

Lieut. Sanderson's record was made in a straightaway flight without diving to get momentum. The test, which was officially witnessed by navy men, was conducted as a building trial preliminary to entrance in the international airplane races at St. Louis Oct. 1-3.

Navy flyers were jubilant, predicting that Lieut. Sanderson would better today's speed at St. Louis and win the Pulitzer cup away from the army. After the flight Lieut. Sanderson said: "The plane and engine worked perfectly. The Navy-Wright fighter is in effect an airplane built around an engine to convey tremendous power to speed."

## WOMAN WHO SHOT COAL MERCHANT CAPTURED

PROVIDENCE, R. I., Sept. 11.—Search for the woman whom Ernest R. Smith, coal merchant of this city, claimed shot him on Aug. 29, in a lonely spot in Smithfield, ended shortly before 6 o'clock last evening with the arrest of Gertrude Giffenney, one of the Negroes in the Mount Pleasant section of this city.

At the Jane Brown Memorial hospital here, where Smith is still under treatment, he identified the prisoner as the Gertrude Giffenney who shot him after he had refused to demand for \$1000 the \$1000 she had stolen.

In the presence of police officials and newspapermen, Smith repeated the account of the shooting substantially as he had previously told it, explaining how he had driven the woman from this city to Smithfield, where he had given her a sum of money, and when he refused money, fled and ran away. The woman refused to say anything about the affair.

The woman was booked on a charge of armed assault with a dangerous weapon and with being a fugitive from justice.

## THEY SPENT A VERY ENJOYABLE VACATION

William E. Sproule of 9 Eighteenth street has returned to his home after a six weeks' vacation trip spent with the Misses Mildred E. Sproule and Dora Webster in touring Nova Scotia, Cape Breton and Newfoundland.

The party started for the land of Evangeline from Boston and went to Yarmouth by boat. From there they visited Annapolis Royal, Bear river, Digby, Wolfville, and Point Blomidon. Several days were spent in Halifax and at the national park in Truro. Malgrave on the Straits of Canso was the next stop, a launch trip to Point Tupper being one of the diversions while there. The Gaspé lakes region were visited en route to Sydney. Glace bay, a typical bituminous mining town, made its appeal to the tourists as did the long trip from Sydney to Port Aux Basques, Newfoundland, a wonderful all-night sail. From the port of landing the tourists, by easy stages, went to St. John's, where the landscaped harbor afforded a marked contrast to the open gates of Halifax. Belle Isle was visited from St. John's after which a boat trip to Halifax and a short railroad journey to Malone bay and Yarmouth was concluded with the boarding of the homeward-bound boat at Yarmouth.

Mr. Sproule was in a measure disappointed that he did not find Newfoundland the country he had expected to see. It was his first visit and from his travels and reading at home here he expected to see many savagery, barren wilderness, caribou, reindeer and an abundance of Newfoundland dogs. He says he saw only four such dogs on the island and they were being raised by a private citizen who did not desire the breed to become extinct there.

However, he feels amply repaid by the opportunity afforded to note the many marvelous works of nature so handsomely afforded throughout the whole tour. He was greatly interested in various improvements planned throughout the visited sections by big enterprise and considers his vacation well spent.

## ST. PETER'S CADETS

After a lapse of a month, the meetings of St. Peter's Cadets will be resumed on Sept. 18. This will be the first meeting since the summer and large attendance is expected. Applications of new members will be received at this time. The football squad is already at work and a season such as was enjoyed last year is anticipated. All players are asked to report for practice on Tuesday night, ready for hard work. Next Sunday, all members will receive holy communion in a body, uniformed.

a New mattress  
-a better mattress  
*a better way to buy  
a mattress*

YOU begin an acquaintance with these good mattresses guided and protected by the Derry-Made filler cabinet which tells the kind of filler used in each grade of Derry-Made Mattress.

That's the spic and span new way of selling mattresses—literally turning them inside-out so you know what makes them "go".

It's new and it's better!

Building from this new and better plan of selling mattresses "Inside-Out", Derry-Mades are new in bringing to you the healthy assurance of a line of mattresses built in dust-free, dirt-free, sunlit country air.

No faintest taint of sweat-shop methods clings to your Derry-Made. They're made by a happy, healthy group of country folk in a modern half-million-dollar plant put down plumb in the midst of acres of green fields!

(It's important too, that you know the origin of your mattress; think that over.)

Derry-Mades are new in discarding the hustle and bustle and hit-or-miss of machines for the old-fashioned conscience of hand work. Hand work is vital to the permanent sleep-comfort of a mattress.

So with your Derry-Made comes all the deft hand touches which build strength and permanent character into your mattress.

A HANDBY model.  
It's the true made  
way of a Derry-Made  
mattress, just as it  
should be. It's extra  
large and spread out in front  
of you. Each compre-  
ment is plainly labeled with the  
name it applies.

Derry-Mades are new in our desire to make them known to this and coming generations of homemakers as "best".

Derry-Mades are better in giving you all this certainty of mattress quality, at no more than you ordinarily pay for an indifferently built substitute.

(Is the mattress you sleep on now that sort of mattress?)

Derry-Mades are new in building up, then reinforcing one by

Sum it all up and here's reason enough assuredly to make your next mattress an easy choice from one of the many modestly priced sold-it's-the-open

**OCCUPATION OF CORFU****SUIT FOR \$1,000,000**

Italy Not to Leave Island

Until Greece Has Fulfilled

Her Promises

PARIS, Sept. 11.—(By the Associated Press)—The British government is more interested in the question of when the occupation of Corfu will end than in the other aspects of the Greco-Italian controversy. It was remarked by Lord Crewe, the British ambassador, in the ambassadors' council yesterday.

Baron Arezzano, the Italian ambassador, said in substance that Italy could not leave the island until Greece had fulfilled her promises.

**MARY GARDEN'S NAME A HOUSEHOLD WORD**

It is not unusual in a country of such magnificent distances as ours for an artist to rise rapidly to a position of authority and renown of such distinction that the great world of music lovers regards her name as a household word, deifying her personality in the imagination, yet without that personal acquaintance which the close contact of artist with audience bestows. This is true indeed when applied to Mary Garden, talented artist who will give a concert in the Memorial Auditorium October 1.

Hence it follows as an inevitable sequitur that the services of the distinguished vocalist are demanded in all parts of the United States. Engagements for her appearance in concerts were arranged relatively soon after the singer made her sensational successes in the Manhattan Opera House, and Mary Garden became the adored star in concert as she was the stellar magnet in opera, conquering cities as she went on winning phenomenal successes wherever she appeared.

The period of the war discovered the unique prima donna aiding the allies to the uttermost of her power; penetrating as she had to the actual zone of battle, and unselfishly abandoning the abundant pecuniary and artistic rewards invariably her portion, to give of her strength, time and purse in a cause which fired her enthusiasm.

It was only after many entreaties that Miss Garden reluctantly yielded to the persuasions of her friends, and consented to re-enter the arena of concert where so many of her triumphs have been won.

Numerous engagements have already been booked for Miss Garden, who is said to be in superb vocal as well as physical condition.

**MRS. G. W. HALL SICK FOR YEARS**

Wants Women to Know How She Was Made Well by Lydia E. Pinkham's Vegetable Compound

Lima, Ohio.—"Indeed, your medicine is all you say it is! I had very severe troubles such as women often have, and could do no heavy work. I was sick for several years, and from reading your ads. I finally decided to take Lydia E. Pinkham's Vegetable Compound. I am now doing my own washing, which I haven't done for several years, and can walk long distances without those dragging pains and weak feelings. The Vegetable Compound is fine, and I never forgot to say a good word for it to other women when they say they need something."—Mrs. G. W. Hall, 538 Hazel Avenue, Lima, Ohio.

There are many women who find their household duties almost unbearable owing to some weakness or derangement. The trouble may be slight, yet cause such annoying symptoms as dragging pains, weakness and a run-down feeling.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for such conditions. It has in many cases relieved these symptoms by removing the cause of them. Mrs. Hall's experience is but one of many.

**CORNS stop hurting in one minute!**

For quick lasting relief from corns Dr. Scholl's Zino-pads stop the pain in one minute by removing the cause—friction and pressure.

Zino-pads are thin, safe, antiseptic; healing, waterproof and cannot produce infection or any bad aftereffects. Three sizes—for corns, callouses, and bunions. Cost but a trifle. Get a box today at your druggist's or shoe dealer's.

**Last Survivor of Famous Dalton Gang Seeks Damages from Minn. Publisher**

MINNEAPOLIS, Sept. 11.—Emmett Dalton, last survivor of the famous Dalton gang, which operated in Kansas and Kentucky years ago, filed suit in federal district court here seeking \$1,000,000 damages from William H. Fawcett, publisher of a monthly magazine, because of articles published in the publication.

The article, it is alleged, reflected on the character of the gangsters, who had a high code of honor, even in their career of crime.

Since Dalton was released from prison in 1907, he has devoted much of his time to lectures on the subject of right living.

**NEW CHARTER WINS IN PORTLAND ELECTION**

PORTLAND, Me., Sept. 11.—Portland will begin the new year with a new form of municipal government as the result of yesterday's special election at which the charter providing for a council of five to be elected from the city at large without regard to ward lines or party designation, and a city manager to be chosen by the council was adopted after it failed to receive approval by about 100 votes when proposed two years ago.

The new charter was sponsored by a non-partisan committee of 100 which included prominent business men who sought a change of government. While it was generally known that the influence of the Ku Klux Klan was being strongly exerted in favor of this plan, officials of that organization did not come out definitely for it and Chairman Alexander T. Laughlin of the committee denied that, if adopted, it would be a victory for the Klan. No claims of victory or other statements had been made by the Klan officials but it was known that the Klansmen, who had been partisans of the council-manager charter were highly elated at the result.

Out of 17,515 votes cast, the plan adopted had 9,924, or 57.16 more than the 50 per cent of the total vote which was required under the provisions of the referendum.

For retention of the present charter, 6,931 were polled while 760 votes were for the revised charter plan proposed by a committee headed by Mayor Carroll S. Chaplin.

One member of the council will be elected annually after the first year, on the first Monday in December for a term of five years and will receive a salary of \$5,000 annually.

Another important change will be the formation of a new school board of seven members, elected at large, for terms of three years. The present board has 12 members, one from each ward, and three at large.

**SKATING SEASON OPENED LAST NIGHT**

A large crowd turned out for the re-opening of the local roller skating rink at the Crescent rink, Hurd street last night. The spacious hall had been closed to skaters since last June, when the equipment was moved to Hampton beach for the summer months. The beach season, which was very successful, was closed last Saturday, and the skates, organ, etc., came over the road Sunday, to be installed for last night's session. New skates and new music have been added in anticipation of a busy fall and winter season. The large attendance last night justified the action of the management.

During the season other improvements will be made to provide further enjoyment for those who enjoy a night on the rollers. Sessions will be held every evening except Thursday. On Saturdays there will be sessions afternoon and evening.

**BOSTON BROKER HELD FOR LARCENY**

BOSTON, Sept. 11.—Harry F. Coombs, president of Coombs, Crotch & Co., investment brokers, was arrested here today on a secret indictment warrant charging the larceny of \$600 from John Nolan of Lenox, Mass. The indictment recited that Coombs received 60 shares of Franklin Motor Co. stock from Nolan, having promised to sell them for him, but that he failed to pay Nolan for the securities.

**REPORT OF BIRTHS**

Sept. 3.—To Mr. and Mrs. Antonio Solazzo, 220 Charles street, a daughter.

Sept. 4.—To Mr. and Mrs. Thomas J. Sherrill, 107 Bedford street, a daughter.

Sept. 5.—To Mr. and Mrs. George W. Mulvey, 240 Hale street, a son; to Mr. and Mrs. Alfred Beauchene, 27 Jordan street, a son; to Mr. and Mrs. Thomas Baldwin, 7 Keene street, a daughter.

Sept. 6.—To Mr. and Mrs. Antoinette Balsicetti, 13 Ward street, a daughter; to Mr. and Mrs. Alfred Paquette, 881 Rogers street, a son.

Sept. 7.—To Mr. and Mrs. John Miazowski, 25 Andover street, a daughter; to Mr. and Mrs. Joseph C. Thorlakson, 6 Hamel place, a daughter.

Sept. 8.—To Mr. and Mrs. John H. Michaud, 50 Queen street, a son; to Mr. and Mrs. Oscar E. Landry, 34 Ward street, a son.

**No Demonstration at Corfu**

CORFU, Sept. 11.—News that both Greece and Italy had accepted the proposals made by the inter-allied council of ambassadors for the settlement of the Greco-Italian dispute was received quietly here and there was no demonstration. There is a tendency among the Italian authorities to wonder how long the occupation will continue. Some hazard the opinion that the evacuation will take place immediately and that all the forces will be out in 15 days. Others expect it will take a month or two for Italy to withdraw.

**PAUL E. GARRITY JOINS THE NAVY**

Paul E. Garrity of 445 Chelmsford street has enlisted in the navy as a fireman, third class, and will spend the next six weeks in training at the New-

**"CHOCOLATE" NIGHTS AT THE KASINO**

Tomorrow and Thursday nights will be "Chocolate" nights at the Kasino dancing pavilion in Thorneby street. Affairs of this nature have met with unusual success in the past and it is a foregone conclusion that the coming events will witness a repetition of the same popularity. Besides the beautiful music, including waltz and fox-trot numbers dispensed by Campbell's orchestra, the dancers will be given an opportunity to participate in a little fun of another variety. Various spots will be chalked off on the dance floor and the couple holding the lucky place as determined by the turn of a wheel, will be awarded prize boxes of chocolates of a well-known brand.

On Friday night of this week, Russell Howard and Katherine Voden of Cambridge will entertain Kasino patrons with their own clever and original dance interpretations. This couple has starred in ballroom dancing throughout New England and made a decided hit on a previous appearance here three years ago. The management also has a stellar program for next week.

**MAYOR HYLTON BETTER**

SARATOGA SPRINGS, N. Y., Sept. 11.—The improvement in the condition of Mayor John F. Hylan of New York city, which began earlier in the week, continued last night. At 8 o'clock this morning he was still sleeping, with temperature, pulse and respiration normal.

**Road Running Parallel to Canal Caves In**

PANAMA, Sept. 11.—The road running parallel to the Panama Canal caved in for a distance of 150 feet last Sunday afternoon, cutting off communication with several army posts. The damage is being repaired.

Fiddle-de-Fiddle-de-Fiddle-de-de!  
The children dance around with glee;  
For Betsy Ross will be their treat;

## THOSE CROSSING LINES

When the school children or some of them, returned to school yesterday morning, they were surprised to find two parallel lines of white painted across the streets from the school entrances front and side. The intention, we believe, is to have the children cross the street in each case between these parallel lines and thus avoid scattering all over the street in a crowd, thus exposing themselves to danger of accident. It is a good idea and if properly carried out will reduce the number of accidents in the vicinity of schools.

It is well to teach the children to observe street and sidewalk lines. When they are on the sidewalks, it will be well if they observe that the space so designated is distinct from the street and from the lawn on the other side. Some school children seem unable to distinguish between the sidewalk and the lawn adjoining. They usually prefer to walk upon the lawns rather than upon the sidewalks.

Perhaps it has never occurred to the average boy, that when he moves along a street, he passes through a network of boundary lines relating to streets, sidewalks, real estate ownership, as well as political divisions known as wards, districts and counties, not to mention meridians and parallels of latitude that mark respectively our distance east or west from Greenwich and north or south from the equator.

It would be well for every school boy to familiarize himself with these lines and learn what his duty may be in reference thereto. There are also invisible lines which the children should observe. They are the lines of duty, of responsibility, the division between right and wrong, good and bad, too little and too much, industry and shiftlessness, caution and recklessness. It is wonderful what a lesson there is in separating lines where as the poet says:

"And thin partitions oft divide  
The bounds where good and ill reside."

So is it with safety and danger. In the crowded conditions of city traffic it is often but a single step from the zone of safety to that in which danger threatens instant death.

## WAR AVERTED

Apparently the danger of war between Italy and Greece has been averted and for the nonce the League of Nations stands as an effective agency for promoting peace. But had Italy persisted, the question arises as to what the league would have done. It has no international army to send against a recalcitrant power, and the only other weapon that it could use would be the economic boycott.

As that has never been tried, its efficacy cannot be properly estimated. But the very existence of the league and the fact that it can control a combination of nations in behalf of world peace, must have a restraining power that will doubtless increase as time goes on, unless the league be utterly smashed by some of the great powers, or by making it the tool of any international clique or alliance.

## WHOSE THE CREDIT?

It seems that the citizens of Pennsylvania are up in arms against President Coolidge in account of a telegram sent by him to Gov. Pinchot thanking the governor for co-operation in settling the coal strike. The Pennsylvanians think it was the governor who settled the coal strike and that he did so after the federal government had thrown up its hands and said it could do nothing more toward reaching a settlement. If President Coolidge deserves any credit for the settlement that has been reached, it is because he had the good sense to call in Gov. Pinchot as the executive of the state in which the trouble occurred and the one man clothed with power to influence the parties in conflict. Governor Pinchot has secured a settlement of the present strike; but there is nothing to prevent the recurrence of similar conditions next year and the years following in the coal mines of Pennsylvania. To settle the trouble finally, is a matter to which congress will have to give its attention and it may have to solicit the co-operation of the government of Pennsylvania. We do not see that Governor Pinchot has done anything to bring him to the front as a presidential candidate. The controversy in regard to who should get the credit for settling the strike is somewhat similar to that which was waged in reference to the battle of Santiago, in the Spanish-American war. Admiral Sampson was commander of the fleet, but he was not present at the battle. Admiral Schley, his subordinate, was present and directed the attack. Nevertheless, according to the rules of war, Admiral Sampson, who had prepared for the battle, and that Ireland's neutrality will be the credit of the victory. So, we suppose, it would be in case of the coal strike, President Coolidge will get the credit and Governor Pinchot will be regarded as merely an innocent factor in the case.

## TOTH'S VICTORY

Charles Toth swam the English channel in 16 hours and 40 minutes from French side following the example of the Argentinian. It appears that the feat is much easier when the start is made from the French coast and not from the British as Henry Sullivan made his passage. Mr. Toth gets nothing for his achievement; but he will rank among the very few men who have accomplished that feat. If it were not for the grit of Henry Sullivan in swimming the channel, in all probability neither of the other two men who have swum the channel would have succeeded. His victory was the inspiration that carried them over. There is always a feeling in the breast of every man that he should be able to accomplish what others have done. It was Webb and Burgess who inspired Sullivan to such a dogged determination to conquer the channel.

## IRELAND

Ireland has been admitted to the League of Nations and can now be said to have taken her place among the nations of the earth. Her attitude in this respect, however, is rather misleading for the reason that it is the Free State that has been admitted to the League of Nations and this does not include Ulster. It is to be hoped, however, that in the near future Ulster will re-enter the Free State so that there may be a united Ireland and that Ireland's neutrality will no longer be based merely on a part of the real Ireland.

## CAR FARES

Our in Detroit, fare on the municipal trolley lines has been increased to six cents for single tickets and five and one-half cents for tickets bought in strips of nine, while an additional charge of one cent is made for a transfer. Here in Lowell the people would be satisfied with their six and one-quarter cents fare if they resolved to wait a minute in the price of coal as a result of the settlement, which will not be paid off for every car of coal used. He would throw away upon the present the responsibility of pay for the trolleymen in Detroit for any increase in price, hinting that it should be taken from the profits of the operators and the railroad rates, in order to avoid a deficit.

It would probably be more difficult to have the operators stand the increase on the railroads out their rates and wait for the payment of the same, which perhaps, is right. Governor Pinchot recommends to President Coolidge that steps be taken to prevent any increase in the price of coal as a result of the settlement, which will not be paid off for every car of coal used. He would throw away upon the present the responsibility of pay for the trolleymen in Detroit for any increase in price, hinting that it should be taken from the profits of the operators and the railroad rates, in order to avoid a deficit.

It would probably be more difficult to have the operators stand the increase on the railroads out their rates and wait for the payment of the same, which perhaps, is right. Governor Pinchot recommends to President Coolidge that steps be taken to prevent any increase in the price of coal as a result of the settlement, which will not be paid off for every car of coal used. He would throw away upon the present the responsibility of pay for the trolleymen in Detroit for any increase in price, hinting that it should be taken from the profits of the operators and the railroad rates, in order to avoid a deficit.

It is remarkable what a shrinkage appears in the reported number killed and wounded in the Japanese earthquake. The fact seems to be that not even the Japanese government will ever be able to enumerate the victims for the reason that no general census of the population has been taken and only a limited number of the residents even of Tokyo and Yokohama were registered.

The matter of preventing a coal strike is important, but if the terms of settlement will add to the price of the coal, the affair will not prove very

## SEEN AND HEARD

New rule permits Turks to have gold teeth. It will make them grin.

Russians will celebrate Christmas this year. Hope they get razors.

Canadian duck season has opened. Canadian farmers had better duck.

Since 30,000 horses are killed in bull fights in Spain every year they ought to use silvers.

## A Thought

Consider how much more you often suffer from your anger and grief, than from those very things for which you are angry and grieved.—Marcus Antonius.

## Did Not Bill Show

John, tipping the scale at 278 pounds, on a motor trip through Colorado, arrived in a little town about 1 p. m. He saw what appeared to be a restaurant. Parking his car, he entered the restaurant. Some one, with a once-white apron, sprang from behind curtains. John inquired, "Do you serve meals here?" The man with the apron sized him up from top to bottom, and finally answered, "We do, but we do not sell up sides."—Denver Post.

## Found His Friend

A man from Bennington, Vt., came to Chelsea to look up an old friend, and being a police officer naturally went to the police station to make inquiries. Ident. Duncan looked through the directory and the telephone book, and tried in other ways to locate the man, but not succeeding he invited the Vermont officer to look over the police station. As they were going by a tier of cells, a voice called, "Hello, friend," and there was the man they had been hunting for, getting over a jug behind the bars.

## True to Life

A western critic was invited by a friend to witness that worthy's latest play, doing well on Broadway. The critic spent an uneasy hour and then started out. The playwright stopped him in the lobby. Said the latter: "What's the matter?" "You call this a drama of New York society?" "Why not?" "My friend," said the critic, "the dialogue is the merest babbledash. It is the dullest, most banal stuff I ever listened to in all my life." "I thank you for your tribute to my realism," snarled the author of the play.—*Kahaboth Sunday Herald*.

## Hard to Explain

Prior to the World War, naval officers did not wear their decorations except on special occasions, but by the fall of 1917 all that was changed. An officer at that time who had an appointment with his wife was standing disconsolate and beruffled, waiting for her in front of a New York department store. Several typical metropolitanurchines gathered around him and began speculating on the source of his decorations. One of them asked him, "Hey, mister, you been to France?" "Yes," replied the officer. "How long was you over there?" "About a year." "How many battles were you in?" "None." "What's all then they've got you over there?" "They're ribbons indicating medals." "What's the valuer one?" "That one is for China." Then realizing that he was going to be questioned about each ribbon in turn, the officer, pointing to each, explained what it was: "This one is for the Spanish War; that one is for the Philippines. This one is for China and—" But the disappointed youngsters had heard enough. Cutting short the officer's remarks, the largest one said in a disgusted tone: "Aw, can't tell them! They only got doze rings for visiting places."

## "The Sands o' Dee"

"O Mary, go and call the cattle home,  
And call the cattle home,  
And call the cattle home,  
Across the sands o' Dee!"

The western wind was wild and dank  
wi' foam,

And all alone went she.

The creeping tide came up along the sand.

And o'er and o'er the sand.

And round and round the sand.  
As far as eye could see;

The blinding mist came down and hid the land;

And never home came she.

"O, it weed, or flesh, or floating hair,  
A tree of golden hair,  
O' drown'd maidens hair,—

Above the nets at sea?"

Was never salmon yet that shone so fair.

Among the stakes on Dee."

They rowed her in across the rolling foam.

The cruel, crawling foam.

The cruel, hungry foam...

To her grave beside the sea;

But still the boatmen hear her call the cattle home.

Across the sands o' Dee.

—CHARLES KINSLEY.

## INSPECTION OF GEN.

## ADELBERT AMES CAMP

The regular meeting and inspection of Gen. Adelbert Ames Camp, Inc., U.S.A.W.V., was held last night in Memorial Hall and was largely attended. There were several visitors present.

Gen. Walter P. Jones presided at the meeting and following a short business session, two new members were inducted into the camp.

The officer who conducted the annual inspection was Department Inspector Edward J. O'Farrell. O'Farrell had been highly complimented by the camp for his efficient work and the precision of his methods and manner of their operation in the camp.

The inspection was conducted in

the interest of the camp, the members of the organization and the local members to assist in every way possible in this work.

Among the visitors who addressed the gathering were the following: Capt. Adm. Frank Zeck of Camp 12 of Cambridge; Capt. Michael Michael J. Hogan of Cambridge; Past Com. Casparach of Waltham; Capt. Assistant Adm. Bernard Charles of Cambridge and Past Com. E. C. Johnson of Somerville. The main theme discussed by these visitors was the 25th anniversary of the organization to be celebrated on October 12 of this year.

Following the business session an excellent luncheon was served and brought to a close one of the most interesting meetings of the local organization.

## WILL DEDICATE POLISH HOME

The Gale estate, located at the corner of Washington and Third Streets, Roxbury, which was recently purchased by Polish societies of this state, will be dedicated October 12 as a Polish home for Americans of Polish descent. This building will also be the headquarters for the society, which is making plans for the exchange between American and Polish universities, which is headed by Prof. Stanislaus Nowakowski of Clark University and Leon Koperniak of Boston.

It is assumed that everybody is trying to help the police solve the murder mystery.

## Tom Sims Says

Pinchot says he will go through with coal troubles until cat is skinned. We may be this cat.

Auto hit a man named Solinski in Los Angeles. Our guess would be the auto though he was a Pole.

People who don't like stock actors will enjoy learning one was jailed for speeding in Oregon.

Chicago agents have seized 1,694,640 bad eggs. Grand Opera will open in Chicago soon.

People riding turtles better than cope will enjoy learning a turtle nearly drowned a Delaware cop.

About 6,000 cases of beer were seized in Philadelphia, but the weather is getting cooler now.

Thousands of auto drivers will enjoy learning a truck knocked a train off the track in New Jersey.

Major General March has married. Now he will learn how it feels to obey orders.

Major General Davis claims he read 111 books in 10 days. We claim he had a platoon helping him.

Michigan vacationist was lost in the woods 13 days. Just think of the money it saved him.

Two brothers parted 50 years met in Boston. Ret. one said, "Where is that necktie of mine?"

The Prince of Wales will travel incognito. That's nothing. All of us travel that way.

Lloyd George continues to prove his greatness. He will visit America without lecturing.

Prize fighter in Pierce, Neb., punched the referee. May claim he mistook him for a baseball umpire.

Had a 40-mile canoe race on the Illinois river. The man best at paddling his own canoe won.

They say Luis Firpo, the boxer, is saving his money. Well, he has to fight to get the stuff.

St. Louis wife says she will follow Hubby until desert sands grow cold. Not so romantic. He owes her \$100.

Michigan woman wants \$75,000 heart balm. Aw, have a heart, woman!

Estimates place the golf players in the United States at 3,000,000, which is a lot of cussing.

## NEW PRESS FOR HARDING STAMP

WASHINGTON, Sept. 11.—The demand by postmasters throughout the country for supplies of the new Harding stamp has been so great that it is necessary to authorize the bureau of engraving and printing to supply the flat bed process with the rotary process used heretofore only on one-cent stamps. It was announced by Postmaster General New yesterday.

Postmaster by the rotary press will be by 10, instead of 15, as in the flat bed press. The performance being made in one operation instead of two.

The first of the Harding memorial stamp printed on the rotary press will be placed on sale at the Washington post office and the Philatelic agency, Wednesday, Sept. 12.

## THE MAN ABOUT TOWN

The ushering in of the Jewish New Year, brings to our minds that in three more months we too shall usher in a New Year, and a leap year at that! No doubt Gullip will do his utmost.

Although the air was a bit chilly for bathers Sunday afternoon, nevertheless, many took their last dip of the season at the municipal bath house. The day was ideal for afternoon strollers, and there were many who congregated at the bath house on the closing day. There were not as many children as usual, due to the fact, perhaps, that the opening of school and the minor details attending occupied their minds to such an extent that a last dip was forgotten.

Lowell members of the Legion who attended the state convention at Marshfield last week, say "Tom" Dinson made a creditable showing in the contest for state treasurer. Mr. Dinson has done great work for the local post and has served efficiently in several capacities. His entry into the state night was late and to this fact his supporters credit his defeat. John J. Walsh, who was a candidate for reelection as state historian, withdrew from the contest in favor of Dr. F. P. Andover, the successful candidate. Dr. F. P. Andover is the author of several interesting books on the World war and the Lowell delegation feels he will make an able historian.

Sanitary conditions at the old Edison school remain unchanged with the exception of fall activities, says a member of the faculty. Persons interested in the erection of a new school for the youth end district are disappointed. I am told, by the unremedied conditions existent in this educational centre. The upper portion of the school condemned as unsafe last January, has been abandoned for use by the school authorities and only nine rooms are in operation this year. The question again presents itself, "When will a new and modern school be erected?"

Among the visitors who addressed the gathering were the following: Capt. Adm. Frank Zeck of Camp 12 of Cambridge; Capt. Michael Michael J. Hogan of Cambridge; Past Com. Casparach of Waltham; Capt. Assistant Adm. Bernard Charles of Cambridge and Past Com. E. C. Johnson of Somerville. The main theme discussed by these visitors was the 25th anniversary of the organization to be celebrated on October 12 of this year.

Following the business session an excellent luncheon was served and brought to a close one of the most interesting meetings of the local organization.

## WILL DEDICATE POLISH HOME

# DEMPSEY HAS NO FIXED PLAN IN MIND FOR BATTLE FRIDAY NIGHT

## CHAMPION TO WAIT FOR OPENING AND THEN CRASH OVER WITH HARDEST SOCK HE CAN LAND

**May Decide to Fight Firpo the Way He Fought Willard Back in Toledo—Firpo Begins to Taper Off His Training—Is in Fine Condition**

SARATOGA SPRINGS, N. Y., Sept. 11. (By the Associated Press)—When Jack Dempsey steps out of his corner in the Polo Grounds ring Friday night, to defend his title against Luis Angel Firpo, he will have no fixed plan of battle in mind except to be careful, not run any dangerous risks, wait for the first opening, and then crash over with the "hardest sock I can whenever I can land."

The champion, bundled in a heavy sweater and drawing his chair close to a fire that roared in the little stove in the living room of the training cottage, declared today he never planned a fight in advance; that to do so would be a mistake because, he said, the best of plans may be swiftly upset with a solid smash on the chin.

"Then you are in a tough spot and haven't much time to rearrange your ideas," Dempsey explained.

"It's possible that I may decide to fight Firpo the way I fought Willard back in Toledo four years ago—circle around him, keep him from hitting me, watch for the first opening in sight, and then whoop away with everything I have. Most big men are easy to hit when you can outspeed them. But if I find that Firpo is a tough bird to sock or that he is seeking me, I may switch my tactics. I'll have to try something else. If one thing doesn't work, that's sure."

"When I step into Firpo and begin to sock, the night may be decided by the first few punches. I want to put every ounce of my strength back of them. If I am lucky enough to get him dizzy, I'll rear for all I'm worth."

The titleholder still has a trace of the cold he contracted ten days ago, but it is not bothering him much. He said he weighed about 193 pounds and probably would enter the ring weighing about 190 pounds.

**Firpo Begins to Taper Off**

ATLANTIC CITY, N. J., Sept. 11. (By the Associated Press)—Arrived at fighting condition, Luis Angel Firpo began today to taper off his training for the match with Jack Dempsey in New York Friday night.

The sparring and road work to day was ordered cut down. Dr. Juan Reilly and Dan Washington, the masseur, declared that the Argentine was all ready and needed but a little work today and tomorrow to put him in proper shape for a grueling battle.

The challenger is in as fine a men-

**ROCHE AND BROWN ARE HAS ONE ARM BUT PLAYS OF FIGHTING TYPE**

While Romeo Roche, the Holyoke featherweight, who is to meet Newport boxer Johnny Brown in the main event of the Moody club show on Thursday night, has never appeared before local fans, the fact that he points to victories over such well-known fighters as "Red" Chapman and Mickey Travers is sufficient indication of his class and explanation why local fight followers are warming up to the impending battle.

Brown is well and favorably known here. In victory or defeat the Newport batter always gives a good account of himself. His great battle here with Al Shubert, while a reverse, stands out as one of his most conspicuous offerings. That hurricane will ever be remembered by those who were at the ringside. Brown's last in sending Shubert to the canvas in the fifth round will be recalled as an accomplishment that few of Shubert's more than 400 opponents have been able to achieve. And the rounds preceding and following that sensational three minutes of action have been recorded in local fight annals as about as furious as any ever witnessed in this city.

Thus with both men noted for the ability to rock and sock opponents, the far is expected to fly when they lock horns Thursday evening.

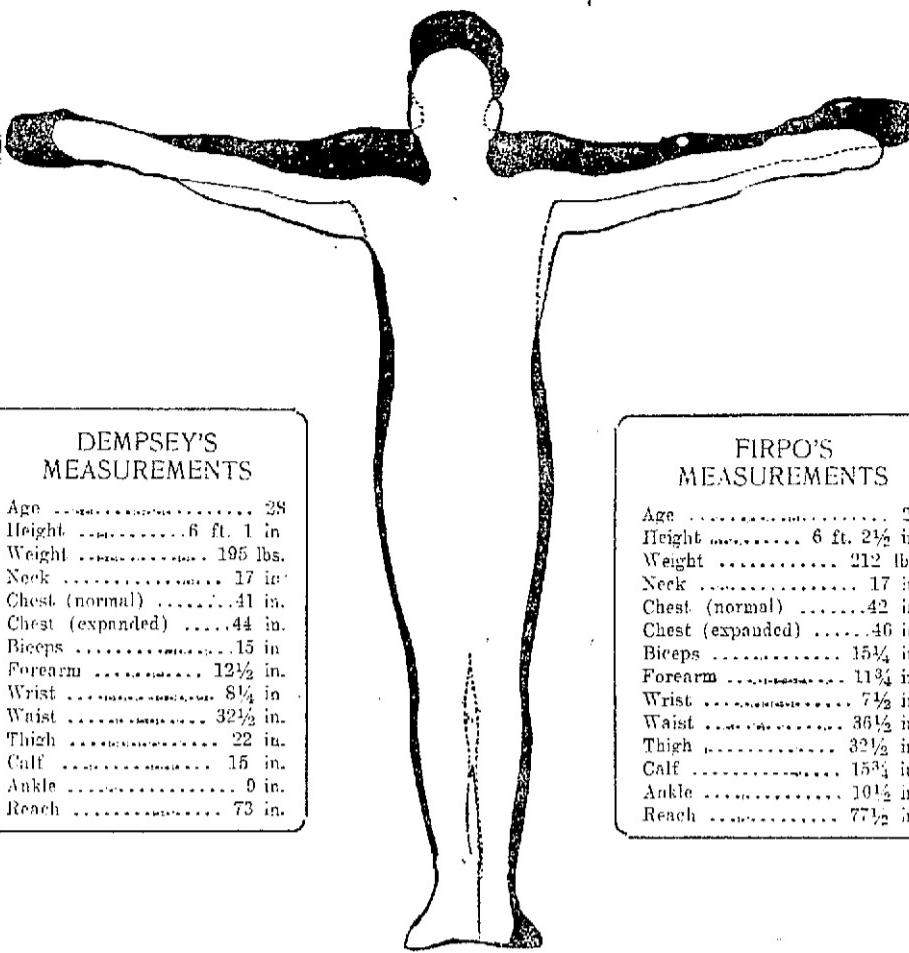

In the semi-final of eight rounds, Johnny Duffy of this city will try to halt the victorious march of Kid Cullen of Nashua, the New Hampshire flyweight champ. Cullen has won every one of his professional bouts via the knockout route.

To complete the card Eddie Munroe of Charlestown will go against Jack of Boston, while Al Corbett of Boston, who kaved Ray Rancourt of Lawrence, here on the holiday, and Young Ross of Lynn will open activities.

**TWILIGHT LEAGUE BANQUET TONIGHT**

Everything is in readiness for the banquet of the City Twilight League to be held at Marie's restaurant tonight, at 8 o'clock. The members of the four teams that comprised the league, the umpires, officials and several invited guests are to attend to celebrate the completion of a most successful season. Included among the guests are Mayor John J. Donovan, Sup. of Parks John W. Kieran, Assistant Supervisor of Playgrounds Arthur C. Sullivan, Sup. of Police Thomas R. Alderson, Police Lieutenant Patrick Frawley, Frank Reid and representatives of the press. Mayor Donovan, who was given the ball that he pitched to mark the formal opening of the season, has had it suitably inscribed and he will present it to the Americans, champions of the league. Mr. Reid will present the prizes to the winners of the popularity contest.

## How Dempsey and Firpo Stack Up

Here is a new departure method in the manner of comparing prizefighters. The gentleman in white is none other than Champion Jack Dempsey, against whom is silhouetted the blackened figure of Luis Firpo. These outlines are actual photographs, taken by Bob Dorman, (Sun photographer), who made them to scale and enlarged each the same amount. When making the first picture, which was of Dempsey, Dorman marked the spot on his camera where it had been focused, and then hustled away to Atlantic City, where setting his camera at the same mark again, he backed away from Firpo until the focus was sharp. The combined results gave two photos—one of Dempsey and another of Firpo—which had exactly the same perspective and measurement in every detail. These were then cut out, superimposed and painted over, producing the graphic comparative sizeups.

### Kinks o' the Links by PRO

In there any case in which it is possible to re-tee a ball after a stroke has been played?

After a stroke has been played, even though the club did not come into contact with the ball, which rolls from tee, it is not possible to re-tee the ball because it is in play and must be played from its lie. Only when a ball falls or is knocked from the tee while a player is in the act of addressing it, has the player the right to re-tee.

It is impossible for a player to remove a loose impediment that is lying in front of his ball, regardless of the distance that it may be from same. Once it make a difference whether the ball is through the green or on the green as to the removal of a loose impediment.

Therefore, if a player has a right to remove loose impediments that do not lie farther than a club length from the ball, if it is a greater distance than a club length he cannot remove same, unless it is on the putting green. A player is always within his rights in removing any loose impediment from the putting green that he does not interfere with his next shot.

Do stymies apply in four-ball matches?

Stymies do not apply in four-ball matches. In a four-ball match when on the putting green any player can leave any other ball lifted or played, at the option of its owner.

When a ball is lifted from "ground under repair" what is the proper procedure?

The ball must be dropped as near as possible to where it lay, but not nearer the hole.

Player drives from the tee. The one taken by his ball makes it seem that he has gone out of bounds. Upon reaching his ball he discovers that it is lying just within bounds. The position of the ball, however, is such that the player in order to properly play same must drop shot that is out of bounds. Is this permissible?

If a player's ball is within bounds, the player has a perfect right to stand out of bounds in assuming his stance, if he believes by so doing he will be able to get away a better shot.

**PHOTOGRAPHS OF SUN'S CORONA**

SANTA BARBARA, Cal., Sept. 11. (By the Associated Press)—The only successful photographs of the sun's corona made in southern California during the eclipse of the sun yesterday are believed to be those of Prof. James Worthington of London and Dr. Alfred E. Burton, professor emeritus of astronomy in the Massachusetts Institute of Technology.

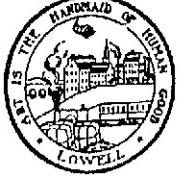

Prof. Worthington stated that four of the negatives developed by him were almost perfect and would rank with the best ever made during a solar eclipse.

Prof. Worthington and Dr. Burton had an expedition at an observation station established north of Santa Barbara. Weather conditions there were more favorable than at any other spot on the Pacific coast, according to the scientists.

**JOS. M. DINNEEN**  
Optometrist Optician

TELEPHONE 1603

**CARD OF THANKS**  
To all those who in any way assisted me in winning the Beard Most Popular Twilight League player cup! I extend my sincere thanks. The cooperation and support that I so greatly received from all parts of the country to help me realize my dream of being a champion is most gratifying to me. Thank you for expressing my gratitude to all of you for the clean and convincing victory in which they fought.

FRANCIS REGAN

## Collector's Notice

### CITY OF LOWELL

Office of the Collector of Taxes,  
Lowell, Mass., Sept. 4, 1923.

The owners and occupants of the following described parcels of real estate situated in the city of Lowell, in the County of Middlesex and Commonwealth of Massachusetts, and the public are hereby notified that the taxes thereon severally assessed for the years hereinbelow specified, according to the list committed to me as collector of taxes for said city by the assessors of taxes remain unpaid, and that the smallest undivided part of said land sufficient to satisfy said taxes, with interest and all legal costs and charges, or the whole of said land if no person offers to take an undivided part thereof, will be offered for sale by public auction at the office of the collector of City Hall, in said Lowell, on Thursday, Sept. 27, 1923, at ten o'clock a.m., for the payment of said taxes with interest and charges thereon unless the same shall be previously discharged.

179. Marie T. O'Neill, 5156 square feet of land, more or less, with buildings thereon, situate number 801 Stevens as shown on Plan E 19 of City Survey on file at office of City Engineer, with land now or formerly of Fred H. Peabody on the north, Angus S. and Ethel P. Marshall on the south, Alfred P. and Gertrude M. Webb on the west and Stevens Street on the east. Tax of 1922, \$62.75.

184. Charles Henry Osgood, 3169 square feet of land, more or less, with buildings thereon, situate number 575-580 Merrimack Street with land now or formerly of Edward J. Barrett on the west, Nora A. Murphy on the south, Suffolk Street on the east and Merrimack Street on the north. Tax of 1922, \$128.28. Street Sprinkling Asst., 2.66.

186. Peter Paczowicz, 1872 sq. ft. of land, more or less, with buildings thereon, situate number 15 Willow Street with land now or formerly of James J. Kennedy on the north, Lizzie W. Ordway on the south, Rose A. Hartford, Susan B. Jordan and Jessie W. Ordway on the east and James J. Kennedy and Willow Street on the west. Tax of 1922, \$126.00.

187. Andrew Parry, 5400 square feet of land, more or less, situate lot 47 Lexington Avenue as shown on Plan J 27 of City Survey on file at office of City Engineer, with land now or formerly of George A. McCormack on the north, south and Lexington Avenue on the east and west. Tax of 1922, \$126.00.

188. Christos Papachristopoulos, 7 and 44-100 acres of land, more or less, with buildings thereon, situate number 120 Sprague Avenue as shown on Plan G 5 of City Survey on file at office of City Engineer, with land now or formerly of Irving F. and Martha H. French on the east and south, Roxbury Street on the west and Sprague Avenue on the north. Tax of 1922, \$162.15.

189. Christos Papachristopoulos, 4 and 5-100 acres of land, more or less, situate south side Sprague Avenue as shown on Plan C 5 of City Survey on file at office of City Engineer, with land now or formerly of Eddie and Stayrouta Modestou on the south, Joseph and Georgiana Pavette on the west, Leeds Street on the north and Essex Street on the east. Tax of 1922, \$123.33.

191. Frank Paquette, 1875 square feet of land, more or less, situate lot 125 north side Martin Street as shown on Plan H 11 of City Survey on file at office of City Engineer, with land now or formerly of Joseph Z. Desrosiers on the east, Alcide and Albina Desrosiers on the west, Alexandre and Marie Bourassa on the west and Martin Street on the south. Tax of 1922, \$126.77.

192. Joseph and Georgiana Pavette, 11,108 square feet of land, more or less, situate lots 165-167 Essex Street as shown on Plan H 11 of City Survey on file at office of City Engineer, with land now or formerly of George and Stayrouta Modestou on the south, Joseph and Georgiana Pavette on the west, Leeds Street on the north and Essex Street on the east. Tax of 1922, \$13.77.

196. Joseph and Georgiana Payette, 4,500 square feet of land, more or less, situate for 258 Leeds Street, as shown on Plan H 11 of City Survey on file at office of City Engineer, with land now or formerly of Robert G. Bartlett on the north, Harry L. Perrin on the east, Francis E. Garrity and Harry L. Perrin on the south and Stevens Street on the west. Tax of 1922, \$44.37. St. Sprinkling Asst., 3.25. Meth Assessment, .29.

200. Harry L. Perrin, 3,662 square feet of land, more or less, situate east side of Stevens street, as shown on Plan H 21 of City Survey on file at office of City Engineer, with land now or formerly of Robert G. Bartlett on the north, Harry L. Perrin on the east, Francis E. Garrity and Harry L. Perrin on the south and Stevens street on the west. Tax of 1922, \$44.37. St. Sprinkling Asst., 3.25. Meth Assessment, .29.

206. Harry L. Perrin, 11,551 square feet of land, more or less, situate west side Chapel street as shown on Plan H 21 of City Survey on file at office of City Engineer, with land now or formerly of Eddie Greenberg on the north, Harry L. Perrin and Francis E. Garrity on the west, Philip Cohen and Robert G. Bartlett on the south and Canton street on the east. Tax of 1922, \$79.56. St. Sprinkling Asst., 4.30. Meth Assessment, .30.

208. Peter A. Plaschakas, 2200 square feet of land, more or less, with buildings thereon, situate number 35 Fulton street as shown on Plan I 16 of City Survey on file at office of city en-

gineer, with land now or formerly of Athanasios G. Kourembis and Abbad Naimallah on the north, Daniel Redding on the south and West and Fulton street on the east. Tax of 1922, \$100.68.

203. Carl M. Phil, 3,500 square feet of land, more or less, with buildings thereon, situate number 97 Grove Street, as shown on Plan II 10 of City Survey on file at office of City Engineer, with land now or formerly of Estella R. MacDonald on the west, Julia A. Samson and Ralph B. and Mabel E. Littlefield on the north, Manchester street on the east and Grove street on the south. Tax of 1922, \$100.68. Street Sprinkling Asst., 6.67. Meth Assessment, .50.

205. Joseph A. Poisson, 6,671 square feet of land, more or less, situate lot 212 south side Farmland road, with land now or formerly of J. N. Eugene Mercier on the east, Alexie Ducharme and Arthur and Alberine Gaudette on the west, Helis of Elie Poirier and Mabelle Poirier on the south and Farmland road on the north. Tax of 1922, \$12.34.

206. Alfred J. Prescott, 10,873 square feet of land, more or less, with buildings thereon, situate lot 113 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of City Survey on file at office of City Engineer, with land now or formerly of John Christy on the north, Ernest Lemire on the south, Marshall Pratt on the west and Pratt Avenue on the east. Tax of 1922, \$45.50.

207. Alfred J. Prescott, 4,050 square feet of land, more or less, situate parts lots 180-181 south side Princeton street as shown on Plan E 28 of City Survey on file at office of City Engineer, with land now or formerly of Elizabeth Thrift on the east, John Christy on the north, Ernest Lemire on the south, Marshall Pratt on the west and Pratt Avenue on the east. Tax of 1922, \$45.50.

208. Alfred J. Prescott, 10,873 square feet of land, more or less, with buildings thereon, situate lot 113 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of City Survey on file at office of City Engineer, with land now or formerly of John Christy on the north, Ernest Lemire on the south, Marshall Pratt on the west and Pratt Avenue on the east. Tax of 1922, \$45.50.

209. Alfred J. Prescott, 10,873 square feet of land, more or less, with buildings thereon, situate lot 113 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of City Survey on file at office of City Engineer, with land now or formerly of John Christy on the north, Ernest Lemire on the south, Marshall Pratt on the west and Pratt Avenue on the east. Tax of 1922, \$45.50.

210. Alfred J. Prescott, 10,873 square feet of land, more or less, with buildings thereon, situate lot 113 and part lot 133 west side Pratt Avenue, as shown on Plan E 26 of City Survey on file at office of City Engineer, with land now or formerly of John Christy on the north, Ernest Lemire on the south, Marshall Pratt on the west and Pratt Avenue on the east. Tax of 1922, \$45.50.

211. Louis Berentes, 4,600 square feet of land, more or less, with buildings thereon, situate numbers 72-76 Merrimack Street with land now or formerly of Edward J. Barrett on the west, Nora A. Murphy on the south, Suffolk Street on the east and Merrimack Street on the north. Tax of 1922, \$126.00.

212. Louis Berentes, 4,600 square feet of land, more or less, with buildings thereon, situate numbers 72-76 Merrimack Street with land now or formerly of Edward J. Barrett on the west, Nora A. Murphy on the south, Suffolk Street on the east and Merrimack Street on the north. Tax of 1922, \$126.00.

213. Louis Berentes, 4,600 square feet of land, more or less, with buildings thereon, situate numbers 72-76 Merrimack Street with land now or formerly of Edward J. Barrett on the west, Nora A. Murphy on the south, Suffolk Street on the east and Merrimack Street on the north. Tax of 1922, \$126.00.

214. Louis Berentes, 4,600 square feet of land, more or less, with buildings thereon, situate numbers 72-76 Merrimack Street with land now or formerly of Edward J. Barrett on the west, Nora A. Murphy on the south, Suffolk Street on the east and Merrimack Street on the north. Tax of 1922, \$126.00.

215. Louis Berentes, 4,600 square feet of land, more or less, with buildings thereon, situate numbers 72-76 Merrimack Street with land now or formerly of Edward J. Barrett on the west, Nora A. Murphy on the south, Suffolk Street on the east and Merrimack Street on the north. Tax of 1922, \$126.00.

216. Louis Berentes, 4,600 square feet of land, more or less, with buildings thereon, situate numbers 72-76 Merrimack Street with land now or formerly of Edward J. Barrett on the west, Nora A. Murphy on the south, Suffolk Street on the east and Merrimack Street on the north. Tax of 1922, \$126.00.

217. Louis Berentes, 4,600 square feet of land, more or less, with buildings thereon, situate numbers 72-76 Merrimack Street with land now or formerly of Edward J. Barrett on the west, Nora A. Murphy on the south, Suffolk Street on the east and Merrimack Street on the north. Tax of 1922, \$126.00.

218. Octave Richards, 1,844 square feet of land, more or less, with buildings thereon, situate numbers 17-19 Eugene street as shown on Plan C 2 of City Survey on file at office of City Engineer, with land now or formerly of Phillip J. Gralton on the east, Timothy and Catherine Doolin on the west, Harry P. Cutten on the south and Eugene street on the north. Tax of 1922, \$126.00.

219. Octave Richards, 1,844 square feet of land, more or less, with buildings thereon, situate numbers 17-19 Eugene street as shown on Plan C 2 of City Survey on file at office of City Engineer, with land now or formerly of Phillip J. Gralton on the east, Timothy and Catherine Doolin on the west, Harry P. Cutten on the south and Eugene street on the north. Tax of 1922, \$126.00.

220. Octave Richards, 1,844 square feet of land, more or less, with buildings thereon, situate numbers 17-19 Eugene street as shown on Plan C 2 of City Survey on file at office of City Engineer, with land now or formerly of Phillip J. Gralton on the east, Timothy and Catherine Doolin on the west, Harry P. Cutten on the south and Eugene street on the north. Tax of 1922, \$126.00.

221. Octave Richards, 1,844 square feet of land, more or less, with buildings thereon, situate numbers 17-19 Eugene street as shown on Plan C 2 of City Survey on file at office of City Engineer, with land now or formerly of Phillip J. Gralton on the east, Timothy and Catherine Doolin on the west, Harry P. Cutten on the south and Eugene street on the north. Tax of 1922, \$126.00.

222. Octave Richards, 1,844 square feet of land, more or less, with buildings thereon, situate numbers 17-19 Eugene street as shown on Plan C 2 of City Survey on file at office of City Engineer, with land now or formerly of Phillip J. Gralton on the east, Timothy and Catherine Doolin on the west, Harry P. Cutten on the south and Eugene street on the north. Tax of 1922, \$126.00.

223. Octave Richards, 1,844 square feet of land, more or less, with buildings thereon, situate numbers 17-19 Eugene street as shown on Plan C 2 of City Survey on file at office of City Engineer, with land now or formerly of Phillip J. Gralton on the east, Timothy and Catherine Doolin on the west, Harry P. Cutten on the south and Eugene street on the north. Tax of 1922, \$126.00.

# TO COST PUBLIC \$35,000,000

# STOCK MARKET

**Settlement of Coal Dispute  
Characterized as Patchwork**  
by Byron R. Newton

**Will Cost Public About  
\$35,000,000 With Penn.  
as Chief Beneficiary**

GLOVERSVILLE, N. Y., Sept. 11.—Settlement of the anthracite coal controversy was characterized by Byron R. Newton, former assistant secretary of the treasury, as a patchwork which will cost the public about \$35,000,000, with Pennsylvania as the chief beneficiary, in an address today before the New York State Coal Merchants' association convention.

"The public will pay from 75 cents to one dollar more on each ton of coal," Mr. Newton said. "The costs with the public in urging the closest co-operation between operators and public."

## NOTABLE FLIGHT OVER SEA AND LAND PLANNED

NEW YORK, Sept. 11.—Word of a coming notable flight over sea and land by two marine corps aviators from Fort Au Prince, Haiti, to St. Louis, was received here today. The flight, over a route of approximately 2,000 miles, will be timed to end in season for the Pulitzer air races in St. Louis on October 1-3. It will not form part of the race program, as the long-distance Pulitzer prize is restricted to civilian aviators, but will be in the nature of a test of the marine corps planes and pilots.

The planes will be flown by First Lieutenant Ford O. Rogers of Waco, Texas, and Second Lieutenant Horace D. Palmer, of Athens, Ohio.

The two pilots will have as mechanics First Sergeant Benjamin F. Belcher of Milledgeville, Ga., and Corporal Peter T. Tolosieck of Pittsburgh, Pa.

## MAIL LINER CUBA STRANDED ON REEF

SANTA BARBARA, Calif., Sept. 11.—The Pacific mail liner Cuba is stranded on a reef near Point Bennett, on the western edge of San Miguel Island.

The bulk was located yesterday by Captain L. Curtis, a representative of a New York salvage firm. All of the \$2,500,000 in silver bullion the vessel carried has been taken from the bulk and is en route to San Francisco on a United States destroyer. The \$500,000 cargo of cotton is lost.

The Cuban is entirely out of water on the reef and no hope of salvaging her is entertained. Her holds are full of water.

## Two Killed in Train Wreck

Continued

of the injured and a number were carried to the B. F. Sturtevant Co. plant nearby where first aid was given. Six police ambulances were hurried to the scene and medical assistance was on hand a few moments after the wreck.

## List of Injured

The train left Fall River at 2:05 standard time and was due in Boston at 10:40.

Among the most seriously injured were:

Mrs. Anna D. Miller, Canton.

Mrs. J. A. Murphy, Canton, injuries to leg and hip.

Miss Etta Martin, Canton, right leg injured.

Mrs. Martin Dion, Sharon, multiple injuries.

Mrs. Anna De Luca, Stoughton, injuries to arm.

John De Vito, Stoughton, multiple injuries.

Edu Marston, Canton, deep wound in leg.

Mrs. E. A. Maxim, Canton. John J. Regan, Taunton, multiple injuries.

Charles Condon, Stoughton, injuries to left leg.

C. G. Norman, Fall River, abrasions.

George L. Tobey, Stoughton, leg hurt.

Mrs. Delta Casey, Canton. Mrs. R. L. Smith, Bridgewater, N. S.

## Seriously Injured

NORTH EASTON, Sept. 11.—William J. Twaddell, Pond street, this town, employed in Boston, was seriously injured in the Headley's wreck, according to advices received by his relatives here this noon.

Cornelius Reilly, Main street, employed by the post office department in Boston, was also injured, but was able to come to his home in this town.

## Say Hundreds Buried Alive

Continued

being digested as the debris cleared away. Charred bodies are found in groups where the people thought they would be safe from fading flames—ordinarily the greatest menace to pedestrians in Japanese earthquakes.

It will take weeks to dispose of the dead in Tokyo, Yokohama and in the surrounding villages that suffered equally with the larger cities.

The Kawasaki manufacturing centre was wiped out. It included the shops of the General Electric Co., the Truscon Steel Co. and other concerns in which American capital is invested.

Despite the privations, horrors and damage suffered in Tokyo, life here is returning to normal.

The people are remaining remarkably patient under the most trying circumstances.

Foreshocks have had food enough despite the general shortage of staples. Officials promise continued improvement in the rationing. Relief supplies are arriving in large quantities.

Vietnam Lived in Fall River

FALL RIVER, Sept. 11.—Stephen Gotham, engineer on the wrecked train, resided at 604 June street, and had been in the employ of the New Haven road many years. He is survived by his wife, Margaret, two sons, Stephen of this city and William of New York, and a sister, Mrs. Mary Flanders of Arizona.

Andrew Anderson, foreman of the wrecked train, lived at 311 Broadway. He leaves his wife, Elizabeth P. Anderson, and two small children.

**PROVIDENCE STOCK MARKET**

NEW YORK, Sept. 11.—Favorable foreign news and higher foreign exchange rates continued to import a long tone to opening prices in today's stock market. Copper was again active and strong. Greene Campania leading the initial advance with a gain of one point. Other changes were largely fractional.

Except for the heaviness of Pan-American Oil issues and the leather stocks, the general market displayed a buoyant tone with sugar and mercantile issues in good demand. Hails also were more active at slightly higher prices. General Electric and Davidson Chemical each advanced two points and Cuba Cane Sugar preferred. South Porto Rican Sugar preferred. Punta Alegre Sugar, U. S. Rubber, Beechwood Packing, Reynolds Tobacco B. and International Harvester were among the many stocks to gain a point or more. Foreign exchanges opened strong, demand sterling advancing a cent to \$4.34% and French francs 12 points to 5.51 cents. Higher prices for refined sugar and cattle disputes indicating that Germany and France were approaching a solution of the reparations problem furnished speculators with ammunition for their campaign for higher prices. Many of the usual leaders, such as Standard Oil, Baldwin and U. S. Steel, which ordinarily govern the general trend, showed little change. Gold was rather sluggish but held well despite selling pressure against the Pan-American issues and Marconi. Low priced rails were freely bought and New York Central was listed at above 102. Cincinnati, Chicago & St. Louis spurted 6% points and American Boat Sugar 3. Call money opened at 5 per cent.

Persistent buying of special shares failed to stimulate the general market as a whole to a great extent after mid-day although some of the popular shares ruled fractionally higher than in the forenoon. U. S. Industrial Alcohol moved up 1% on the announcement of an advance of two cents a gallon in the price of commercial alcohol.

The close was firm. A bullish demonstration in Cotton which advanced 3 points in expectation of the maintenance of the present dividend, previously reported in danger, reinforced the later readings. Other oils which were heavy earlier, also stiffened.

**Money Market**

NEW YORK, Sept. 11.—Foreign exchanges firm. British demand 4.15%, cash 4.15%; 30-day bill 4.15%; cables 1.52%; France demand 5.75%; cables 5.75%; Italy demand 4.47%; cables 4.48%; Belgium demand 5.75%; cables 5.75%; Germany demand .000001; cables 4.60%; Holland demand 5.22%; cables 5.22%; Switzerland demand 1.50%; Spain demand .0001%; Czechoslovakia demand 2.5%; Jugoslavia demand 1.68%; Austria demand .001%; Romania demand 4.5%; Argentina demand 3.5%; Brazil demand 10.20%; Montreal 97.19-3%; Wall money firm; high 5%; low 5%; rolling rate 5%; closing bid 5%; offered at 5%; last hour 5%; call loans against acceptances 4%; time loans firm; mixed collateral 60-30 days 5%; 4-6 months 5%; price commercial paper 5%; 5-6 months.

U. S. government bonds closed: Library 2.28%; First 2.18%; Second 2.18%; Third 2.18%; Fourth 2.18%; Treasury 2.18%; 2.23%.

**Cotton Market**

NEW YORK, Sept. 11.—Cotton futures opened steady, Oct. 2.74; Dec. 2.74; Jan. 2.70; March 2.70; May 2.70.

Cotton futures closed steady, October 2.71 to 2.72; December 2.71 to 2.72; January 2.71 to 2.72; March 2.71 to 2.72; May 2.71 to 2.72.

**TELEGRAPHIC BREVITIES FOR PRESIDENT CLUBS IN 18 STATES**

PROVIDENCE, R. I., Sept. 11.—Formation of a society composed of Chinese students educated at the universities of America and Europe was advocated as a means of effecting the regeneration of China by Dr. J. R. L. Waddell, adviser to the Chinese ministry of communication in an address before the members of the Eastern section of the Chinese Students' Alliance in America at Brown university today.

ALBANY, N. Y., Sept. 11.—The state of New York will probably collect a tax of \$643,575 from the sale of tickets from the Dempsey-Firpo championship bout Friday night, State Treasurer George K. Shuler said today. This estimate is based on the belief that the gross receipts at the gate will amount to \$1,271,500.

The clubs established have a total membership of 26,000, according to Mr. Harrop who stated a petition was filed in Nebraska bearing 2,000 names asking Ford's name to be placed on the ballot, who it is planned will be chosen to head the party ticket, with "some southern farmer" as vice president.

Mr. Harrop contends that the country is running \$4,000,000,000 in debt yearly and states the chief issue of the party during the coming election will be that of money.

NEW YORK, Sept. 11.—Cablegrams dated Sept. 8 stating that the Yokohama specie bank had decided to declare its regular 6 per cent half year dividend at a stockholders' meeting Sept. 16, today were received by local representatives.

WASHINGTON, Sept. 11.—President Coolidge still is considering whether he will call a conference of state governors here, either before or after the annual meeting of the governors in Denver in October.

WASHINGTON, Sept. 11.—The search to Unpton's pond at Tynersville village and it is now believed investigations there will be confined to rowboat activities. The water is very shallow in the pond at the present time, making it impractical for a diver to work there.

This little sheet of water, hardly larger than a mill pond, comes up to the main highway only at a narrow culvert just beyond Tynersville post office. The water at the culvert is hardly two feet in depth and as the bottom is sandy, it is not difficult to see objects resting there.

The only other easy approach to the pond is from the rear of the wagon shed in back of the Congregational church, but unless persons were particularly familiar with the neighborhood this method of entry would not easily be located.

WASHINGTON, Sept. 11.—President Coolidge told callers today that he regarded the response of the nation to the appeal for relief contributions as very satisfactory.

NEW YORK, Sept. 11.—The man who

said he believed that the morality of the American girl was at its lowest

ebb, Rev. Dr. Frederick H. Knobell, president of the United Lutheran church of the United States and Canada, returned from a trip abroad today with the conclusion that the European girl is in worse.

## Jack Daw's Adventures. Chapter 23

"The boat won't attempt to land," replied the cook. "There are too many rocks here." By this time the ship had come close to the island and Jack saw that it was an American battleship. "The ship has dropped anchor," he shouted. "What are they going to do now?"

But before Kettles could answer him, Jack heard another loud report and a coil of rope landed right beside him. Kettles tied this rope to a tree and helped Jack climb into a basket that had come gliding along the rope. Soon the little adventurer was being pulled out to the ship.

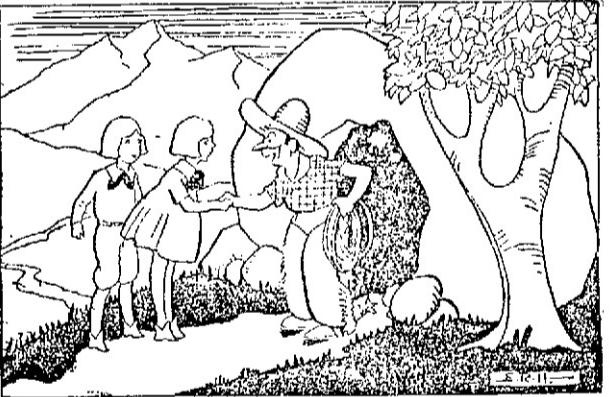

Jack landed on the deck of the battle-ship and then watched Flip and Kettles rescued in the same way. Then there was a great celebration as the boat started for home, and Jack's adventures with the Pirate Ship were over. His next adventure was under the ground.

## ADVENTURES OF THE TWINS

6/ Olive Roberts Barton

MISTER GALLON

"I HOPE YOU'LL LIKE THE WEST," SAID MISTER GALLON

"Well, well, well! I'm glad to see you," said Mister Gallon, stepping out of his cave in the Red Rock.

"And we're glad to see you, too!" said Nancy and Nick, climbing down on their knees and shaking hands with the cowboy, fairy.

"I hope you'll like the west," said Mister Gallon.

"Why, we love it already," declared Nick, looking around. The ponies had brought the Twins up a mountain path no wider than a dinner-table to Mister Gallon's cave. And from where they were standing they could look straight down, miles below, it seemed, where the prairie spread out in a great bat ocean of land.

"My, oh, my, but the world's big!" sighed Nancy.

"Yes, 'tis," agreed Mister Gallon, "but not big enough for some folks. That's my job out here, a sort of warden or ranger, or whatever you call people who keep order."

"There can't be many people living here!" remarked Nick in surprise. "I don't see a house."

Fellow American College of Surgeons  
YOUR EYES

You may be acquainted with the story of the Six Blind Men of Hindustan who went to "see" the elephant. Each told a different story of what the elephant resembled and of course all of them were wrong.

There is nothing which we would exchange for our eyes. If they are defective, through lack of early treatment or if the sight has been lost through carelessness or by an accident, we are all wrong, like the blind men of Hindustan.

Psychologists tell us of the great value and pleasing sense of color to the individual. Without it a great void exists in our lives which nothing can replace. With it, the world is ours, for the eyes are the windows of the soul and convey to our innermost being the real joy of living, through this sense of color.

## Guard From Birth

The eyes of the new-born baby should always be carefully examined and treated at once for the least weakness or impairment of vision shown by itself. In the great city hospitals it is a law that all babies' eyes must be treated as soon after birth as possible. The crede method by which a 1 per cent solution of silver nitrate is instilled in the baby's eyes is generally used.

The eyes of children should be carefully examined by a specialist before entering school and at least every year after that time in order to guard against any change in vision or eyesight.

Glasses are not always needed. In many cases, however, the use of correct lenses in early life will help and often restore eyes to their normal condition. Worth while, isn't it?

## Goggles for Workers

Shop goggles should be worn by all men who are exposed to the least danger in the mills and factories. To fit any false pride on the likes of follow workmen rob you of your eyes. Many mills have physicians and nurses to properly treat all accidents at once.

In spite of all precautions, there are times where eye accidents run high as 25 per cent of the total injuries.

Be aware of the so called shop owners. He is one of those fellow workers who is ready at all times with dirty hands and a sharpened match to remove foreign particles from your eyes.

There are infections so drastic of sight. A well-known surgeon in one of our great centers has recently suffered in this way. Guard your eyes against all infections. Do not attempt to treat yourself or anyone else.

At the least sign of trouble consult an expert at once. Use your hospitals, dispensaries, physio-clinics and nurseries where ever what is the most priceless that the mere touch means the loss of all your senses.

## SUMMARY OF EARLY MORNING A. P. NEWS

General Gregorio Semenoff formerly commander-in-chief of the All-Russian armies is reported to have been killed in Yokohama earthquake.

Oklahoma official Klansmen yield to Governor Walton's edict and forbid members of Klan to hold masked parades or meetings.

Red Cross officials at Washington announce that \$4,750,000 has been given so far by American people for Japanese earthquake sufferers.

Coolidge's Confidee-for-president club launches drive to get majority of Illinois delegates to support Coolidge for president in 1924.

J. P. Drucken, organizer of the Ku Klux Klan at Macon, Ga., is arrested on charges of plotting and assault and battery in connection with dynamites.

Prof. Irving Fisher of Yale, despite protests, addresses National W. C. T. U. convention at Columbus, Ohio.

Rev. J. W. R. Macneire at Philadelphia, appeals for establishment by the Roman Catholic church in the United States of institution similar to the Young Men's Christian association.

Maine lawmakers claim victory as a result of success of city manager plan Portland election.

New England conference reports that Protestant churches are losing ground steadily because of materialism fostered by Sunday golf, auto trips and money worship.

OPPOSE GERMAN EMIGRATION MUNICH, Ger., Sept. 11. (By the Associated Press.)—Leading Bavarian opposing the proposed emigration of newspapers have launched a campaign opposing the proposed emigration of Bavarians to Canada, unless there is a cessation of anti-German and war guilt propaganda in Canada.

Answering statements published recently which quote the Canadian government as offering free transportation to Central European farmer emigrants that press attacks the project, alleging that Canada, because of unemployment and the present price of grain, is little more attractive than their homeland to the farmers.

"What do you do when anyone's dead?" asked Nancy.

"I kiss them with my lasso," said Mister Gallon, pointing proudly to a coil of rope lying near.

(TO BE CONTINUED.)

(Copyright 1923, The Lowell Sun.)

SHH! Mister Gallon put his finger over his lips, "right over there," he whispered, pointing to a sharp rock with a dark place underneath. "Lives Mrs. Bent and her two children. Right beyond those pine trees live Mr. and Mrs. Antelope. I'm on top of that bald hill in the cliff lives old Granddaddy Golden Eagle. And down on the prairie live many people I can't tell you. Why, all those lumpy places are granddaddy houses. They've got a whole town laid out, but the silly things have their front doors on top, and gophers rabbits grow so big out here they look like dogs. Mister Kyte, er, Kyte, thinks he owns the whole place and lives anywhere he feels like. He's a mean one and makes a meal of any one who happens to be lonely. Why, he's got a sharp rock with a sharp point, and it's just made for hitting people. I can't tell you why, but he does enough damage where he is."

"What do you do when anyone's dead?" asked Nancy.

"I kiss them with my lasso," said

Mister Gallon, pointing proudly to a coil of rope lying near.

## FOUGHT WITH SEA LIONS

Passengers Tossed About in

Open Boat Finally Picked

Up by Tanker

SAN FRANCISCO, Sept. 11.—With

the passengers, most of the crew and \$2,500,000 in gold and silver bullion safely landed, Capt. C. J. Holland and four members of his crew last night remained on the Pacific Mail liner Cuba at the spot where she struck a reef, near Santa Barbara Saturday night.

The captain and his men stayed on the ship to look after the interests of the owner pending arrangements for salvaging the vessel. Reports earlier Sunday night that the ship had broken up and disappeared proved to be unfounded.

Some of the passengers and crew, together with the bullion, mail and baggage from the Cuba were landed at San Pedro yesterday by the destroyer Selfridge. Other members of the passengers and sailors were taken there by the destroyer Reno. Twelve of the crew and one passenger were brought in here yesterday by the Standard Oil tanker W. S. Miller.

Those brought here were picked up by the tanker after they had tossed about in an open boat for more than 20 hours. They declared that they were threatened a number of times by sea lions and had to fight them off with their hooks to keep them from upsetting the boat. The crew rowed the boat approximately 50 miles before they were found by the Miller.

## Radio Broadcasts

STATION WEAF, NEW YORK  
610 Ke, 422 Meters

7:30 p. m.—Sport talk by Thornton Fisher.

8:10 p. m.—Evelyn Darville, soprano, and Oliver Stewart, tenor, Operatic program: "Shub-Hub-Mam" (from "La Bohème"); "Lucie" (from "Tosca"); "Lucie" (from "Madame Butterfly"); "The Garden Scene" (from "Faust" (Gounod); "The Irish Senator" in bits of Scotch and Irish wit.
